SSNVS Overview

There are two Internet verification options you can use to verify that your employee names and Social Security numbers (SSN) match Social Security's records. You can:

- Verify up to 10 names and SSNs (per screen) online and receive immediate results. This option is ideal to verify new hires.
- Upload overnight files of up to 250,000 names and SSNs and usually receive results the next government business day. This option is ideal if you want to verify an entire payroll database or if you hire a large number of workers at a time.

While the service is available to all employers and third-party submitters, it can only be used to verify current or former employees and only for wage reporting (Form W-2) purposes.

Why Should I Verify Names and SSNs Online

- Correct names and SSNs on W-2 wage reports are the keys to the successful processing of your annual wage report submission.
- It's faster and easier to use than submitting your requests paper listings or using Social Security's telephone verification option.
- Results in more accurate wage reports.
- Saves processing costs and reduces the number of W-2c's.
- Allows Social Security to give the proper credit to your employees' earnings record, which will be important information in determining their Social Security benefits in the future.

Social Security Number Verification System (SSNV)

OMB Approval No. 0960-0660

[Paperwork Reduction Act](#)

SSNV Attestation

Proper Use of Social Security Number Verification Service (SSNV)

- SSNV should only be used for the purpose for which it is intended.
- SSA will verify Social Security Numbers (SSNs) solely to ensure the records of current or former employees are correct for the purpose of completing Internal Revenue Service (IRS) Form W-2 (Wage and Tax Statement).
- It is illegal to use the service to verify SSNs of potential new hires or contractors or in the preparation of tax returns.
- It is appropriate to use SSNV only once an official employer-employee relationship has been established. SSA defines the existence of an employer-employee relationship as when one of the following has occurred:
 - The employer's offer of employment and acceptance by the person being hired (even though he/she has not started working); and/or
 - The future employee's completion of the paperwork to establish the payroll record.
- Company policy concerning the use of SSNV should be **applied consistently to all workers**, for example:
 - If used for newly hired workers, verify information on all newly hired workers.
 - If used to verify information on other workers, verify the information for all other workers.
- Third-party use of SSNV is strictly limited to organizations that contract with employers to either handle the wage reporting responsibilities or perform an administrative function directly related to annual wage reporting responsibilities of hired employees. It is suggested that contracts between the third-party and the employer stipulate that the functions being performed by the third-party contractor adhere to the proper use of SSNV. It is not proper to use SSNV for non-wage reporting purposes, such as identity, credit checks, mortgage applications, etc.
- Anyone who knowingly and willfully uses SSNV to request or obtain information from SSA under false pretenses **violates Federal law** and may be punished by a fine, imprisonment or both.
- SSA may ban you and/or the company you represent from the use of SSNV if SSA determines there has been misuse of the service.
- SSA returns all names and SSNs submitted. If the name and SSN do not match our records, SSA advises the following:
 - This response does not imply that you or your employee intentionally provided incorrect information about the employee's name or SSN.
 - This response does not make any statement about your employee's immigration status.
 - This response is not a basis, in and of itself, to take any adverse action against the employee, such as laying off, suspending, firing, or discriminating against the employee.

If you rely only on the information SSA provides regarding name and SSN verification to justify adverse action against a worker, you may violate State or Federal law and be subject to legal consequences.

Additional Information for Third-Party Submitters

You can use a fee-based approach when offering SSNV to your clients. However, caution should be taken. SSA offers services, like SSNV, free of charge. Some companies in the private sector offer those same services for a fee and develop misleading brochures and advertisements. To discourage the use of misleading mailings about Social Security and Medicare, Congress enacted specific prohibitions in Section 312 of the Social Security Independence and Program Improvements Act of 1994 that broadened the existing detentions. The prohibitions are codified at Title 42 of the U.S. Code, Section 1320b-10. You should ensure that you are aware of these legal provisions and conform to their requirements and:

- Be cautious not to suggest to your clients that this service is only available through you;
- Advise all clients that this service is available at no cost from SSA and that this service is not a unique or exclusive arrangement between SSA and your company; and
- Be sure not to give any impression when describing your SSNV service to your clients that your company has an arrangement that allows direct access to SSA databases, program software, etc.

User Certification for Use of SSNV - Please Read Carefully!

I certify that:

- I have read and understand the above section titled "Proper Use of Social Security Number Verification Service (SSNV)" and the "Federal Privacy Act Statement for Third-Party Submitters".
- I am verifying SSNs solely to ensure that the records of my client's or my current or former employees are correct for the purposes of Form W-2 reporting.
- I am authorized, under valid contracts with all outside employees of any individual for whom I will request SSN verification, to transmit employee SSNs and identifying information and to receive the results of SSNV;

or

I have the authority from my employer (or am the owner of the company) to transmit employee SSNs and identifying information and to receive the results of SSNV.

By selecting the "I Accept" button, you certify that you have read, understand and agree to the user certification of Business Services Online.

WHAT TO DO IF AN SSN FAILS TO VERIFY

Follow these steps for each SSN that failed verification:

1. Compare the failed SSN to your employment records to see if you made a typographical error. Resend only the corrected data (not the entire submission).
2. If your employment records match what you submitted, ask your employee to check his / her Social Security card and inform you of any name or SSN difference between your records and his / her card. If your employment records are incorrect, correct your records and resubmit the corrected data.
3. If your employment records and the name and SSN shown on the Social Security card match, ask the employee to check with any local Social Security Office to determine and resolve the issue. Tell the employee that once he / she has visited the Social Security Office, he / she should inform you of any changes. You should correct your records accordingly.
4. If the employee is unable to provide a valid SSN, you are encouraged to document your efforts to obtain the corrected information. (Documentation should be retained consistent with the payroll records for a period of three years.)
5. If the employee no longer works for you, try to obtain the corrected information from the employee and submit it to SSA on Form W-2c (Corrected Wage and Tax Statement).
6. If you are unable to contact the employee, you are encouraged to document your efforts.
7. If you have already sent a Form W-2 with an incorrect name / SSN, then submit a Form W-2c (Corrected Wage and Tax Statement) to correct the mismatch. W-2c services are available through BSO Wage Reporting. Since you already have your BSO User ID, there is no need to re-register.

Remember

- ▶ A mismatch is not a basis, in and of itself, for you to take any adverse action against an employee, such as laying off, suspending, firing, or discriminating.
- ▶ Company policy should be applied consistently to all workers.
- ▶ Any employer that uses the failure of the information to match SSA records to take inappropriate adverse action against a worker may violate State or Federal law.
- ▶ The information you receive from SSNVS does not make any statement regarding a worker's immigration status.

Steps: 1. [Before You Start](#) 2. [Submit Your File](#) 3. Confirmation

1. Before You Start

The following items below are suggestions to follow before submitting your file for SSN verification.

- **Review your file(s) for correct formatting**

Before submitting your file, we recommend that you ensure the file is error-free and can be sent quickly.

- We provide the proper file format on the SSNVS Help page and in the SSNVS Handbook. Reviewing your file for proper formatting may prevent it from being rejected.
[Submission File Format](#)
- Do NOT send an Excel Spreadsheet. If you are using Excel, select [Excel Users](#) for more information.
- Effective 09/24/11, gender is no longer used as part of the SSN verification process. You do not need to make any changes to the file format. If a value is included in position 54 of a file, we will remove it and replace it with a blank prior to the verification attempt. All returned files will have a blank in position 48.

- **Zip Your File**

If you have over 500 Name/SSN requests or a slow connection, the transmission will be faster if the file is zipped (compressed). WinZip and PKZip are examples of acceptable compression packages. This will substantially reduce the time required to transmit your file.

Introduction

The Social Security Number Verification Service (SSNVS) enables employers to validate their employee's names and Social Security Numbers (SSNs) against information in the Social Security Administration's (SSA's) records, via the Internet. SSNVS provides the options in the list below. For more information on an option, select one (1) of the hyperlinks below:

- Verify up to 10 names and SSNs and get immediate results via the [SSN Verification](#) web page
- Submit files for overnight processing via the [Submit a File for SSN Verification](#) web page
- Check the status of files submitted for overnight processing via the [Status and Retrieval](#) web page
- Download and/or view submission results via the [Status and Retrieval Results](#) web page
- View the SSNVS Handbook via the [Social Security Number Verification Service \(SSNVS\) Handbook](#) web page

SSNVS Usage

- SSNVS should only be used by employers to verify the names and SSNs of current or former employees.
- SSNVS should be applied consistently to all employees.
- Information obtained from SSNVS is not a basis, in and of itself, to take any adverse action against any employee whose name and SSN has been sent to the SSA for verification. Any employer that uses the information to justify taking adverse action against an employee may violate state or federal law and be subject to legal consequences.
