TITLE OF INFORMATION COLLECTION: CURE MDI Mentoring Cohort Survey

PURPOSE: The National Credit Union Administration (NCUA) seeks feedback from the credit unions that participate in Minority Depository Institutions Mentoring Cohort. The participants will be surveyed four times during a 24-month period: six months into the Cohort (Six-Month Survey), immediately after the Cohort (12 Month Survey), six months after the Cohort concludes (18 Month Survey), and 12 months after the Cohort concludes (24 Month Survey).

Credit union participants in the MDI Mentoring Cohort program are awardees of targeted technical assistance grants and their mentors. The purpose of the MDI Mentoring Grant is to help small institutions establish mentoring relationships with larger low-income, MDI credit unions that can provide expertise and guidance in serving low-income and minority populations.

Surveying participants six months into the Cohort will help program administrators gauge how well the activities, resources and expertise offered are helping participants meet their identified needs and grant objectives, and if adjustments need to be made. Surveying at the end of the Cohort (12 Month Survey) will help in the planning process for future Cohorts. Surveying six and 12 months after the Cohort (the 18 Month and 24 Month surveys) will help planners determine if the activities, resources and expertise offered have a lasting impact on Cohort participants, providing information to determine the long-term impact of the program.

The survey will be available online through the agency’s Learning Management Service or the agency’s Survey Monkey account.

DESCRIPTION OF RESPONDENTS: Credit unions receiving the Minority Depository Institutions Mentoring Grant and the credit unions serving as the mentors to those credit unions, will receive an email invitation to participate in the survey with a link included and instructions on how to access and answer the survey.
