

CRC Cross Sector Council Web-Survey

Form Approved

OMB No. 0920-0953

Exp. Date 8/31/2021

The purpose of this questionnaire is to collect information from NIOSH CRC Cross Sector Council members to understand preferences and ideas for how to address the NORA CRC Cross Sector Research Agenda through implementation projects including research to practice (r2p) activities, information exchange, networking, and dissemination and implementation activities in the upcoming year.

The results from this survey will serve as a basis for upcoming Council meetings and activities, and inform a plan for the Council to move forward with addressing the NORA CRC Cross Sector Research Agenda.

The questions have been organized into four main sections. Within each section, there are questions that address cancer, reproductive health, cardiovascular disease, and other chronic diseases as subsectors. You may skip subsections or particular questions for which you do not want to give your feedback. Your responses are confidential and will be reported in aggregate and anonymously to the upcoming NORA CRC Cross Sector meeting. Your responses will not be linked to any identifiers including your name or email address or disseminated to the public.

Thank you for your time.

Please click Next to start the questionnaire.

Public reporting burden of this collection of information is estimated to average 25 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to - CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333 ATTN: PRA (0920-0953).

CRC Cross Sector Council Web-Survey

Which of the following CRC Cross Sector objectives are most aligned with your interests/expertise? (select one or multiple)

1. Cancer

- | | |
|---|---|
| <input type="checkbox"/> Objective 1: Improve the ability to assess the burden associated with occupational cancer. | <input type="checkbox"/> Objective 4: Develop laboratory-based research, including new assays or methodologies to evaluate or understand potential mechanisms/carcinogenic potential. |
| <input type="checkbox"/> Objective 2: Assess the magnitude and characteristics of worker exposures and associated control technologies. | <input type="checkbox"/> Objective 5: Perform research to investigate the effectiveness of workplace screening for early detection of occupational cancers. |
| <input type="checkbox"/> Objective 3: Conduct analytic epidemiology and toxicology studies of prioritized populations and exposures to identify (or rule out) potential occupational carcinogens. | <input type="checkbox"/> Objective 6: Develop new methods for and conduct quantitative cancer risk assessments in support of authoritative recommendations for preventing occupational cancers. |

2. Adverse Reproductive Outcomes (ARO)

- Objective 7: Improve understanding of mechanisms by which hazardous agents and workplace factors are related to adverse reproductive outcomes.
- Objective 8: Improve the efficiency and effectiveness of systems to identify adverse reproductive outcomes, potential workplace risk factors, and workers at risk.
- Objective 9: Conduct and communicate studies of exposure and outcome; identify and quantify risk of adverse reproductive health outcomes associated with the workplace.

3. Cardiovascular Disease (CVD)

- Objective 10: Understand underlying mechanisms for CVD among workers.
- Objective 11: Understand risk factors associated with CVD.
- Objective 12: Develop and evaluate workplace interventions for CVD.

4. Other Chronic Disease Prevention

- Renal Disease
- Neurological Disease
- Other (please specify)

5. Would you be interested in being part of a sub-committee of Council members focused on self-selected activities or projects that contribute to the objective/s selected above?

Yes

No

It depends (please explain)

CRC Cross Sector Council Web-Survey

Questions in this section ask you to identify and prioritize the topics and issues that you believe are the highest priority to improve prevention and reduction of occupational cancer. You have the option to skip this section.

6. Would you like to

- Continue to questions on r2p priorities for the Cancer Subsector
- Skip to the next section on r2p priorities for the Reproductive Subsector
- Skip to the next section on r2p priorities for the Cardiovascular Subsector
- Skip to the next section on r2p priorities for the Other Chronic Disease Subsector (renal and neurologic)

Section 1 - R2P Priorities for the Cancer Subsector

7. For each **Cancer** item listed below, select the level of priority with which the **broad goal** needs to be addressed by **research-to-practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all the issues, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for the activity, or some other reason.

	Low priority	Medium priority	High priority
Reduce worker exposures and communicate associated control technologies.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exposures to potential occupational carcinogens among prioritized populations	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Laboratory-based research efforts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Effectiveness of workplace screening for early detection	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prevention of occupational cancers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify broad goal and level of priority)

8. For each industry sector, select the level of priority with which **Cancerrisk, intervention, and/or surveillance** needs to be addressed by **research-to-practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all worker sectors, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low priority	Medium priority	High priority
Service workers (business admin, bank tellers, educators, personal care, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Healthcare and Social Assistance workers (healthcare, childcare, elder care, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Manufacturing workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mining workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public Safety(fire fighters, corrections, law enforcement, wildland fire service, emergency medical service)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify worker group and level of priority)

9. For each item below, please select the priority level with which each **R2P Activity for Cancer** needs to be addressed. Please consider that although it is important to address all goals, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low priority	Medium priority	High priority
Prevent exposure to hazardous drugs/chemicals linked to cancer in healthcare	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prevent high priority agent /carcinogen exposures in manufacturing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prevent exposures to hazardous airborne contaminants, including crystalline silica and diesel exhaust, and lung cancer in mining workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exposures and cancers among fire service, corrections, and law enforcement workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Effective means to reduce carcinogen exposures in fire fighters	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

Section 1 - R2P Priorities for the Cancer Subsector

10. How much do you agree that we should address occupational **Cancer** with an r2p activity?

- Strongly agree
- Somewhat agree
- Not at all agree
- No vote

11. How aligned are these potential topics with your areas of interests/expertise?

- Strongly Aligned
- Somewhat Aligned
- Not at all Aligned
- No vote

12. There are several potential products that might be a good objective for a Council-led activity towards this potential topic. Of the list provided, check which you think would be the best two options for this product.

	Low priority	Medium priority	High priority
Sponsored Conference Sessions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Council-authored Journal article	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other written dissemination products (e.g. blog, fact sheet, Wikipedia page, disease prevention, best practices)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Trade Journal Articles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cross-Sector research meeting (e.g. with agriculture, health and safety, mining, services, transportation, etc)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Non-written dissemination product (e.g. webinar, video)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online training tools	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Apps (on the phone)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please describe)

13. How willing would you be to work on a subcommittee for an activity on Cancer?

- Count me in!
- I'll think about it
- Not at all willing
- No vote

CRC Cross Sector Council Web-Survey

14. Would you like to...

- Continue to questions on r2p priorities for the Reproductive Subsector
- Skip to the next section on r2p priorities for the Cardiovascular Subsector
- Skip to the next section on r2p priorities for the Other Chronic Disease Subsector

Section 2 - R2P Priorities for the Reproductive Health Subsector

15. For each **Reproductive Health** item listed below, select the level of priority with which the **broad goal** needs to be addressed by **research to practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all issues, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for the activity, or some other reason.

	Low Priority	Medium Priority	High Priority
Mechanisms by which hazardous agents and workplace factors are related to adverse outcomes.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Adverse outcomes, potential workplace risk factors, and workers at risk.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Communication of studies of exposure and risk of adverse reproductive outcomes (ARO) associated with the workplace.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

16. For each industry sector, select the level of priority with which **Adverse Reproductive Outcome risk, intervention, and/or surveillance** needs to be addressed by **research to practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all worker sectors, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
Service workers (business admin, bank tellers, educators, personal care workers, food services, beauty, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Manufacturing workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Healthcare and Social Assistance workers (healthcare, childcare, elder care, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify worker group and level of priority)

17. For each item below, please select the priority level with which each **R2P activity for Adverse Reproductive Outcomes (ARO)** needs to be addressed. Please consider that although it is important to address all goals, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
Prevent exposure to hazardous drugs and chemicals linked to ARO in healthcare	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Control of high priority agents that cause ARO in manufacturing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reduce chemical exposures associated with ARO among nail salon and beauty workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

Section 2 - R2P Priorities for the Reproductive Health Subsector

18. How much do you agree that we should address occupational **ARO** with an r2p activity?

- Strongly Agree
- Somewhat Agree
- Not at all Agree
- No vote

19. How aligned are these potential topics with your areas of interests/expertise?

- Strongly Aligned
- Somewhat Aligned
- Not at all Aligned
- No vote

20. There are several potential products that might be a good objective for a Council-led activity towards **ARO**. Of the list provided, check which you think would be the best two options for this product.

	Low Priority	Medium Priority	High Priority
Sponsored Conference Sessions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Council-authored Journal article	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other written dissemination products (e.g. blog, fact sheet, NIOSH Wikipedia page, disease prevention, best practices)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Trade Journal Articles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cross-Sector research meeting (e.g. with agriculture, health and safety, mining, services, transportation, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Non-written dissemination product (e.g. webinar, video)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online training tools	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Apps (on the phone)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Others? Please describe

21. How willing would you be to work on a subcommittee for an activity on **ARO**?

- Count me in!
- I'll think about it
- Not at all willing
- No vote

CRC Cross Sector Council Web-Survey

22. Would you like to . . .

- Continue to questions on r2p priorities for the Cardiovascular Subsector
- Skip to the next section on r2p priorities for the Other Chronic Disease Subsector

Section 3 - R2P Priorities for the Cardiovascular Subsector

23. For each **Cardiovascular Disease (CVD)** item listed below, select the level of priority with which the **broad goal** needs to be addressed by **research to practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all issues, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for the activity, or some other reason.

	Low Priority	Medium Priority	High Priority
Underlying mechanisms for CVD among workers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Risk factors associated with CVD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
How heat stress impacts risk and underlying mechanisms for CVD	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Workplace interventions for CVD (programs, policies, legislation, regulation, or collective bargaining)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

24. For each industry sector, select the level of priority with which **Cardiovascular Disease risk, intervention, and/or surveillance** needs to be addressed by research to practice activities (e.g. providing education, training, and resources). Please consider that although it is important to address all worker sectors, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
Service workers (business admin, bank tellers, educators, personal care workers, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Healthcare and Social Assistance (healthcare, childcare, elder care, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public Safety (fire fighters, corrections, law enforcement, wildland fire service, emergency medical service)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
TWU workers (truck/train/bus drivers, warehouse, utilities)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please specify worker group and level of priority)	<input type="text"/>		

25. For each item below, please select the priority level with which each **R2P activity for Cardiovascular Disease** needs to be addressed. Please consider that although it is important to address all goals, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
How work organization contributes to CVD in healthcare	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exposures to hazardous airborne contaminants and CVD in public safety workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mitigate CVD risk factors among fire service and wildland firefighters	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Low Priority	Medium Priority	High Priority
Effective cardiovascular health interventions among fire service and wildland firefighters (programs, policies, legislation, regulation, or collective bargaining)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Tracking occupational and non-occupational CVD risk factors among public safety workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Relationship between CVD, stress, and shift work among service workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reducing CVD risk factors in service workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Burden of CVD and risk factors among service workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Work organization factors and CVD among transportation, warehousing, and utilities (TWU) workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Decreasing CVD risk factors among TWU workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please specify activity and level of priority)	<input type="text"/>		

Section 3 - R2P Priorities for the Cardiovascular Subsector

26. How much do you agree that we should address occupational **CVD** with an r2p activity?

- Strongly Agree
- Somewhat Agree
- Not at all Agree
- No vote

27. How aligned are these potential topics with your areas of interests/expertise?

- Strongly Aligned
- Somewhat Aligned
- Not at all Aligned
- No vote

28. There are several potential products that might be a good objective for a Council-led activity towards **CVD**. Of the list provided, check which you think would be the best two options for this product.

- | | |
|--|--|
| <input type="radio"/> Sponsored Conference Sessions | <input type="radio"/> Cross-Sector research meeting (e.g. with agriculture, health and safety, mining, services, transportation, etc.) |
| <input type="radio"/> Council-authored Journal article | <input type="radio"/> Non-written dissemination product (e.g. webinar, video) |
| <input type="radio"/> Other written dissemination products (e.g. blog, fact sheet, NIOSH Wikipedia page, disease prevention, best practices) | <input type="radio"/> Online training tools |
| <input type="radio"/> Trade Journal Articles | <input type="radio"/> Apps (on the phone) |
| <input type="radio"/> Others? Please describe | |

29. How willing would you be to work on a subcommittee for an activity on CVD?

- Count me in!
- I'll think about it
- Not at all willing
- No vote

Section 4 - R2P Priorities for Other Chronic Disease Prevention

30. For each **Other Chronic Disease** item listed below, select the level of priority with which the **broad goal** needs to be addressed by **research to practice activities** (e.g. providing education, training, and resources). Please consider that although it is important to address all issues, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for the activity, or some other reason.

	Low Priority	Medium Priority	High Priority
Burden of renal and neurological diseases	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exposures and control strategies that lead to renal and neurological diseases	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heat stress and dehydration and their influence on the risk of renal and neurologic disease.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prevention of occupational renal and neurological disease	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

31. For each industry sector, select the level of priority with which **Other Chronic Disease risk, intervention, and/or surveillance** needs to be addressed by research to practice activities (e.g. providing education, training, and resources).

Please consider that although it is important to address all worker sectors, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
Agricultural workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Manufacturing workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public Safety workers (fire fighters, corrections, law enforcement, wildland fire service, emergency medical service)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify worker group and level of priority)

32. For each item below, please select the priority level with which each R2Pactivity for **Other Chronic Diseases** needs to be addressed.

Please consider that although it is important to address all goals, some may have a higher priority because of the magnitude of risk, the population affected, a pressing need for new information, or some other reason.

	Low Priority	Medium Priority	High Priority
Chronic pesticide exposure and neurologic disorders	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Intervention to reduce pesticide exposure (programs, policies, legislation, regulation, or collective bargaining)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Barriers to protect against pesticide exposure	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chronic kidney disease in agricultural workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
High-priority agent exposures and neurologic disorders in manufacturing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Control of high-priority agents that cause neurologic disorders in manufacturing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

Section 4 - R2P Priorities for Other Chronic Disease Prevention

33. How much do you agree that we should address occupational Other Chronic Diseases with an r2p activity?

- Strongly Agree
- Somewhat Agree
- Not at all Agree
- No vote

34. How aligned are these potential topics with your areas of interests/expertise?

- Strongly Aligned
- Somewhat Aligned
- Not at all Aligned
- No vote

35. There are several potential products that might be a good objective for a Council-led activity towards **Other Chronic Disease**. Of the list provided, check which you think would be the best two options for this product.

	Low Priority	Medium Priority	High Priority
Sponsored Conference Sessions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Council-authored Journal article	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other written dissemination products (e.g. blog, fact sheet, NIOSH Wikipedia page, disease prevention, best practices)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Trade Journal Articles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cross-Sector research meeting (e.g. with agriculture, health and safety, mining, services, transportation, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Non-written dissemination product (e.g. webinar, video)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online training tools	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Apps (on the phone)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Others? Please describe

36. How willing would you be to work on a subcommittee for an activity on **Other Chronic Disease**?

- Count me in!
- I'll think about it
- Not at all willing
- No vote

CRC Cross Sector Council Web-Survey

Section 5 - Additional Questions

37. For each item below, please select the priority level with which each **Cross Cutting Issue** should be given attention by the CRC Cross Sector. Please feel free to add and prioritize other issues not listed here.

	Low Priority	Medium Priority	High Priority
Chemical and Physical Exposures	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Psychosocial Stress	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exposome	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Total Worker Health® (work, family, diet, exercise, shift work, organization of work, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improving our understanding of current/emerging issues (e.g., incorporating I&O in existing surveillance systems)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Engineering controls and PPE	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Use of insurance claims to improve burden estimates	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Early disease detection	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improving dissemination (research results, control strategies)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Develop new interventions (programs, policies, legislation, regulation, or collective bargaining)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Develop new training programs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify activity and level of priority)

38. Please review the list of communication products below and select those most effective for disseminating research-based recommendations to safety and health professionals across multiple industry sectors (Select all that apply).

- | | |
|---|---|
| <input type="checkbox"/> Short videos | <input type="checkbox"/> Periodic info emails |
| <input type="checkbox"/> Hazard Alerts | <input type="checkbox"/> Website and webinars |
| <input type="checkbox"/> Online training tools | <input type="checkbox"/> Wikipedia |
| <input type="checkbox"/> Apps (on the phone) | <input type="checkbox"/> Scientific articles |
| <input type="checkbox"/> Disease prevention rules | <input type="checkbox"/> Trade journal articles |
| <input type="checkbox"/> Virtual reality tools | <input type="checkbox"/> Conference presentations |
| <input type="checkbox"/> Other (please specify) | |

39. From the Selections below, please select the best representation of your organization or group.

- | | |
|--|---|
| <input type="checkbox"/> NIOSH | <input type="checkbox"/> Academic Researcher |
| <input type="checkbox"/> Other Federal Government Agency | <input type="checkbox"/> Industry |
| <input type="checkbox"/> State/Local Health Department | <input type="checkbox"/> Union or Trade Association |
| <input type="checkbox"/> Non-Profit Organization | |
| <input type="checkbox"/> Other (please specify) | |

40. Please specify the length of experience (in years) in occupational safety and health that you have in each subsector.

	0-1 year	2-5 years	6-15 years	More than 15 years
Cancer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reproductive	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cardiovascular	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Renal	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Neuro	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

CRC Cross Sector Council Web-Survey

Council Activities

41. Please choose the **one** information sharing activity for which you would like to see the greatest focus of the Council in the coming year.

- Sharing of relevant information such as meetings or conferences, training opportunities, funding sources, community survey data, programs, or updates about their organization's work
- Coordination and production of webinar presentations that are relevant, high quality, and done by a variety of organizations (not just NIOSH)
- Helping members keep up to date on information about occupational safety and health in the CRC Cross-Sector through periodic virtual meetings/conference calls
- Helping members keep up to date on information about occupational safety and health in the CRC Cross-Sector through activities other than webinars or virtual meetings

Please describe your ideas or suggestions for how the Council can work on this activity in the coming year.

42. Please check the **one** networking activity for which you would like to see the greatest focus of the Council in the coming year.

- Council members build and maintain relationships with one another
- The Council builds and maintains meaningful collaborations with other organizations.

Please describe your ideas or suggestions for how the Council can work on this activity in the coming year.

43. Please check the **one** dissemination and implementation activity for which you would like to see the greatest focus of the Council in the coming year.

- The Council engages in **implementation** activities/projects that contribute to strategic objectives
- The Council engages in **dissemination** activities/projects that contribute to strategic objectives

Please describe your ideas or suggestions for how the Council can work on this activity in the coming year.

44. Please describe any additional ideas or suggestions you have for ways in which the CRC Cross-Sector Council can work to address the NORA CRC Cross-Sector Research Agenda in the coming year.

45. Please rank order these three Council activities based on which you would like to see the greatest focus of the Council in the coming year, where 1=Greatest focus and 3=Least focus.

Information sharing

Networking

Disseminating/implementing solutions

CRC Cross Sector Council Web-Survey

Meetings/Scheduling

46. Check the day/s of the week that typically work best for you for attending a Council meeting, virtual meeting, or webinar: (Select all that apply)

- Monday Thursday
 Tuesday Friday
 Wednesday

47. Check the time/s of the day that typically work best for you for attending a Council meeting or webinar: (Select all that apply)

- 11:00am EDT 3:00pm EDT
 1:00pm EDT 4:00pm EDT
 2:00pm EDT

48. Do you prefer many short virtual meetings or fewer long ones?

- Many short webinars (e.g., monthly, one-hour)
 Fewer long webinars (e.g., quarterly, 3-hour)
 Other (please specify)

49. Would you be able to travel to Cincinnati in 2019 or 2020 for an in-person Council meeting at your own expense?

- Yes
 No
 Depends (please explain)

50. Please list any other face-to-face meetings (e.g., conferences, professional associations) you plan on attending (or are likely to attend) in the upcoming year. Please list the name, location, and date/s for each meeting

51. Please list any recommendations you have for future CRC Cross Sector Council webinar topics and speakers.
