Example HIV-negative participant on PrEP

M-Cubed Assessment

Form Approved OMB No. 0920-XXXX Exp. Date: xx/xx/20xx

Public reporting burden of this collection of information is estimated to average 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-XXXX).

Researchers are also working on a form of PrEP that you would put in your rectum as a suppository. The suppository would be the size of a daily vitamin pill. You would have to put it in your rectum at least 30 minutes before having receptive anal sex (bottoming) to be sure it dissolved in time to reduce the risk of getting HIV.	
8. How likely would you be to use a suppository form of PrEP that you insert into your rectum to dissolve 30 minutes before having receptive anal sex (bottoming) to reduce the risk of getting HIV?	
○ Very likely

You will now be asked mo	ore detailed questions about the last man you had any anal sex with in the past THREE months who was NOT your primary partner.
	have lived with or have seen a lot, and to whom you have felt a special emotional commitment. Think about the very last man you had any anal sex with as not your primary partner.
Throughout this payt group	of questions, this man will be referred to by his initials. Please put his initials here. Use AZ if you do not know his name. *
AZ AZ	or questions, and man the referred to by the minutes. I heade put the minutes refer to the Table 100 minutes and the minutes are the minutes.
