

Instructions for the Allowance Transfer Form

The Acid Rain Program and Cross-State Air Pollution Rule Programs (CSAPRR NO_x Annual, CSAPRSO₂ Groups I and II SO₂, and CSAPR NO_x Ozone Season) regulations allow for the transfer of emissions allowances between Allowance Tracking System (ATS) accounts. Upon receipt of a complete Allowance Transfer Form, EPA will move the allowances from the transferor's account to the transferee's account. For the Acid Rain Program only, you may transfer a portion of your allowance allocation or the entire allocation in perpetuity from a facility account to another account in the ATS, unless the allocation is made to an Acid Rain opt-in unit.

You are encouraged to use the CAMD Business System (CBS) to submit allowance transfers online.

If you need more space, photocopy page three. When you have completed the form, indicate the page order and total number of pages (e.g., 1 of 4, 2 of 4, etc.) in the spaces provided in the upper right hand corner of each page.

Remember, for the Acid Rain Program (under 40 CFR 72.21(d)), you must notify the persons you represent in this transaction, (i.e., the owners or operators of the affected source and units).

Either the authorized account representative (AAR) or the alternate AAR may sign this form. For facility accounts, the designated representative (DR) is the AAR and the alternate DR is the alternate AAR.

If you need assistance, call the Clean Air Markets Hotline at 202-343-9620.

Make sure you select the correct allowance program. Only check one box. If you want to transfer allowances under more than one program, submit a separate form for each program.

STEP 4 For the Acid Rain program the AAR or alternate AAR from the transferee account must sign the form or have a signature on file authorizing acceptance of allowances transferred into his or her accounts.

STEP 5 If you are transferring SO₂ allowances (under the Acid Rain Program only), you may elect to transfer "in perpetuity" (i.e., specific blocks of allowances for all years following a specified year) unless the allowances are allocated to an Acid Rain opt-in unit. To transfer an SO₂ allowance in perpetuity, check the Perpetuity box. "In perpetuity" allows you, for years beginning in 2010, to select only the first year you would like to transfer. For all years thereafter, the same transfers are recorded.

STEP 6 Enter the vintage year and serial numbers of the allowances to be transferred. Enter the number of allowances to be transferred in the "Total" column. Verify the accuracy of your entries by computing one of the following simple equations reflecting the equivalent relationships:

$$\text{Start Number} = \text{End Number} - \text{Total} + 1$$

or

$$\text{End Number} = \text{Start Number} + \text{Total} - 1$$

Allowances with different vintage years must be entered on separate lines.

Submission Deadline

If you are transferring allowances for purposes of compliance with Acid Rain, CSAPRSO₂ Group I, CSAPRSO₂ Group II, CSAPR NO_x Ozone season, or CSAPR NO_x annual, allowance holding requirements for a given year, this form must be post marked no later than the Allowance Transfer Deadline (midnight of March 1 of the next year.)
