## Multifamily Housing Service Coordinator First-Time Funding Request

The public reporting burden for this collection of information for the Multifamily Housing Service Coordinator Programs is estimated to average 40 hours per response for applicants, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information and preparing the application package for submission to HUD. When providing comments, please refer to OMB Approval No. 2502-0447. HUD may not conduct, and a person is not required to respond to, a collection of information unless the collection displays a valid control number. The information submitted in response to the Notice of Funding Availability for the Service Coordinator Program is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Public Law 101-235, approved December 15, 1989, 42 U.S.C. 3545).

Instructions for completing the HUD-91186					
Section I: Project Information					
the Service Coordinator. If you	the housing project that is included in your application and that will be served by ur application includes two or more projects, choose a lead project for the main ation for the other project(s) on the "More Projs" worksheet.				
Section II: Budget Information					
Complete one combined budget form for all projects in					
a. Personnel (Direct Labor)	This section should show the labor costs for The Service Coordinators and/or aides. Use the hourly labor cost for salaried employees (use 2080 hours per year or the value your organization uses to perform this calculation). You may include payroll taxes here. Do not show fringe or other indirect costs in this section.				
b. Fringe Benefits	Use the same standard fringe rate used by your organization. You may use a single fringe rate (a percentage of the total direct labor) or list each of the individual fringe charges. If your organization calculates fringe benefits differently, use a different base and discuss how you calculate fringe as a comment.				
c. Quality Assurance (QA)	Give the title of the professional (e.g. MSW) or agency who you expect to perform QA, the number of hours over the year you expect to use them, and their hourly rate. QA is limited to program evaluation activities and cannot exceed 10% of line II.a "Personnel (Direct Labor/Salary)". Line II.l calculates this percent by dividing the three-year QA total by the three-year Direct Labor total.				
d. Training	Give fees and rates for appropriate training programs, to the extent known. Otherwise estimate and provide basis for the projected cost.				
e. Travel	Provide mileage and cost estimates for use of private vehicles, public transportation, or airfare required to attend training programs. List necessary per diem rates in accordance with your organization's policies. Give travel destinations if known. Commuting costs are eligible if the Service coordinator serves multiple projects that are a significant distance from each other.				
f. Supplies and Materials	List the supplies you propose to purchase. You can use an anticipated consumption rate to estimate the cost of office or other common supplies, (e. g. 1 box paper clips every 3 months). Include replacement of office equipment. List items individually along with the quantity and their expected cost.				
g.1. Creating Private Office Space	List expenses associated with setting up a private office for the Service Coordinator. List each anticipated cost. You may incur these costs only during the first year of your program.				
g.2. Office Furniture and Equipment	List start-up expenses related to purchasing furniture, computers, printers, and other office equipment. List the quantity and unit cost.				
Total Start-Up Costs h. Other Direct Costs	Sum of lines g.1 and g.2.  Include costs such as telephone and Internet Service, printing, postage, and maintenance of office equipment, when such costs are attributable to the SC program only.				

Instructions for completing the HUD-91186				
i. Indirect Costs	OMB Circular A87 defines indirect costs as those that have been incurred by multiple programs for common or joint purposes. Indirect costs are associated with the centralized services distributed throughout your agency and cannot be readily identified with one particular program. Additionally, the costs should not be otherwise treated as direct costs. If your organization already has a Federally approved Indirect Cost Rate, use this rate and make a notation.			
j. Grand Total	Sum lines "a" through "i" for each year. You may increase costs from year to year by no more than 3%. The Grand Total 3-year amount in cell G114 must be the same amount you provide in your grant application.			
k. Contracts (Sub-Grantees)	If you will contract with a public or private agency to provide the Service Coordinator or Quality Assurance, list the activities and costs that would be included in the contract in this section.			
I. Quality Assurance Percent of line a, Personnel	Quality Assurance costs cannot exceed 10% of your total Direct Labor cost. The worksheet will calculate the percent. If it is over 10%, you must adjust either the QA or Direct Labor amounts.			
Continue III. Francisco Common and	d Time Daviede			
Section III: Funding Sources an	a time Perious			
	the four funding sources to pay the costs of a Service Coordinator program.  Individually or in combination with each other. Indicate which funding sources			

Housing owners can use any of the four funding sources to pay the costs of a Service Coordinator program. You may use these resources individually or in combination with each other. Indicate which funding sources you propose to use, by giving the dollar amount, the number of years and months during which you will use the funds, and the dates of the time period, if known (e.g. from May 1, 2012 to April 30, 2013).
