

BURDEN BREAKDOWN—Continued
[L/T = Lease Term, ROW = Right of Way]

Citation 30 CFR 250 Subpart Q	Reporting requirement	Non-hour cost burdens		
		Hour burden	Average number of annual responses	Annual burden hours (rounded)
		\$622,652 non-hour cost burdens		
Total Burden		4,766 Responses	29,318

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified three non-hour paperwork cost burdens for this collection. Respondents pay cost recovery fees when removing a platform or other facility under § 250.1727 for \$4,684, or for decommissioning a pipeline under § 250.1751(a)—L/T for \$1,142 or a ROW for \$2,170. The fees are required to recover the Federal Government’s processing costs, and we have not identified any others. We estimate a total reporting non-hour cost burden of \$2,154,320 for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”. Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the

Bureau representative listed previously in this notice. We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

AGENCY: Office of the Assistant Secretary for Policy, Chief Evaluation Office, Department of Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies

This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents is properly assessed.

Currently, the Department of Labor is soliciting comments concerning the collection of data about the National Evaluation of the Performance Partnership Pilots for Disconnected Youth (P3) [ED-GRANTS-112414-001]. A copy of the proposed Information Collection Request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before July 18, 2016.

SUPPLEMENTARY INFORMATION:

I. Background

The information collection activities described in this notice will provide data for a systems analysis, as well as implementation and outcome evaluation of the Performance Partnership Pilots for Disconnected Youth (P3) Program. Through the first cohort of P3 grantees, five partnering Federal agencies—the Departments of Education (DOE), Labor (DOL), and Health and Human Services (HHS), along with the Corporation for National and Community Service (CNS) and the Institute of Museum and Library Services (IMLS)—are testing innovative, cost-effective, and outcome-focused strategies for improving results for disconnected youth. Disconnected youth are defined as low-income youth between the ages of 14 and 24 and are either homeless, in foster care, involved in the juvenile justice system, unemployed, or not enrolled in or at risk of dropping out of school. The Federal partners hope to learn more about whether allowing states, localities, and Indian tribes greater flexibility to pool funds and waive programmatic requirements will help them overcome significant hurdles they face in providing effective services to and improving outcomes for disconnected youth. In October 2015, nine competitively-awarded grantees were announced as the first cohort of P3. They received up to \$700,000 in start-up funds and the flexibility to blend or braid existing discretionary funds from across programs to improve the outcomes of disconnected youth.

This information collection covers the systems analysis, as well as implementation and outcomes study which will address four main research questions: (1) How do the pilots use the

flexibility offered by P3 to implement P3 models and interventions to improve the outcomes of disconnected youth? (2) How has each pilot structured its P3 system and work across partners to provide effective services to disconnected youth? (3) What system change resulted from P3? and (4) Who are the youth who participate in P3, what services do they receive, and what are their outcomes? This **Federal Register** Notice provides the opportunity to comment on three proposed data collection instruments that will be used in the P3 implementation evaluation:

- *Site visit protocols.* The two site visits, anticipated to occur in 2017 and 2018, will include semi-structured interviews with grantee and partners administrators and staff and observations of program activities. Field researchers will use a modular interview guide, organized by major topics that can be adapted based on the respondent’s knowledge base, to prompt discussions on topics of interest to the study.

- *Focus group protocols.* During each implementation study visit, the evaluation team will conduct three focus groups per site. Each round of site visits will also include focus groups with youth participants. The protocol will be used to learn about P3 participants, including their initial interest and enrollment in P3, their experiences in the program, and their expectations for the future.

- *Partner Survey.* The survey will be administered during the two site visits to those partners working with the grantees. To better understand relationships of the partner entities within the pilot, the survey, a brief targeted tool, will explore the strength of relationships between the key entities (partners) involved in the P3 pilot. The short survey will systematically collect information on select elements of

partner interactions (frequency of communication, level of collaboration, and service referrals).

II. Desired Focus of Comments

Currently, the Department of Labor is soliciting comments concerning the above data collection for the P3 program. DOL is particularly interested in comments that do the following:

- Evaluate whether the proposed collection of information is necessary for the proper performance functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency’s burden estimate of the proposed information collection, including the validity of the methodology and assumptions;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology—for example, permitting electronic submissions of responses.

III. Current Actions

At this time, the Department of Labor is requesting clearance for the implementation site visit protocols, the focus group protocols, and a survey.

Type of Review: New information collection request.

OMB Control Number: 1205–0NEW.

Affected Public: Staff of state and local government agencies, for-profit institutions, and not-for-profit institutions; and youth participants. Respondent groups identified include (1) administrators and staff of grantees and partners organizations and (2) youth participants.
