1 GENERAL INFORMATION

1.1 Overview

The Programs of All-Inclusive Care for the Elderly (PACE) is a pre-paid, capitated plan that provides comprehensive health care services to frail, older adults in the community, who are eligible for nursing home care according to State standards. PACE programs must provide all Medicare and Medicaid covered services; financing of this model is accomplished through prospective capitation of both Medicare and Medicaid payments.

CMS regulations at 42 CFR § 460.98(b) (2) require a PACE Organization (PO) to provide PACE services in at least the PACE center, the home, and inpatient facilities. The PACE center is the focal point for the delivery of PACE services; the Center is where the interdisciplinary team (IDT) is located, services are provided, and socialization occurs with staff that is consistent and familiar to participants. The PACE model of care includes, as core services, the provision of adult day health care and interdisciplinary team (IDT) care management, through which access to and allocation of all health services is managed. Physician, therapeutic, ancillary and social support services are furnished in the participant's residence or onsite at a PACE Center. Hospital, nursing home, home health and other specialized services are furnished in accordance with the PACE participant's needs, as determined necessary by the IDT. To provide PACE participants with flexibility regarding access to quality care, CMS has allowed POs to offer some services in other settings which are referred to as an alternative care setting (ACS). An ACS can be any physical location in the PO's CMS approved existing service area other than the participant's home, an inpatient facility, or PACE center.

Section 4801 of the Balanced Budget Act of 1997 (BBA)(Pub. L. 105-33) authorized coverage of PACE under the Medicare program by amending Title XVIII of the Social Security Act ("the Act") and adding section 1894, which addresses Medicare payments and coverage of benefits under PACE. Section 4802 of the BBA authorized the establishment of PACE as a state option under Medicaid by amending Title XIX of the Act and adding section 1934, which directly parallels the provisions of section 1894. The regulations implementing these PACE statutory requirements are set forth in 42 CFR Part 460.

The Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000, (BIPA) amended the PACE statute to provide authority for CMS to modify or waive certain PACE regulatory provisions. CMS-1201-IFC, Programs of All-inclusive Care for the Elderly (PACE); Program Revisions, published October 1, 2002, 67 FR 61496, established a process through which existing and prospective POs may request a waiver of Medicare and Medicaid regulatory requirements. On December 8, 2003, the Congress enacted the MMA of 2003 (Pub. L. 108-173). Several sections of the MMA impact POs. Most notably, section 101 of the MMA affected the way in which POs are reimbursed for providing certain outpatient prescription drugs to any Part D eligible participant. As specified in sections 1894(b)(1) and 1934(b)(1) of the Act, POs shall provide all medically necessary services including prescription drugs, without any limitation or condition as to amount, duration, or scope and without application of deductibles, co-payments, coinsurance, or other cost sharing that would otherwise apply under Medicare or Medicaid.

In 2006, CMS issued a final rule (71 FR 71244, Dec 8, 2006) that finalized both the PACE interim final rule with comment period published in the Federal Register November 24, 1999 (64 FR 66234) and the PACE interim final rule with comment period published in the Federal Register on October 1, 2002 (67 FR 61496). For a complete history of the PACE program, please see 71 FR 71244 through 71248 (Dec. 8, 2006).

1.2 Technical Support

CMS conducts special training sessions for all new and existing PACE applicants. All applicants are strongly encouraged to participate in these sessions, which are announced via the Health Plan Management System (HPMS) and/or the CMS main website.

CMS Central Office (CO) staff are available to provide Health Plan Management System (see Section 1.3, below) technical support to all applicants and answer questions during the PACE application process. While preparing the application, applicants may send an email by going to <https://dmao.lmi.org/> and clicking on the PACE tab. Please note: this is a webpage, not an email address.

1.3 The Health Plan Management System (HPMS)

- A. HPMS is the primary information collection vehicle through which PACE applicants will communicate with CMS during the application process, the Part D bid submission process, and for reporting and oversight activities.
- B. Applicants are required to enter contact and other information in HPMS in order to facilitate the application review process. Applicants must promptly enter organizational data into HPMS and keep the information up to date. These requirements ensure that CMS has current information and is able to provide guidance to the appropriate contacts within the organization. In the event that the application is approved and CMS executes a 3-way program agreement with the applicant entity and the applicable State, this contact information will also be used for frequent communications during the operational period of the PACE program. Therefore, it is important that this information be accurate at all times.
- C. HPMS is also the vehicle used to disseminate CMS guidance to POs. This information is then incorporated into the appropriate manuals. It is imperative for POs to independently check HPMS memos and follow the guidance as indicated in the memos.

1.4 Submitting Notice of Intent to Apply (NOIA)

Organizations interested in becoming a new PO must complete a nonbinding NOIA. CMS will not accept applications from organizations that fail to submit a timely NOIA.

For new applicants, upon submitting the completed form to CMS, the organization will be assigned a pending contract number (H number) to use throughout the application and

subsequent operational processes.

Once a contract number is assigned, the applicant should request a CMS User ID. An application for Access to CMS Computer Systems (for HPMS access) is required and can be found at: <https://applications.cms.hhs.gov>. Upon approval of the CMS User ID request, the applicant will receive a CMS User ID(s) and password(s) for HPMS access.

1.4.1 Protecting Confidential Information

Applicants may seek to protect their information from disclosure under the Freedom of Information Act (FOIA) by claiming that FOIA Exemption 4 applies. The applicant is required to label the information in question “confidential” or “proprietary” and explain the applicability of the FOIA exemption it is claiming. When there is a request for information that is designated by the applicant as confidential or that could reasonably be considered exempt under FOIA Exemption 4, CMS is required by its FOIA regulation at 45 CFR 5.65(d) and by Executive Order 12600 to give the submitter notice before the information is disclosed. To decide whether the applicant’s information is protected by Exemption 4, CMS must determine whether the applicant has shown that: (1) disclosure of the information might impair the government’s ability to obtain necessary information in the future; (2) disclosure of the information would cause substantial harm to the competitive position of the submitter; (3) disclosure would impair other government interests, such as program effectiveness and compliance; or (4) disclosure would impair other private interests, such as an interest in controlling availability of intrinsically valuable records, which are sold in the market place. Consistent with our approach under other Medicare programs, CMS would not release information that would be considered proprietary in nature if the applicant has shown it meets the requirements for FOIA Exemption 4.

1.5 Application Determination and Appeal Rights

Pursuant to 42 CFR 42 CFR §460.20, if CMS denies an application, CMS must notify the entity in writing of the basis for the denial and the process for requesting reconsideration of the denial.

2 INSTRUCTIONS

2.0 Overview

Applicants must complete the PACE initial and service area expansion application using HPMS as instructed. All documentation must contain the appropriate CMS-issued contract number.

In preparing a response to the prompts throughout this application, the applicant must mark “Yes” or “No” or “N/A” in sections organized with that format. By responding “Yes,” the applicant is certifying that its organization complies with the relevant requirements as of the date the application is submitted to CMS, unless a different date is stated by CMS.

Throughout this application, applicants are asked to provide various documents and/or tables in HPMS. All required documents to be submitted are specified at the end of each attestation section; a chart of all required attestations and uploads is also included in Section 2.3.

CMS strongly encourages PACE applicants to refer to the regulations at 42 CFR §460. Nothing in this application is intended to supersede the regulations at 42 CFR §460. Failure to reference a regulatory requirement in this application does not affect the applicability of such requirement, and applicants are required to comply with all applicable requirements of the regulations. Applicants must read HPMS memos and visit the CMS web site periodically to stay informed about new or revised guidance documents.

2.1 Types of Applications

Initial Applications are for:

- Applicants who are seeking to become a PO for the first time.

Service Area Expansion Applications are for:

- Existing PACE organizations who are seeking to expand the service area of an existing contract number. This includes an expansion of the currently-approved geographic service area and/or the addition of a new PACE center site.

2.2 Chart of Required Attestations and Uploads

This chart (Chart 1) describes the required attestations and uploads for both initial and service area expansion PACE applications. Note that SAE applicants must generally respond to the same attestations, as well as upload all documents required of initial applicants. (See Section 2.4, below, regarding upload submission instructions and information specific to SAE applications.) The purpose of this chart is to provide the applicant with a summary of the attestation topics.

* Financial documentation is not a requirement of SAE applicants. However, applicants may be asked to provide specific information as part of the Request for Additional Information (RAI) process if CMS is unable to verify that the applicant is maintaining a fiscally sound operation.

** Marketing materials for both initial and SAE applications are captured separately, via the HPMS PACE marketing module. Applicants must upload marketing materials in the HPMS marketing module for CMS/State review and approval following application submission. Additional information regarding the marketing materials associated with an application may be found in Section 3.5 of this application.

*** The State Readiness Review is required, but may or may not be uploaded as part of the initial submission of the application; the State Readiness Review may be uploaded after the initial application submission, subsequent to CMS's request for additional information.

2.3 Document (Upload) Submission Instructions

Required upload documents must generally be grouped together in a zipped file before uploading. The Readme files for both the PACE and Part D applications (found in the

appropriate download templates) details which files to group together and which are to be uploaded individually. Note that each succeeding upload overwrites any previous upload. Therefore, when reuploading a grouped file, applicants MUST include ALL files in the group in the reupload.

In addition, the Readme Files provide Naming Conventions for uploaded files. PACE applicants must use these naming conventions, where applicable, and be sure to include the assigned H number in the file name of all submitted documents.

2.4.1 Document (Upload) Instructions Specific to SAE Applications

While SAE applications previously only required a subset of attestations and uploads required of initial applications, as identified in Chart 1 above, generally the same attestation and upload requirements are now required of both initial and SAE applicants. One key exception is Section 3.4 (Fiscal Soundness), which includes different attestation requirements for initial and SAE applicants. In addition, while there is no required financial upload for a PACE SAE application, an applicant may be asked to provide specific information as part of a request for additional information. Documentation submitted in conjunction with initial and SAE applications will be reviewed and incorporated as part of the amended program agreement following approval of the application.

All applicants must upload a “State Attestations” document provided by an authorized official of the State Administering Agency (SAA) to demonstrate that the SAA supports the application. All initial applications and any SAE application that includes the addition of a new PACE center require a State Readiness Review (SRR) of the new center. Note that SAE applications that do not include a new PACE center site generally do not require a readiness review; however, the SAA must consider whether the existing PACE center has the capacity to adequately serve new potential participants who reside in the expanded geographic area. SAAs may vary in their requirements for approval of the SAE under these circumstances.

2.4 Part D Prescription Drug Benefit Instructions

The Medicare Part D Application is to be completed by those newly forming POs that intend to provide the Part D benefit to eligible participants. Applicants must use the current Medicare Part D Application for new POs that can be accessed via the link below. CMS will not accept or review in any way those submissions using prior versions of the application.

The Medicare Part D Application for new POs can be found at:

http://www.cms.gov/Medicare/Prescription-Drug-Coverage/PrescriptionDrugCovContra/RxContracting_ApplicationGuidance.html.

The Part D application must be submitted simultaneously with this PACE application and both will be reviewed within the same timeframes.

4.13 Medicare and State Medicaid Capitation Payment

MEDICARE AND STATE MEDICAID CAPITATION PAYMENT

[Appendix M of Program Agreement]

CMS makes a prospective monthly payment to the PO of a capitation amount for each Medicare participant in the payment area. Based on sections 1894(d) and 1853(n)(5) of the Act, prospective payments are made up of the pre-ACA county rate (calculated pursuant to section 1853(k)(1) of the Act), unadjusted for Indirect Medical Education (IME), and multiplied by the sum of the individual risk score and the organization frailty score. The following is a brief description of PACE payment and the differences between PACE payment and payment for Medicare Advantage plans below.

County Rates

The prospective payment rates for PACE are based on the applicable amount calculated under section 1853(k)(1) of the Act, unadjusted for IME.¹ In rebasing years, this rate is the greater of: 1) the county's FFS rate for the payment year or 2) the prior year's applicable amount increased by the payment year's National Per Capita Medicare Advantage Growth Percentage. In non-rebasing years, this rate is the prior year's applicable amount increased by the payment year's National Per Capita Medicare Advantage Growth Percentage. To determine whether a given year is a rebasing year, and for rules applicable to specific payment years, refer to the applicable Rate Announcement (available online at: <https://www.cms.gov/Medicare/Health-Plans/MedicareAdvtgSpecRateStats/Announcements-and-Documents.html>)

Section 1853(k)(4) of the Act requires CMS to phase out indirect medical education (IME) amounts from MA capitation rates. PACE programs are excluded from the IME payment phase out under that section pursuant to section 1894(d)(3).

Effective CY 2006 and subsequent years for MA organizations, CMS makes advance monthly per capita payments for aged and disabled enrollees based on the bidding methodology established by the MMA. *See* section 1854 of the Act. POs are not required to bid, however, CMS also makes advance monthly per capita payments to POs for their enrollees, based on the PACE county benchmark amounts as the capitation rate.

Risk Adjustment

¹ The applicable amount is the pre-Affordable Care Act rate, which is phased-out under the Affordable Care Act for Medicare Advantage plans, with transition to a new benchmark methodology finalized nationwide in CY2017. Pursuant to section 1853(n)(5) of the Act, the applicable amount calculated under section 1853(k)(1) continues to apply for PACE.

For the final payment rate, the county rate for the PO is multiplied by the individual participant risk score. Risk adjustment allows CMS to pay plans for the risk of the beneficiaries they enroll, instead of an average amount for Medicare beneficiaries. The individual participant risk score for Medicare Advantage and PACE is calculated using a CMS–HCC model (community, long-term institutionalized, End-Stage Renal Disease (ESRD) or new enrollee), which is published in the annual Announcement of Calendar Year Medicare Advantage Capitation Rates and Medicare Advantage and Part D Payment Policies and Final Call Letter (Rate Announcement).

Section 1894(d)(2) of the Act requires CMS to take into account the frailty of the PACE population when making payments to POs. Therefore, a frailty factor is added to each individual’s risk score for PACE payment. Risk adjustment predicts (or explains) the future Medicare expenditures of individuals based on diagnoses and demographics. Because risk adjustment may not explain all of the variation in expenditures for frail community populations, the frailty adjustment is used to predict the Medicare expenditures of community populations with functional impairments.

The frailty score added to the beneficiary’s risk score is calculated at the contract-level, using the aggregate counts of ADLs among HOS-M survey respondents enrolled in a specific organization who responded to the survey the prior year. More information regarding the HOS-M can be found in section 10.30 in Chapter 10 of the PACE manual chapter, Quality Assessment and Performance Improvement, located online at:

<https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/pace111c10.pdf>

Because the CMS-HCC model adequately predicts the costs of beneficiaries under age 55 or who are among the long-term institutionalized population, frailty adjustments are added to the risk scores for community-based and short-term institutionalized enrollees aged 55 and older. Updated frailty factors are published in the Rate Announcement for the payment year in which they are first used.

Additional Information

For additional, more detailed information about PACE Medicare payment, please see the following documents:

- Payments to Medicare Advantage Organizations, Chapter 8, Medicare Managed Care Manual
- Risk Adjustment, Chapter 7, Medicare Managed Care Manual
- CMS publishes changes to the Medicare Advantage payment methodologies in the Advance Notice of Methodological Changes for Medicare Advantage (MA) Capitation Rates and Part C and Part D Payment Policies (Advance Notice) in mid-February at <http://www.cms.gov/MedicareAdvtgSpecRateStats/> for public comment.

The final payment methodologies are published in the Announcement of Medicare Advantage Capitation Rates and Medicare Advantage and Part D Payment Policies and Final Call Letter (Rate Announcement) on the first Monday in April at the same website.

Medicare Part D

In order for POs to continue to meet the statutory requirement of providing prescription drug coverage to their enrollees, and to ensure that they receive adequate payment for the provision of Part D drugs, beginning January 1, 2006, POs began to offer qualified prescription drug coverage to their enrollees who are Part D eligible individuals. The MMA did not impact the manner in which POs are paid for the provision of outpatient prescription drugs to non-part D eligible PACE participants.

POs are required to annually submit two Part D bids: one for a Plan Benefit Package (PBP) for dually eligible enrollees and one for a PBP for Medicare-only enrollees. The Part D payment to POs comprises several pieces, including the risk adjusted direct subsidy, reinsurance payments, and risk sharing. With a few exceptions, Part D payments are made to POs in the same manner as to MA-PD and standalone PDP plans. The direct subsidy is risk adjusted. Payments for eligible enrollees of either PBP will include a low-income premium subsidy and a low-income cost-sharing subsidy for basic Part D benefits. Payments for dually eligible enrollees will also include an additional amount to cover nominal cost sharing amounts (“2% capitation”), and an additional premium payment in situations where the PO’s basic Part D beneficiary premium is greater than the regional low-income premium subsidy amount.

State agrees to establish a process that may permanently waive the annual recertification requirement for a participant if it determines that there is no reasonable expectation of improvement or significant change in the participant's condition because of the severity of a chronic condition or the degree of impairment of functional capacity.

When the state determines a PACE participant no longer meets the State Medicaid nursing

facility level of care requirements, the State agrees to establish a process that may deem participants to continue to be eligible for PACE until the next annual reevaluation if, in the absence of continued coverage under the program, the participant reasonably would be expected to meet the nursing facility level of care requirement within the next 6 months.

State agrees to ensure that it will work with CMS and the applicant to reinstate a disenrolled participant in other Medicaid programs for which the participant is eligible. (42 CFR §460.168)

State agrees to make a prospective monthly payment to the applicant of a capitation amount for each participant. (42 CFR §460.182)

State agrees to ensure that the capitation amount:

- Is less than what would otherwise have been paid under the state plan if the participants were not enrolled in PACE
- Takes into account the comparative frailty of PACE participants
- Is a fixed amount regardless of changes in the participant's health status

State agrees to establish procedures for the enrollment and disenrollment of participants in the SAA's system, including procedures for any adjustment to account for the difference between the estimated number of participants on which the prospective monthly payment was based, and the actual number of participants in that month.

State agrees to cooperate with CMS in oversight and monitoring of the operations of the applicant's program to ensure compliance with PACE requirements. (42 CFR §460.190 and 42 CFR §460.192)

State agrees that it will ensure that the Medicare benefit requirements are protected for dually eligible PACE participants upon entering a facility, in accordance with 42 CFR §460.90, including details on when and how Medicaid share of cost requirements are imposed.

STATE READINESS REVIEW

CMS will only approve applications from potential PACE organizations that satisfy federal requirements as determined based on review of the PACE application, and have met the requirements of a State Readiness Review (SRR). The SRR is performed by the state at the applicant's PACE Center. At the time of the SRR, the entity will not be operational and thus will have no enrolled participants. The purpose of this review is to determine the organization's readiness to administer the PACE program and enroll participants. The SRR will include a minimum set of criteria established by CMS in conjunction with the States. The States are free to add any additional criteria to the readiness review based on state specific requirements or they deem necessary to help them determine if the applicant: 1) meets the requirements stipulated in the PACE regulation; 2) has developed policies and procedures consistent with the PACE regulation; and 3) has appropriate staffing and established contracts necessary to provide all-inclusive, quality care to its participants.

The SRR includes but is not limited to: A review of policies and procedures; the design and construction of the PACE center; emergency preparedness; the site's compliance with OSHA, FDA, State and local laws, and adherence to Life Safety Code requirements. There are several areas of the SRR that defer to state and local laws and regulations for compliance. If the applicant's state has more stringent laws and regulations, those laws will apply in place of the federal requirement. However, it is incumbent upon the SRR team to ensure that their state laws or regulations encompass each of the items identified in the federal requirement.

Upon completion of the SRR, the state will be responsible for preparing and submitting a completed SRR report ensuring that all required areas are met.
