Inquiry on the Usefulness of Personal Responsibility Education Program (PREP) Performance Measures

THE PAPERWORK REDUCTION ACT OF 1995

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The information collected will help policy makers, program providers and other stakeholders understand the experiences of youth today and identify ways to reduce risky behaviors. This information will also inform programs on how best to serve their participants. The collection of this information is voluntary and responses will be kept private to the extent allowed by law. The OMB number for this information collection is XXXX-XXXX and the expiration date is XX/XX/XXXX.

INQUIRY ON THE USEFULNESS OF THE PREP PERFORMANCE MEASURES

INSTRUCTIONS: FYSB welcomes feedback from our grantees on which measures are the most useful to them. For each of the categories and items listed below, please indicate the ways in which your program uses the data currently or might use the data in the future. When responding to the items, please consider all of the users of performance measures including yourself as the grantee, your subawardees (if any), your evaluator, your partner organizations, or others who may use the measures or consider doing so in the future. An open-ended question at the end provides the opportunity to further comment on the measures if you wish to do so.

1. Do you currently use or would you use data from items on demographics to...

Demographic measures include those items asking about age, race, ethnicity, grade, and language.
