Is this apartment Public Housing?

Definition

YES

NO

635 PERIMETER DR

YES

NO

PUBLIC HOUSING -

Housing units which are subsidized and owned or operated by a Federal, State, City, or other government agency. Rent paid by the occupant is usually based on income and the additional rental cost covered by the government agency.

Housing units that are covered by government rent assistance programs (subsidized housing, such as Section 8 Housing) are eligible for inclusion in the Housing Survey.

Definitions Window for ASSISTING LIVING SCREEN

ASSISTED LIVING SCREEN

ASSISTED LIVING PROGRAM -

Close Window

- Any group residential program that is not licensed as a nursing home and that provides personal care and support services to people who need help with the activities of daily living (ADL)* as a result of physical or cognitive disability.

- Assisted living communities are designed for individuals who cannot function in an independent living environment but do not need nursing care on a daily basis. Many assisted living facilities also have professional nurses and other health care professionals on staff or available on call should a resident require special care.

- These communities go by a variety of names: adult homes, personal care homes, retirement residences, and sheltered housing. Local jurisdictions vary in their definitions and requirements. Assisted living communities are often affiliated with independent living communities or nursing care facilities offering residents a continuum of care for changing needs.

*ACTIVITIES OF DAILY LIVING (ADL)-

ADL's are considered to be everyday activities, such as walking, getting in and out of bed, dressing, bathing, eating, and using the bathroom.

HEATING FUEL SCREEN

Close Window

ELECTRICITY - Metered electric power supplied by a central utility to a residence via underground or aboveground power lines. If an on-site generator produces the electricity, code the fuel used in the generator unit. If the electricity is generated by on-site water or wind systems, use the Fuel Type "Alternate fuels."

GAS - Includes metered natural gas supplied by underground pipelines to residences by a central utility company or Liquefied Petroleum Gas which is any fuel gas supplied to a residence in liquid form such as propane or butane. The liquid gas is normally delivered by tank truck and stored near the residence in a gas tank or cylinder. Capture privately owned and operated gas wells as "Alternate fuels. "

FUEL OIL - No. 1, 2, or 4 grade fuel oil or residual oil that is burned for space or water heating purposes.

ALTERNATE FUEL - Fuels not specified in one of the three other categories, including kerosene, coal, firewood/charcoal, solar, geothermal and electricity generated from wind or water. Steam and hot water are not heating fuels; please try to determine the fuel used to produce the steam or hot water.

NONE/NO HEAT - No fuel used for heat/hot water.
