

Attachment 10: B2 Applicant Recruitment Script

We are working with health colleagues, from the US Centers for Disease Control and Prevention, to improve awareness and knowledge of tuberculosis, also known as TB, for people like you and your child who want to immigrate to the US and who are in the process of going through their medical exam. We also want to make sure you know about TB services for immigrants in the United States.

You are being invited to do two 15-minute interviews today. It is voluntary. Whatever you share with us will be kept private and only used for this project. It will not impact your child's immigration process.

Can we ask you a few more questions?
