Total annualized capital/startup costs	NA		NA
Total annual costs (O&M)	NA		NA
Total annualized cost requested	NA		NA
Difference			NA
Explanation of difference			
Program change			NA
Adjustment			NA
Other change**			
<p>The Program for International Student Assessments (PISA) is an international assessment of 15-year-olds which focuses on assessing students' reading, mathematics, and science literacy. PISA was first administered in 2000 and is conducted every three years. The United States has participated in all of the previous cycles, and is participating in 2018 in order to track trends and to compare the performance of U.S. students with that of students in other education systems. PISA 2018 is sponsored by the Organization for Economic Cooperation and Development (OECD). In the United States, PISA is conducted by the National Center for Education Statistics (NCES), within the U.S. Department of Education. In each administration of PISA, one of the subject areas (reading, mathematics, or science literacy) is the major domain and has the broadest content coverage, while the other two subjects are the minor domains. PISA emphasizes functional skills that students have acquired as they near the end of mandatory schooling (aged 15 years), and students' knowledge and skills gained both in and out of school environments. PISA 2018 will focus on reading literacy as the major domain. Mathematics and science literacy will also be assessed as minor domains, with additional assessment of financial literacy. In addition to the cognitive assessments described above, PISA 2018 will include questionnaires administered to assessed students, school principals, and teachers. The PISA 2018 field test was conducted in April-May 2017. The PISA 2018 main study recruitment began in October 2017 and data collection will be conducted October-November 2018. The request to conduct PISA 2018 main study was approved in April 2018 (OMB# 1850-0755 v.21). This request provides a link to and the script for the PISA 2018 voice-over video to be used with students interested in learning more about PISA before the main study assessment.</p>
