PRIVACY THRESHOLD ANALYSIS (PTA)

The PTA is a compliance form developed by the Privacy Branch to identify the use of Personally Identifiable Information (PII) across the Department. The PTA is the first step in the PII verification process, which focuses on these areas of inquiry:

- Purpose for the information,
- Type of information,
- Sensitivity of the information,
- Use of the information,
- And the risk to the information.

Please use the attached form to determine whether a Privacy and Civil Liberties Impact Assessment (PCLIA) is required under the E-Government Act of 2002 or a System of Record Notice (SORN) is required under the Privacy Act of 1974, as amended.

Please complete this form and send it to your program Privacy Liaison Officer (PLO). If you have no program Privacy Liaison Officer, please send the PTA to the HUD Privacy Branch:

Marcus Smallwood, Acting, Chief Privacy Officer
Privacy Branch
U.S. Department of Housing and Urban Development

privacy@hud.gov

Upon receipt from your program PLO, the HUD Privacy Branch will review this form. If a PCLIA or SORN is required, the HUD Privacy Branch will send you a copy of the PCLIA and SORN templates to complete and return.

SPECIFIC PTA QUESTIONS

1. Reason for submitting the PTA: Choose an item.

Please provide a general description of the project and its purpose so a non-technical person could understand. If this is an updated PTA, please describe what changes and/or upgrades triggering the update to this PTA. If this is a renewal please state whether there were any changes to the project, program, or system since the last version.

IDIS OnLine is an existing grants management system used currently by grantees of eight formula grant programs managed by CPD. The first five are Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Shelter Grants (ESG), Housing Opportunities for Persons with AIDS formula (HOPWA), and Housing Trust Fund (HTF) programs. IDIS OnLine also supports three special grant programs established by the 2009 American Recovery and Reinvestment Act (ARRA) including Tax Credit Assistance Program (TCAP), Community Development Block Grant-Recovery (CDBG-R), and Homelessness Prevention & Rapid Re-housing Program (HPRP). All of these grants programs have “back end” review requirements. Collecting the information is necessary to determine if each program’s money was spent on eligible activities as well as verify that grantees are complying with all the statutory and regulatory provisions for the use of the grants funds.

IDIS OnLine is accessible via the internet at <http://www.hud.gov/offices/cpd/systems/idis/idis.cfm>

2. Does this system employ the following technologies?

If you are using these technologies and want coverage under the respective PIA for that technology, please stop here and contact the HUD Privacy Branch for further guidance.

- Social Media
- Web portal¹ (e.g., SharePoint)
- Contact Lists
- Public website (e.g. A website operated by HUD, contractor, or other organization on behalf of the HUD)
- None of these

3. From whom does the Project or Program collect, maintain, use, or disseminate information?

Please check all that apply.

- This program collects no personally identifiable information²
- Members of the public
- HUD employees/contractors (list programs):
- Contractors working on behalf of HUD

¹ Informational and collaboration-based portals in operation at HUD and its programs that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are “members” of the portal or “potential members” who seek to gain access to the portal.

² HUD defines personal information as “Personally Identifiable Information” or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. “Sensitive PII” is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

	<input type="checkbox"/> Employees of other federal agencies <input type="checkbox"/> Other (e.g. business entity)

In what format is the accounting maintained:</p>

³ Header: Information that is placed before the actual data. The header normally contains a small number of bytes of control information, which is used to communicate important facts about the data that the message contains and how it is to be interpreted and used. It serves as the communication and control link between protocol elements on different devices.

Payload data: The actual data to be transmitted, often called the payload of the message (metaphorically borrowing a term from the space industry!) Most messages contain some data of one form or another, but some actually contain none: they are used only for control and communication purposes. For example, these may be used to set up or terminate a logical connection before data is sent.

<p>9. Is there a FIPS 199 determination?⁴</p>	<p><input type="checkbox"/> Unknown.</p> <p><input type="checkbox"/> No.</p> <p>X Yes. Please indicate the determinations for each of the following:</p> <p>Confidentiality: <input type="checkbox"/> Low X Moderate <input type="checkbox"/> High</p> <p>Integrity: <input type="checkbox"/> Low X Moderate <input type="checkbox"/> High</p> <p>Availability: <input type="checkbox"/> Low X Moderate <input type="checkbox"/> High</p>
