

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
<p>USCG is submitting this PTA to discuss the Plan Approval and Records for Electrical Engineering Regulations information collection, which is associated with OMB Control Number 1625-0031. This collection provides information to aid USCG in determining if a vessel complies with certain safety and environmental protection standards. Plans and records for construction or modification of U.S. vessels submitted and maintained on board are required for compliance with these standards. There is no form associated with this collection; however, the PII collected includes basic business contact information such as the name and address of the vessel owner/operator. The records that USCG receives are maintained in Marine Information for Safety and Law Enforcement (MISLE) database. No information collected is shared outside of USCG.</p> <p>The DHS Privacy Office agrees that this information collection is privacy-sensitive.</p> <p>PIA coverage is provided by DHS/USCG/PIA-008 MISLE, which outlines the risks of capturing information required to support the Coast Guard’s marine safety, security, environmental protection and law enforcement programs. SORN coverage is not technically required as the information is retrieved by search using vessel-specific information. However, DHS/USCG-013 MISLE does provide notice of this type of information collection.</p>
