SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, DHS/USCIS proposes to update and reissue a current DHS system of records titled, "DHS/U.S. Citizenship and Immigration Services (USCIS)-004, Systematic Alien Verification for Entitlement (SAVE) Program System of Records."

The SAVE Program is a primarily web-based service designed to assist Federal, State, tribal, and local government agencies, benefit-issuing agencies, private entities, institutions, and licensing bureaus authorized by law in determining immigration status for granting benefits, licenses, and other lawful purposes. Benefits may include Social Security benefits, public health care, food stamps, conducting background investigations, armed forces recruitment, REAL ID compliance, or any other statutorily authorized purpose. The SAVE Program does not provide determinations regarding an applicant's eligibility for a specific benefit or license; only the benefit granting agency can make that determination. The SAVE Program does not receive the customer agency's final determination of benefit eligibility.

USCIS is updating this Privacy Act System of Records Notice for the SAVE Program to (1) update the category of individuals covered by this SORN, to include sponsors listed on the Form I-864, *Affidavit of Support Under Section 213A of the Act* and information collected from the benefit-issuing agency about users accessing the system to facilitate immigration status verification; (2) expand the category of records to include foreign passport expiration number; copies of original immigration documents submitted by the SAVE customer; photos; employment authorization document; grant date; and sponsor name, address, and Social Security number (SSN); the Dun & Bradstreet Data Universal Numbering System (DUNS) number of the benefit granting agency; information collected from the benefit-issuing agency about users accessing the system to facilitate immigration status verification (e.g., agency name, address, point(s) of contact, contact telephone number, fax number, email address,

user ID, type of benefit(s) the agency issues (e.g. Unemployment Insurance, Educational Assistance, Driver Licensing, Social Security Enumeration)); (3) add routine use (I) to account for non-governmental agencies authorized by law to access the SAVE Program pursuant to the FAA Extension, Safety, and Security Act of 2016; (4) update the record source categories from U.S. Customs and Border Protection (CBP) Nonimmigrant Information System and Border Crossing Information (NIIS and BCI) to CBP TECS and CBP Automatic Tracking System-Passenger (ATS-P) and add the USCIS Electronic Immigration System (ELIS) and the USCIS Person Centric Query Service (PCQS); (5) update to include exemptions because this system of records receives records from other systems that may be exempted under 5 U.S.C. 552a(j)(2). DHS will claim the same exemptions for those records that are claimed for the original primary systems of records from which they originated. Furthermore, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice.

Consistent with DHS's information sharing mission, information stored in the DHS/USCIS-004 Systematic Alien Verification for Entitlement (SAVE) Program may be shared with other DHS components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/USCIS may share information with appropriate Federal, State, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This updated system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act

protections to all individuals when systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/USCIS-004 Systematic Alien Verification for Entitlements (SAVE) System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A. To the U.S. Department of Justice (DOJ), including Offices of the United States Attorneys, or other federal agency conducting litigation or in proceedings before any court, adjudicative, or administrative body, when it is relevant or necessary to the litigation and one of the following is a party to the litigation or has an interest in such litigation:

2. DHS has determined that as a result of the suspected or confirmed compromise, there is a risk of identity theft or fraud, harm to economic or property interests, harm to an individual, or harm to the security or integrity of this system or other systems or programs (whether maintained by DHS or another agency or entity) that rely upon the compromised information; and

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Purpose and Description of Data Collection

TSA requires individuals to provide an acceptable verifying identity document in order to proceed through security screening, enter the sterile area of the airport, or board a commercial aircraft. Under 49 CFR 1560.3, acceptable verifying identity documents include federally-issued documents, such as U.S. passports and U.S. passport cards, passports issued by foreign governments, and state-issued driver's licenses and identification cards. The complete list of acceptable verifying identity documents is available at www.tsa.gov/sites/default/files/resources/realid_factsheet_071516-508.pdf.

Secure driver's licenses and identification documents are a vital component of the Department of Homeland Security's (DHS's) national security strategy. In particular, preventing terrorists from obtaining state-issued identification documents is critical to securing the United States against terrorism. The 9/11 Commission noted "[f]or terrorists, travel documents are as important as weapons" and recommended that the Federal
