

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0920-0953)

TITLE OF INFORMATION COLLECTION: Worker Notification Feedback Survey

PURPOSE: This survey will allow the Industry-wide Studies Branch (IWSB) to gather input from workers included in IWSB studies. IWSB conducts epidemiological studies of specific worksites. The annual number of workers included in IWSB studies varies from 150 to 30,000 workers in a study.

DESCRIPTION OF RESPONDENTS: Respondents are workers included in IWSB studies who will receive notification materials upon study completion. These worker populations range in their occupation and industry, but most of IWSB’s research studies include workers from the manufacturing, transportation, service, and healthcare sectors. The largest study population we have currently includes ~20,000 living workers. Based on previous experience using the survey, we can assume we will get a 15% response rate (3000 respondents) when mailing to a population of this size.

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

Respondents will consist of cohort members from IWSB studies. In many cases we are required by the NIOSH HSRB to notify cohort members of study results. Additionally, cohort members are often notified of pertinent findings even when we are not obligated to notify by the NIOSH HSRB. The proposed survey will accompany notification letters or other materials sent to cohort members who participated in IWSB research.
