CICC Survey, English

Case Investigation of Cervical Cancer (CICC) Study

Sponsored by

The Centers for Disease Control and Prevention

Public reporting of this collection of information is estimated to average 15 minutes/hours per response, including the time for reviewing instructions and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX)

Tips for Filling out the Survey

- Please share your honest opinions. All of your answers are kept private.
- Please use a **BLACK** or **DARK BLUE** ink pen to mark your answers.
- Be sure to read all of the answer choices before marking your answer.
- Sometimes the instruction will say to skip one or more questions. Look for notes telling you whether you should skip a question. If there is no note, go to the next question.
- Answer all questions by putting an "X" in the box next to your answer, like this:

Example

1. In the past month, did you have any headaches?

Yes

No → **Go to Question 3**

Don't know → **Go to Question 3**

2. In the past month, how many times did you have a headache?

1-2 times

3-5 times

6 times or more

Don't know

3.

Please select YES or NO for each item	₁YES	₂NO
Did you respond to this question?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Are you male?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

A. CERVICAL CANCER HISTORY

- A1. When was the first time that a doctor or other health care professional told you that you had cervical cancer?

		/				
MONTH			YEAR			

- A2. Which of the following statements best describes how you were diagnosed with (invasive) cervical cancer for the first time? (Select **ONE**)

- I was diagnosed as part of routine exams (check-ups) or screening tests (NOT because of symptoms or problems I was having).
- I was diagnosed after seeking medical care to check on problems or symptoms I was having.
- Other (Specify): _____

Comments: _____

The next questions will ask you about your Pap and HPV screening history. A Pap test checks your cervix for abnormal cells that could turn into cervical cancer.

During a Pap test, an instrument is inserted into the vagina. This widens the vagina so that the upper portion of the vagina and the entire cervix can be seen. Your doctor then uses a small spatula or brush to gently scrape the surface of the cervix in order to pick up cells which are then examined under the microscope.

An HPV test checks your cervix for the virus (HPV) that can cause abnormal cells and lead to cervical cancer. The HPV test can find the HPV virus by testing cells collected at the same time as a Pap test.

- A3. Prior to your diagnosis, how often did you get cervical cancer screening (Pap test or HPV test) tests? (Select **ONE**)

- More than once a year
- Once a year
- Once every 2 or 3 years
- Every 3-5 years
- Less than every 5 years
- Not regularly screened
- No Pap test prior to cervical cancer diagnosis

Comments: _____
