School Questionnaire

SCIntro1

Dear school administrator,

Thank you for participating in this study. This questionnaire asks for information about:

- *School background*
- *School management*
- *Teaching staff*
- *Assessment and evaluation*
- *Targeted groups*
- *School climate*

This information will help illustrate the similarities and differences between groups of schools in order to better establish the context for students' test results. For example, the information provided may help to establish what effect the availability of resources may have on student achievement – both within and between countries. The questionnaire should be completed by the principal or designate. It should take about 45 minutes to complete.

For some questions specific expertise may be needed. You may consult experts to help you answer these questions.

If you do not know an answer precisely, your best estimate will be adequate for the purpose of the study.

Please note that the forward button used to proceed to the next question is located at the bottom right hand corner of your screen. In some instances you may need to scroll down to the bottom of your screen to access this forward button.

Your answers will be combined with answers from other principals to calculate totals and averages. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

- *Background information*
- *Your initial education and professional development*
- *Your collaboration with teachers and parents*
- *Teacher beliefs and attitudes*
- *Teaching practices*
- *Your school*

Your answers will be combined with answers from other teachers to calculate totals and averages. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

Introduction for reading metacognition

YOUR STRATEGIES IN READING AND UNDERSTANDING TEXTS

There are several strategies to read texts. Some of them are more useful or appropriate than others, depending on the kind of reading task. The next questions present three different reading tasks, followed by a list of "strategies." We want to know your opinion about the usefulness of these strategies for the different reading tasks.

Think about the usefulness of each of the strategies in relation to the given reading task only. Some strategies may be useful for one reading task but not for another.

Give a score between 1 and 6 to every strategy. A score of 1 means you think it is not a useful strategy at all for this reading task. A score of 6 means you think it is a very useful strategy for this reading task.

You can use the same score more than once if you think two or more strategies are similarly useful, but please select only one response in each row.

We want to know about your experience with the following types of word problems about money matters at school. Have you encountered these types of word problems during the following classes or activities?

Introduction

The next question is about your experience with different kinds of problems you may have encountered at school in the last 12 months. Please only read these problems, do not answer them.

Problem no. 1:

Ann is on vacation in a country called Farway, but she normally lives in Zedland. The unit of currency in Zedland is the ZED. The unit of currency in Farway is the FAD. At the time of the vacation, the exchange rate was 1 ZED = 25 FAD. Ann needs 200 FAD to buy some food. If she exchanges some of her ZEDs, the currency exchange agency will apply a 3% commission. If she withdraws FADs from an ATM in Farway, her bank will charge her a fixed 2 ZED fee. Should Ann exchange her ZEDs or withdraw FADs from an ATM?

Problem no.2:

Tom is talking with his grandmother and they are comparing the price of ice cream cones now and when his grandmother was his age. They noted that the purchasing power of money usually decreases over time, meaning that, all else being equal, inflation decreases the amount of goods or services that you can purchase over time. Discuss some examples of how inflation affects you or your family.
