

## PRIVACY THRESHOLD ANALYSIS (PTA)

**This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).**

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance  
The Privacy Office  
U.S. Department of Homeland Security  
Washington, DC 20528  
Tel: 202-343-1717

[PIA@hq.dhs.gov](mailto:PIA@hq.dhs.gov)

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

### *Specialized Template for Information Collections (IC) and Forms*

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

## SPECIFIC IC/Forms PTA QUESTIONS

### 1. Purpose of the Information Collection or Form

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*

*If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.*

This form provides a third party assessment of a wildland fire by a professional fire fighter (Principal Advisor) who has no vested interest in the outcome of a potential Fire Management Assistance Grant (FMAG) declaration. This form is completed by a U.S. Forest Service or Bureau of Land management professional fire fighter/Principal Advisor, and it collects his or her name, signature, the federal agency the Principal Advisor works for, office location, and up to three phone numbers (day (work), night (personal), and/or cellular (personal/work)).

The form captures information related to the fire incident to ensure the accuracy, completeness, and factual nature regarding the threat posed by an uncontrolled wildland fire for which a State is requesting a FMAG declaration. The form includes information on whether or not there are other fires nearby that may result in a conflagration and the number of large fires currently burning in the state. Information is also provided regarding the prevailing weather conditions including current temperature, humidity, wind and the proximity of fire to homes and communities and any natural or other barriers between fire and communities.

The name of any nationally recognized indices that predict the potential severity of a fire is included and the probability of growth and potential danger of the fire based on the geography, vegetation, and prevailing weather conditions.

Finally, the form has a place for an overall assessment of the fire that sums up the threat the fire poses to people, communities, infrastructure, and the environment.

- b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

The Federal Emergency Management Agency working through its 10 regions under the provisions of Section 420 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C 5187, as amended by § 303 of the Disaster Mitigation Act of 2000, uses these forms to collection information needed to make fire severity declaration and grant eligibility decisions for States, local governments and tribal governments. The authority to collect this information is include by reference.

<p>DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i></p>	
<p>FEMA Form 078-0-2 is a third party assessment of a wildland fire by a professional fire fighter (Principal Advisor). The form captures information related to the fire incident to ensure the accuracy, completeness, and factual nature regarding the threat posed by an uncontrolled wildland fire for which a State is requesting a FMAG declaration. The form is completed by a U.S. Forest Service or Bureau of Land management professional fire fighter/Principal Advisor, and it collects his or her name, signature, the federal agency the Principal Advisor works for, office location, and up to three phone numbers (day (work), night (personal), and/or cellular (personal/work)).</p> <p>The Privacy Office finds that the form is privacy sensitive and a PIA is required because FEMA collects information from federal employees or contractors, specifically professional fire fighters. PIA coverage is provided by DHS/FEMA/PIA – 013 Grant Management Program, which details FEMA’s collection of PII as part of the grant application process. The DHS Privacy Office also agrees that no SORN is required, since information is not retrieved by personal identifier. A Privacy Notice, however, is required because the form collects PII from federal employees or contractors. The Privacy Notice submitted along with this form needs to be updated to accurately reflect the individual completing the form.</p>
