SUPPLEMENTARY INFORMATION:

Title: Sugar Imported for Export as Refined Sugar or as a Sugar-Containing Product, or used in the Production of Certain Polyhydric Alcohols.

OMB Number: 0551-0015.

Expiration Date of Approval: June 30, 2018.

Type of Request: Revision of a currently approved information collection.

Abstract: The primary objective of the Sugar Import Licensing Program is to permit entry of raw cane sugar, unrestricted by the quantitative limit established by the sugar tariff-rate quota, for re-export in refined form or in a sugar containing product or for the production of certain polyhydric alcohols. These programs are in use by as many as 250 licensees currently eligible to participate. Under 7 CFR part 1530, licensees are required to submit the following: (1) "Application for a license" information required for participation as set forth in section 1530.104; (2) "Regular reporting" of import, export, transfer, or use for charges and credits to licenses under section 1530.109; and (3) "Miscellaneous submission" of bonds or letters of credit under section 1530.107, appeals to determinations by the licensing authority under section 1530.112, or requests to the licensing authority for waivers under section 1530.113.

In addition, each participant must maintain records on all program reports as set forth in section 1530.110. The information collected is used by the licensing authority to manage, plan, evaluate, and account for program activities. The reports and records are required to ensure the proper operations of these programs.

Estimate of Burden: (1) "Application for a license" would require 20 hours per response; (2) "Regular reporting" would require between 10 and 15 minutes per transaction with the number of transactions varying per respondent; and (3) "miscellaneous submission" would require between 1 to 2 hours per bond or letter of credit, 2 to 10 hours per waiver request, and 10 to 100 hours per appeal.

Respondents: Sugar refiners, manufacturers of sugar containing products, and producers of polyhydric alcohol.

Estimated Number of Respondents: 270.

Estimated Number of Responses per Respondent: New/Renew License: 1; Regular reporting: 75 transactions, total; Miscellaneous: Bonds/letters of credit: 1; Waiver requests: 1; Appeals: 1.

Estimated Total Burden Hours on Respondents: 1,653 hours.

Request for Comments: We are requesting comments on all aspects of this information collection to help us to: (1) Evaluate whether the collection of information is necessary for the proper performance of FAS's functions, including whether the information will have practical utility; (2) Evaluate the accuracy of FAS's estimate of burden including the validity of the methodology and assumptions used; (3) Enhance the quality, utility and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Copies of this information collection can be obtained from Connie Ehrhart, the Agency Information Collection Coordinator, at (202) 690-1578 or email at Connie.Ehrhart@fas.usda.gov.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

E-Government Act Compliance

BILLING CODE 3410-10-P

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

Natural Resources Conservation Service

[Docket No. NRCS-2018-0001]

Notice of Request for an Extension of Existing Information Collection Package

AGENCY: Natural Resources Conservation Service (NRCS) and the Commodity Credit Corporation (CCC), United States Department of Agriculture (USDA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces that NRCS will request an extension for a currently approved information collection for long-term contracting forms.

DATES: Comments must be received 60 days after publication in the **Federal Register** to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: Kim Berns, Easement Programs Division, Room 5241-S, U.S. Department of Agriculture, 1400 Independence Ave. SW, Washington, DC 20250; telephone (202) 720-5074.

SUPPLEMENTARY INFORMATION:

Title: Long-Term Contracting.

OMB Number: 0578-0013.

Expiration Date of Approval: 3 years from approval date.

Type of Request: Extension of a currently approved information collection.

Abstract: The primary objective of NRCS is to work in partnership with the American people and the farming and ranching community to protect, conserve, and sustain our Nation's natural resources on privately owned land. The purpose of the long-term contracting information collection is to allow for programs to provide Federal technical and financial cost-sharing assistance through long-term contracts to eligible producers, landowners, and entities. These long-term contracts provide for making land use changes and installing conservation measures and practices to protect, conserve, develop, and use the soil, water, and

related natural resources on private lands. Under the terms of the agreement, the participant agrees to apply, or arrange to apply the conservation treatment specified in the conservation plan. In return for this agreement, Federal financial assistance payments are made to the land user, or third party, upon successful application of the conservation treatment. Additionally, NRCS purchases easements for the long

term protection of the property and provides for the protection and management of the property for the life of the easement.

The information collected through this package is used by NRCS to ensure the proper use of program funds. The conservation programs in this information collection that are subject to the requirements of the Paperwork Reduction Act are listed in Table A. No

changes or adjustments are proposed at this time; this notice is limited to the request for an extension of the currently approved information collection package used by NRCS for long-term contracting for the programs listed in Table A. Table B shows the burden for those programs subject to the requirements of the Paperwork Reduction Act.

TABLE A—CONSERVATION PROGRAMS SUBJECT TO THE REQUIREMENTS OF THE PAPERWORK REDUCTION ACT

Program	Description
Emergency Conservation Program (ECP) (7 CFR part 701).	USDA Farm Service Agency's ECP provides emergency funding and technical assistance for farmers and ranchers to rehabilitate farmland damaged by natural disasters and for carrying out emergency water conservation measures in periods of severe drought. Funding for ECP is appropriated by Congress.
Emergency Watershed Program (EWP) (7 CFR part 624).	The EWP was initiated in 1950 and is administered by NRCS. It provides technical and financial assistance to local institutions for the removal of storm and flood debris from stream channels and for the restoration of stream channels and levees to reduce the threat to life and property. The program also provides for establishing permanent easements in floodplains with private landowners.
Healthy Forests Reserve Program (HFRP) (7 CFR part 625).	HFRP is a voluntary program established for the purpose of restoring and enhancing forest ecosystems to: (1) Promote the recovery of threatened and endangered species; (2) improve biodiversity; and (3) enhance carbon sequestration. The HFRP was signed into law as part of the Healthy Forests Restoration Act of 2003 and amended by the 2008 Act. The Agricultural Act of 2014 made minor changes to HFRP land eligibility and funding.
Resource Conservation and Development Program (RC&D).	The RC&D was initiated in 1962 and was administered by NRCS. Through this program, NRCS assisted multi-county areas in enhancing conservation, water quality, wildlife habitat, recreation, and rural development. The program provided technical and limited financial assistance for the planning and installation of approved projects.
Watershed Protection and Flood Prevention Program (WPFPP) (7 CFR part 622).	The WPFPP, otherwise known as P.L. 566, was initiated in 1954 and is administered by NRCS. It assists State and local units of government in flood prevention, watershed protection, and water management. Part of this effort involves the establishment of conservation practices on private lands to reduce erosion, sedimentation, and runoff.
