Dear Principal:

The National Center for Education Statistics (NCES), U.S. Department of Education, is conducting a survey on public school teachers' use of technology for school and homework assignments. Westat, a research firm in Rockville, Maryland, is administering the study on behalf of NCES using the Fast Response Survey System (FRSS). Please take a few minutes to consider this request. The following questions and answers explain why your participation is so important.

- ✍ **Why is NCES conducting the survey?** This study is being conducted in response to a request from Congress. The purpose is to collect information from public school teachers about their use of technology for school and homework assignments, and how their knowledge and beliefs about their students' access to technology outside the classroom affect the assignments they give. The survey will focus on information that can best be provided by teachers from their unique perspective and direct interaction with students. NCES is authorized to conduct this survey by the Education Science Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543).
- ✍ **What do you need from my school?** We need a list of teachers who teach one or more regularly scheduled classes at your school and meet the other criteria in the enclosed instructions. The list is expected to take about 20 minutes to complete. To compile a list of teachers, please refer to the enclosed instruction sheet for important information about preparing the list of teachers. You may either compile a list of teachers or complete the enclosed teacher listing form using the information on the instruction sheet.
- ✍ **What happens with the information I provide?** We will randomly select an average of 2 teachers from each sampled school. In fall 2018, we will ask the selected teachers to complete a three-page questionnaire about their use of technology for school and homework assignments. Teachers' participation is voluntary.
- ✍ **Why is participation by my school important?** Your school is one of a small sample of schools selected for the study. The participation of your school, while voluntary, will help to ensure that the findings include the experience of teachers in your school and in other similar schools in the country. Your cooperation is therefore critical to make the results of the study comprehensive, accurate, and timely.
- ✍ **How does NCES protect the confidentiality of the information that you provide?** All of the provided information may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The federal Office of Management and Budget has approved the survey (OMB No. 1850-0857).
- ✍ **What do we get from the study?** Once the study is completed, NCES will present the findings in a report that will be released on the NCES website. You will be notified when the report is released.
- ✍ **How do we submit the list of teachers?** Lists may be submitted by secure toll-free fax to 1-800-254-0984, by email to XXXXXXXX@westat.com, or by mail in the enclosed postage-paid envelope to the address listed on the front of the Instructions for Preparing a List of Teachers.

We ask that you send the list of teachers to Westat **within 3 weeks**, and that you keep a copy for your files. If you have any questions about this request, please contact Cindy Gray, the Westat survey manager, at 800-937-8281, ext. 4336 (toll-free) or by email at XXXXXXXX@westat.com. You may also call John Ralph, the NCES Program Manager, at 202-245-6152. Thank you for your assistance.

Sincerely,

Peggy G. Carr, Ph.D.
Acting Commissioner
