SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request [USCG-2017-0952], and must be received by February 12, 2018.

Information Collection Request

Title: Applications for Private Aids to Navigation and for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

OMB Control Number: 1625-0011.

Summary: Under the provision of 14 U.S.C. 81, the Coast Guard is authorized to establish aids to navigation. Title 14 U.S.C. 83 prohibits establishment of aids to navigation without permission of the Coast Guard. Title 33 CFR 66.01-5 provides a means for private individuals to establish privately maintained aids to navigation. Under 43 U.S.C. 1333, the Coast Guard has the authority to promulgate and

enforce regulations concerning lights and other warning devices relating to the promotion of safety of life and property on artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources there from. Title 33 CFR 67.35-1 prescribes the type of aids to navigation that must be installed on artificial

islands and fixed structures. Under the provision of 33 U.S.C. 409, the Secretary of Homeland Security is mandated to prescribe rules and regulations for governing the marking of sunken vessels. This authorization was delegated to the Commandant of the Coast Guard under Department of Homeland Security. Delegation number 0170 and the marking of sunken vessels are set out in 33 CFR part 64.11. The information collected for the rule can be obtained from the owners of sunken vessels. The information collection requirements are contained in 33 CFR 66.01-5, and 67.35-5.

Need: The information on these private aid applications (CG-2554 and CG-4143) provides the Coast Guard with vital information about private aids to navigation and is essential for safe marine navigation. These forms are required under 33 CFR 66 & 67. The information is processed to ensure the private aid is in compliance with current regulations. Additionally, these forms provide the Coast Guard with information which can be distributed to the public to advise of new, or changes to private aids to navigation. In addition, collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be responded to and immediately corrected or repaired.

Forms: CG-2554, Private Aids To Navigation Application and CG-4143, Application For Class I Private Aids To Navigation On Artificial Islands and Fixed Structures.

Respondents: Owners of private aids to navigation.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has decreased from 2,000 hours to 1,709 hours due to a decrease in the number of respondents a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: December 6, 2017.

James D. Roppel,
U.S. Coast Guard, Acting Chief, Office of Information Management.
