

**Addendum to the Supporting Statement for Form SSA-157
Data Exchange Request Form
OMB No. 0960-0802**

Revision to the Collection Instrument

SSA is making the following revisions:

- **Change #1:** We updated question 20 to read, “Will the information SSA provides be stored or processed in an external commercial cloud?” In addition, under question 20, we added part a and b follow-up questions.

Justification #1: We updated and added to question 20 to obtain more details about the requestor’s cloud storage plans and service provider, as well as help clarify what information we are requesting.

SSA will implement the changes above upon OMB approval.

These actions do not affect the public reporting burden.
