

- minimum operational and deployment standards for existing missions (high),
- Replace inoperable/broken/damaged to current standard (high),
- Replace obsolete/non-compliant to upgraded technology (medium),
- Increase supply for minimum service requirement due to community growth (low),
- Obtain equipment for new mission (low).
- The purposes for an applicant's request to acquire personal protective gear have been revised. These new purposes for FY 2017 are ranked by priority as follows:
 - Replace damaged broken inoperable equipment to current standard (high),
 - Replace obsolete/non-compliant to upgrade technology (medium),
 - Increase supply for new hires and/or existing firefighters that do not have one set of turnout gear (PPE) or allocated seated positions (high).
- Call volume is a consideration, but only between like departments, *i.e.* career, combination, and/or volunteer. Additional consideration for call volume can contribute to the justification of a new risk and/or the primary first due response area or region.
- Age of equipment terminology changed from "medium" to "intermediate." This was done to avoid confusion within similar name in other parts of the NOFO, *i.e.* (Medium) priority.
- Vehicle mounted exhaust systems are now listed under the equipment activity.
- Fire departments and SFTA will have separate lists of allowable equipment that each type of entity may apply for and acquire with AFG funds.
- The following items are now considered a "medium" priority for fire department applicants: Props, simulators, mobile data terminals (MDT), and computers used in training and mobile computing devices used on scene.
- EMS training aids with an age category of "short" (5–7 year life expectancy) are now eligible expense for FY 2017 (*i.e.*, CPR mannequins, airway training equipment, IVs, etc.).
- Monitoring and sampling devices are now categorized as "Sampling Devices." This was done to avoid confusion within similar specialized monitoring devices, for use in "medium" and "low" priorities.
- Tow vehicles are now listed under a separate chart in the equipment section to clarify the priority levels between application types, *i.e.* fire department and SFTA.

- Nozzles, appliances, foam inductors are all high priorities and listed in one category. These items were combined and defined with an age category of "long."

Wellness and Fitness Micro Grants

- Wellness and Fitness activities are now eligible when applying for a Micro Grant.
- Cancer screening is now available under the Wellness & Fitness activity.
- All NFPA 1583 training has been moved to Wellness & Fitness. This request was previously requested under "Training."

Vehicles

- Quint apparatus has been added as a high priority in the Vehicle Acquisition activity.

Authority: 15 U.S.C. 2229.

Dated: February 5, 2018.

Brock Long,

Administrator, Federal Emergency Management Agency.

BILLING CODE 9111–64–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA–2017–0034; OMB No. 1660–0015]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Revisions to National Flood Insurance Program Maps: Application Forms and Instructions for (C)LOMAs and (C)LOMR–Fs

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on a reinstatement, without change, of a previously approved information collection for which approval has expired. FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission will describe the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*,

the time, effort and resources used by respondents to respond) and cost, and the actual data collection instruments FEMA will use.

DATES: Comments must be submitted on or before March 14, 2018.

ADDRESSES: Submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the Desk Officer for the Department of Homeland Security, Federal Emergency Management Agency, and sent via electronic mail to dhsdeskofficer@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street SW, Washington, DC 20472, email address FEMA-Information-Collections-Management@fema.dhs.gov or Todd Steiner, Program Analyst, FEMA, Federal Insurance & Mitigation Administration, at (202) 679–4061 or Todd.Steiner2@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is authorized by the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4001 *et seq.* The Federal Emergency Management Agency (FEMA) administers the NFIP and maintains the maps that depict flood hazard information. The land area covered by the floodwaters of the base flood is the Special Flood Hazard Area (SFHA) on NFIP maps. The SFHA is the area where the NFIP's floodplain management regulations must be enforced and the area where the mandatory purchase of flood insurance applies. If a SFHA has been determined to exist for property and the owner or lessee of the property believes his/her property has been incorrectly included in a SFHA, information can be provided to support removal of the SFHA designation. NFIP regulations, at 44 CFR parts 65 and 70, outline the data that must be submitted by an owner or lessee of property who believes his/her property has been incorrectly included in a SFHA. In order to remove an area from a SFHA, the owner or lessee of the property must submit scientific or technical data demonstrating that the area is "reasonably safe from flooding" and not in the SFHA.

This proposed information collection previously published in the **Federal Register** on November 17, 2017 at 82 FR 54402 with a 60 day public comment period. FEMA received no public comments that were relevant to

information collection 1660–0015. This information collection expired on September 30, 2017. FEMA is requesting a reinstatement, without change, of a previously approved information collection for which approval has expired. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Revisions to National Flood Insurance Program Maps: Application Forms and Instructions for (C)LOMAs and (C)LOMR–Fs.

Type of Information Collection: Reinstatement, without change, of a previously approved information collection for which approval has expired.

OMB Number: 1660–0015.

Form Titles and Numbers: FEMA Form 086–0–26, Property Information; FEMA Form 086–0–26A, Elevation Form; FEMA Form 086–0–26B, Community Acknowledgement Form; FEMA Form 086–0–22 and FEMA Form 086–0–22A (Spanish), Application Form for Single Residential Lot or Structure Amendments to National Flood Insurance Program Maps.

Abstract: FEMA collects scientific and technical data submissions to determine whether a specific, single-lot property is located within or outside of a Special Flood Hazard Area (SFHA). If the property is determined not to be within a SFHA, FEMA provides a written determination and the appropriate map is modified by a Letter of Map Amendment (LOMA) or a Letter of Map Revision—Based on Fill (LOMR–F). The owner or lessee of a property uses a LOMA or LOMR–F to show that a property is not located within the SFHA, making it possible for the lending institution to waive the flood insurance requirement. If the policyholder decides to maintain insurance on the property, the new determination should result in lower rates.

Affected Public: Individuals and Households; and Business or Other for-Profit Institutes.

Estimated Number of Respondents: 121,116.

Estimated Number of Responses: 121,116.

Estimated Total Annual Burden Hours: 150,725 hours.

Estimated Total Annual Respondent Cost: \$6,501,379.

Estimated Respondents' Operation and Maintenance Costs: \$24,099,750.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$268,401.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Dated: February 1, 2018.

William H. Holzerland,

Senior Director for Information Management, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111–52–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS–2018–0004]

Notice of Critical Infrastructure Partnership Advisory Council Critical Infrastructure Summit

AGENCY: Office of Infrastructure Protection, National Protection and Programs Directorate, DHS.

ACTION: Announcement of public meeting; request for comments.

SUMMARY: The National Protection and Programs Directorate announces the Critical Infrastructure Partnership Advisory Council (CIPAC) Critical Infrastructure Summit. This public meeting is an opportunity to build public awareness of critical infrastructure topics and allows CIPAC members to exchange ideas and engage in interactive discussion on cross-sector key issues, activities, goals, and initiatives within the sixteen (16) critical infrastructure sectors. The intended goal of the meeting is to develop useful and actionable recommendations for the upcoming year. To facilitate public participation,

we are inviting public comment on the issues to be considered by the Council at this Summit.

DATES:

Public Comments: Written comments must be received no later than 12:00 p.m. local time on February 27, 2018, in order to be considered by the Council in its meeting.

Meeting: The meeting will be held on Thursday, March 1, 2018 from 8:45 a.m. to 5:00 p.m. local time.

ADDRESSES: The CIPAC Critical Infrastructure Summit will be held at the Hilton Crystal City at Washington Reagan National Airport, Virginia Ballroom, 2399 Jefferson Davis Highway, Arlington, VA 22202.

Public Comments: Written Comments in advance on the meeting agenda topics, identified by docket number “DHS–2018–0004”, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting written comments.

- *Email:* CIPAC@hq.dhs.gov. Include docket number DHS–2018–0004 in the subject line of the message.

- *Fax:* 703–603–5190.

- *Mail:* Renee Murphy, Department of Homeland Security, National Protection and Programs Directorate, 245 Murray Lane SW, Mail Stop 0607, Arlington, VA 20598–0607. Please allow a minimum of 2 weeks' time for delivery if submitting comments via mail.

Instructions: All submissions received must include the agency name and the docket number for this notice. All written comments received will be posted without alteration at www.regulations.gov, including any personal information provided. For detailed instructions on sending comments and additional information on participating in the upcoming CIPAC Critical Infrastructure Summit, see the “Public Participation” heading of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: For access to the docket and to read public comments received in advance by the CIPAC, go to www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Cheryl Fenoli, 703–603–5087, CIPAC@hq.dhs.gov.

SUPPLEMENTARY INFORMATION: CIPAC was established pursuant to section 871 of the Homeland Security Act of 2002, 6 U.S.C. 451. The CIPAC Critical Infrastructure Summit convenes the critical infrastructure owner and operator members of the Sector Coordinating Councils (SCCs), including
