

unable to comply with the light, shape, or sound signal provisions of the 72 COLREGS. Under statutory law, however, specified 72 COLREGS provisions are not applicable to a vessel of special construction or purpose if the Coast Guard determines that the vessel cannot comply fully with those requirements without interfering with the special function of the vessel.¹

The owner, builder, operator, or agent of a special construction or purpose vessel may apply to the Coast Guard District Office in which the vessel is being built or operated for a determination that compliance with alternative requirements is justified,² and the Chief of the Prevention Division would then issue the applicant a certificate of alternative compliance (COAC) if he or she determines that the vessel cannot comply fully with 72 COLREGS light, shape, and sound signal provisions without interference with the vessel's special function.³ If the Coast Guard issues a COAC, it must publish notice of this action in the **Federal Register**.⁴

The Fifth District, Chief of Prevention Division, U.S. Coast Guard, certifies that the RODANTHE, O.N. 1285078 is a vessel of special construction or purpose, and that, with respect to the position of the masthead light and sidelights, it is not possible to comply fully with the requirements of the provisions enumerated in the 72 COLREGS, without interfering with the normal operation, construction, or design of the vessel. The design and configuration of the pilothouse offset to the starboard side of the vessel allows an open deck to carry large vehicles. There are no structures on the fore and aft centerline or left of the centerline on which a masthead light or sidelights could be affixed. Instead, the masthead light is located on the top center of the pilothouse and the port sidelight is located on the port side of the pilothouse, which is offset to the starboard side of the vessel. The Fifth District, Chief of Prevention Division further finds and certifies that the

masthead light and sidelights are in the closet possible compliance with the applicable provisions of the 72 COLREGS.⁵

This notice is issued under authority of 33 U.S.C. 1605(c) and 33 CFR 81.18.

Dated: June 1, 2018.

J.R. Barnes,

Capt., U.S. Coast Guard, Chief, Prevention Division, Fifth Coast Guard District.

SUPPLEMENTARY INFORMATION:

Background

The ESA prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
