

How to Access the Community Services Block Grant (CSBG) Model State Plan in the ACF On-Line Data Collection (OLDC) System

OLDC is a web-based data collection tool used throughout ACF. The Model State Plan is programmed into OLDC as an interactive form. Instructions, definitions and other helpful tools for completing the form are interspersed throughout the form as hyperlinks. By clicking on blue underlined words the instructions associated with those words will appear. The form also has edit checks and auto-calculations built-in that assure grantees complete all required fields in the proper manner.

Step 1: Before logging into OLDC, make sure the Internet browser pop-up blocker is disabled.

Step 2: Log into OLDC. We will be able to provide log-in information to a testing site upon request.

Step 3: Click the blue button in the middle of the screen that says OLDC. This will launch OLDC in a new browser window.
