

**ODS Scholars Program  
Survey Introduction Email**

[To be sent to all past ODS Scholar Program awardees]

Dear (ODS Scholar name),

The Office of Dietary Supplements (ODS) is in the process of reviewing the ODS Scholars program – particularly the funding processes and the impact that the program has on awardees' research. ODS is asking all researchers who received ODS Scholars Program awards to participate in this customer feedback assessment. The feedback received from awardees will be used to determine what, if any, changes are needed to make the program more accessible and valuable to researchers.

All awardees' feedback will be collected using a very brief electronic survey. An outside consultant will collect the information and will collate it without sharing specific responses to ODS staff. Your responses will remain anonymous and will be combined with all other awardees' responses for reporting purposes.

Please click on the following link to begin the survey. We greatly value your experiences with the ODS Scholars program and appreciate the time you take to help us find ways to improve the program. The survey will take approximately 15 minutes to complete and will remain open until January 31, 2019.
