

CMS Tribal LTSS Program Survey

Please take a few minutes to complete the survey below. The purpose of this survey is to obtain information to help the Centers for Medicare and Medicaid (CMS) develop a list of tribally operated long-term services and supports (LTSS) programs across Indian Country. Tribes and tribal organizations may provide these services directly, or through a contract or agreement with an outside organization. LTSS are a set of health care, personal care, and social services delivered over an extended period to help persons who are unable to independently perform activities of daily living, such as getting in and out of bed, dressing, bathing, eating, and using the bathroom. LTSS may be provided in community and institutional settings or in a person's own home.

Your response is voluntary. The information from this survey will be shared online on the CMS' LTSS Technical Assistance Center webpage. Thank you for your time.

PRA Disclosure Statement According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-New (Expires: TBD). The time required to complete this information collection is estimated to average 15 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
