* For RMBS transactions, the sponsors will also incur an external cost in connection with securing a third-party due diligence report on compliance with 360.6(b)(2)(ii)(B). This cost is estimated to be \$500,000 per transaction.

General Description of Collection: Part 360.6 of the FDIC’s regulations sets forth certain conditions that must be satisfied for a securitization transaction sponsored by an insured depository institution to be eligible for special treatment in the event that the FDIC is appointed receiver for the sponsor. Among other conditions, the securitization documents must require compliance with certain disclosure requirements (including the requirements of Regulation AB of the Securities and Exchange Commission). Conditions of eligibility for special

treatment for participations in financial assets under Part 360.6 are also set forth. There is no change to the FDIC’s Part 360.6 affecting this information collection. The change in hourly burden and initial start-up costs are mostly attributed to the SEC’s changes to Regulation AB in its September 24, 2014 final rule.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether

the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Proposal to approve under OMB delegated authority the extension for three years, without revision, of the following report:

Report title: Policy Impact Survey.

Agency form number: FR 3075.

OMB control number: 7100-0362.

Frequency: On occasion, up to five times a year.

Respondents: Bank holding companies (BHCs), savings and loan holding companies (SLHCs), nonbank financial companies that the Financial Stability Oversight Council has determined should be supervised by the Board, and the combined domestic operations of foreign banking organizations.

Estimated number of respondents: 14.

Estimated average hours per response: 850.

Estimated annual burden hours: 59,500.

General description of report: This survey collects information from select institutions regulated by the Board in order to assess the effects of proposed, pending, or recently-adopted policy changes at the domestic and international levels. For example, the survey has been used to collect information used for certain quantitative impact studies (QISs) sponsored by bodies that the Board is a member of, such as the Basel Committee on Banking Supervision (BCBS) and the Financial Stability Board (FSB). Recent collections have included the Basel III monitoring exercise, which monitors the global impact of the Basel III framework,¹ the global systemically important bank (G-SIB) exercise, which assesses firms' systemic risk profiles,² and a survey of the domestic systemic risk footprint of large foreign banking organizations. The surveys have helped the Board assess changes in regulation related to systemic footprint, insurance underwriting, trading book securitization, among other areas. Since the collected data may change from survey to survey, there is no fixed reporting form.

¹ For more information on the Basel III monitoring exercise, including recent examples of QIS surveys sponsored by the BCBS and conducted by the Board, see www.bis.org/bcbs/qis/.

² For more information on the G-SIB exercise, see www.bis.org/bcbs/gsib/.
