UMATILLA INDIAN RESERVATION OFFICE OF AIR QUALITY PERMIT: AGRICULTURAL BURN PERMIT INSTRUCTIONS, TERMS & CONDITIONS

An agricultural burn is the burning of vegetative debris from an agricultural activity that is necessary for disease or pest control, or for crop propagation and/or crop rotation. This includes Conservation Reserve Program (CRP) fields. Forestry-related, small and large open burns require a different permit. Firefighter trainings require a large open burn permit. Permit applicants are responsible for following all instructions, terms and conditions regarding agricultural burning within the exterior boundaries of the Umatilla Indian Reservation. After sending in the Air Quality Agricultural Burn Permit Application (pages 3-4) and receiving approval to burn, **KEEP THIS SIGNED SHEET AS YOUR PERMIT** (pages 1-2). Have it available and provide it upon request to the CTUIR Office of Air Quality personnel or U.S. EPA inspectors. *40 CFR 49.133 Agricultural Burning Permits*

Printed Applicant Name: _____

General Terms and Conditions

1. Applicants must complete a permit application obtained from the CTUIR OAQ or online at <http://air.umatilla.nsn.us> or www.epa.gov/r10earth/FARR.htm.
 - a. Applications must be submitted to the CTUIR OAQ via fax or received in the mail at least 3 business days prior to desired burn date.
 - b. CTUIR Agricultural burn permits cost \$0.
 - c. Please apply early and ensure all documents are submitted to the OAQ prior to requesting permission to burn.
2. Applicants must request and receive burn approval from the CTUIR OAQ Personnel at: 541-429-7080.
3. If a field is partially on and off the CTUIR Reservation, the applicant needs to apply to both the CTUIR OAQ and Umatilla County Burn Permit Program (1-800-305-BURN) and must work with both agencies until the field burning process is completed with the post burn report.
4. Applicants must shut down burns when requested to do so by the CTUIR OAQ or US EPA. CTUIR OAQ and US EPA consider the following factors when deciding whether a burn should be shut down:
 - a. Wind speed, direction, or sudden shifts
 - b. Extended or extremely high levels of particulate matter in the atmosphere
 - c. Fire safety and control
 - d. Proximity to canyon rims, roadways, towns, houses, businesses, and other sensitive populations
 - e. Other relevant factors
5. Applicants are responsible for conducting test burns if requested by CTUIR OAQ or EPA.
6. Applicants must make all required calls to the CTUIR OAQ as described in the instructions in this form. Applicants must follow all procedures specified in this form and are responsible for following all procedures and guidelines regarding agricultural burning on the Umatilla Indian Reservation.
7. Smoke impacts on public roads, schools, daycares, medical facilities, elder homes and other sensitive people or areas must be prevented as a condition of this permit. Applicants must have flaggers stationed for burns that could potentially impact roadways.
8. Burning must be conducted in compliance with 40 CFR 49.131 General Open Burning and 49.133 Agricultural Burning Permits. For a copy of these rules, please contact the CTUIR OAQ.

9. Burning conducted without authorization of the CTUIR OAQ and/or failure to follow the FARR permit procedures are violations of the federal Clean Air Act and the FARR and are subject to penalties up to \$37,500 per day of violation.

10. Applicants are responsible for compliance with any/all applicable burn safety requirements and must obtain any/all fire safety permits. Contact the Umatilla Tribal Fire Department (541-429-7801) for fire safety and permit information.

Instructions for Obtaining Authorization to Burn

Application Process

1. Obtain, fill out, and submit a permit application via fax or mail to the CTUIR OAQ office.
2. Application will be reviewed for completeness and assigned a permit number, which will be included at the top of the permit section retained by applicant.

Procedures for the Day Prior to the Requested Burn Day

1. Applicant will be placed on the pending burn list once the application is submitted to CTUIR OAQ office and a permit number is issued by CTUIR OAQ.
2. Applicant will be contacted by the CTUIR OAQ staff when a preliminary burn day and burn time is determined.
- 3 The CTUIR OAQ staff will review requested fields to determine recommendation for preliminary burn decisions. Field burn priority will be as follows:

- a. Favorable conditions for sensitive areas (fields near towns, roads, canyons)
- b. The preferred area to be burned (in terms of forecasted conditions)
- c. The order of burn requests received from the applicants

Procedures for the Burn Day

1. Applicants will be called by the CTUIR OAQ by 9:00 AM to verify final burn decisions.
 2. Applicants must be reachable by phone or other means of communication during the day of the burn, should there be a change in the burn decision and it is necessary to cease all burning.
- NOTE: If applicants are not reachable and continue burning, they are in violation of this permit.
3. All fires must be ignited and must be completely out within approved burn duration times.

Post-Burn Procedures

1. As a condition of this permit, within 24 hours after completing the burn, the applicant must contact the CTUIR OAQ with post-burn information and may leave a telephone message, email or fax with the following post-burn information:
 - a. Name, as it is on application
 - b. Date, time and durations of the burn(s)
 - c. How the burn went and if it was completed
 - d. Number of acres actually burned
 - e. The size of any remaining unburned material (if burn was not completed)

NOTE: If an applicant does not submit the post-burn information, then the applicant will be out of compliance with permit conditions, and subject to enforcement action.

Applicant's Signature

I certify that I have read, understand and have followed the instructions on this form and agree to abide by the permit's instructions, terms and conditions.

Applicant's Signature is required for permit to be valid.

Date

The public reporting and recordkeeping burden for this collection of information is estimated to average 0.35 hour per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence.

Do not send the completed form to this address.
