

“(i) In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in the locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the national register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall be made to the appropriate agency or entity specified in paragraphs (1) through (6) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved.

“(j) Grants made under this section may be used, subject to regulations and conditions prescribed by the Secretary, for any activities made eligible by the provisions of this section; but such regulations shall provide that grant assistance shall not be used to defray the cost of the acquisition, construction, repair, or rehabilitation of, or the preparation of engineering drawings or similar detailed specifications for, specific housing, capital facilities, or public works projects.

“(k) The Secretary shall consult with the heads of other Federal departments and agencies having responsibilities related to the purposes of this section, including responsibilities connected with the economic development of rural and depressed areas and the protection and enhancement of the Nation's natural environment, with respect to (1) general standards, policies, and procedures to be followed in the administration of this section, and (2) particular grant actions or approvals which the Secretary believes to be of special interest or concern to one or more of such departments and agencies.

“(l) Funds made available under any Federal assistance program for projects or activities, approved as part of or in furtherance of a planning program or related management activities assisted under this section, may be used jointly with funds made available for such projects or activities under any other Federal assistance program, subject to regulations prescribed by the President. Such regulations may include provisions for common technical or administrative requirements where varying or conflicting provisions of law or regulations would otherwise apply, for establishing joint management funds and common non-Federal shares, and for special agreements or delegations of authority, among different Federal agencies in connection with the supervision or administration of assistance. Such regulations shall in any case include appropriate criteria and procedures to assure that any special authorities conferred, which are not otherwise provided for by law, shall be employed only as necessary to promote effective and efficient administration and in a manner consistent with the protection of the Federal interest and program purposes or statutory requirements of a substantive nature. For purposes of this subsection, the term ‘Federal assistance program’ has the same meaning as in the Intergovernmental Cooperation Act of 1968.

“(A) preparation, as a guide for governmental policies and action, of general plans with respect to (i) the pattern and intensity of land use, (ii) the provision of public facilities (including transportation facilities) and other government services, and (iii) the effective development and utilization of human and natural resources;

The limitation set forth in the preceding sentence shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity, if the Secretary finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

“(n) In carrying out the provisions of this section relating to planning for States, regions, or other multijurisdictional areas whose development has significance for purposes of national growth and urban development objectives, the Secretary shall encourage the formulation of plans and programs which will include the studies, criteria, standards, and implementing procedures necessary for effectively guiding and controlling major decisions as to where growth should

A loan secured by real estate within the meaning of this section shall be in the form of an obligation or obligations secured by a mortgage, trust deed, or other instrument, which shall constitute a lien on real estate in fee or, under such rules and regulations as may be prescribed by the Comptroller of the Currency, on a leasehold under a lease which does not expire for at least ten years beyond the maturity date of the loan, and any national banking association may purchase or sell any obligations so secured in whole or in part. The amount of any such loan hereafter made shall not exceed $66\frac{2}{3}$ per centum of the appraised value if such real estate is unimproved, 75 per centum of the appraised value if such real estate is improved by offsite improvements such as streets, water, sewers, or other utilities, 75 per centum of the appraised value if such real estate is in the process of being improved by a building or buildings to be constructed or in the process of construction, or 90 per centum of the appraised value if such real estate is improved by a building or buildings. "(2) The limitations and restrictions set forth in paragraph (1) shall not prevent the renewal or extension of loans heretofore made and shall not apply to real estate loans (A) which are insured under

the provisions of the National Housing Act, (B) which are insured by the Secretary of Agriculture pursuant to title I of the Bankhead-Jones Farm Tenant Act, or the Act of August 28, 1937, as amended, or title V of the Housing Act of 1949, as amended, or (C) which are guaranteed by the Secretary of Housing and Urban Development, for the payment of the obligations of which the full faith and credit of the United States is pledged, and such limitations and restrictions shall not apply to real estate loans which are fully guaranteed or insured by a State, or any agency or instrumentality thereof, or by a State authority for the payment of the obligations of which the faith and credit of the State is pledged, if under the terms of the guaranty or insurance agreement the association will be assured of repayment in accordance with the terms of the loan, or to any loan at least 20 per centum of which is guaranteed under chapter 37 of title 38, United States Code.

Where the collateral for any loan consists partly of real estate security and partly of other security, including a guaranty or endorsement by or an obligation or commitment of a person other than the borrower, only the amount by which the loan exceeds the value as collateral of such other security shall be considered a loan upon the security of real estate, and in no event shall a loan be considered as a real estate loan where there is a valid and binding agreement which is entered into by a financially responsible lender or other party either directly with the association or which is for the benefit of or has been assigned to the association and pursuant to which agreement the lender or other party is required to advance to the association within sixty months from the date of the making of such loan the full amount of the loan to be made by the association upon the security of real estate. Except as otherwise provided, no such association shall make real estate loans in an aggregate sum in excess of the amount of the capital stock of such association paid in and unimpaired plus the amount of its unimpaired surplus fund, or in excess of the amount of its time and savings deposits, whichever is greater: *Provided*, That the amount unpaid upon real estate loans secured by other than first liens, when added to the amount unpaid upon prior mortgages, liens, and encumbrances, shall not exceed in an aggregate sum 20 per centum of the amount of the capital stock of such association paid in and unimpaired plus 20 per centum of the amount of its unimpaired surplus fund.

Such loans shall be in the form of an obligation or obligations secured by mortgage, trust deed, or other such instrument; and any national banking association may purchase or sell any obligations so secured in whole or in part. The amount of any such loan, when added to the amount unpaid upon prior mortgages, liens, and encumbrances, if any, shall not exceed 66 $\frac{2}{3}$ per centum of the appraised fair market value of the growing timber, lands, and improvements thereon offered as security and the loan shall be made upon such terms and conditions as to assure that at no time shall the loan balance, when added to the amount unpaid upon prior mortgages, liens, and encumbrances, if any, exceed 66 $\frac{2}{3}$ per centum of the original appraised total value of the property then remaining. No such loan shall be made for a longer term than three years; except that any such loan may be made for a term not longer than fifteen years

if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the principal of the loan within a period of not more than fifteen years and at a rate at least $6\frac{2}{3}$ per centum per annum. All such loans secured by liens upon forest tracts shall be included in the permissible aggregate of all real estate loans and, when secured by other than first liens, in the permissible aggregate of all real estate loans secured by other than first liens, prescribed in subsection (a); but no national banking association shall make forest tract loans in an aggregate sum in excess of 50 per centum of its capital stock paid in and unimpaired plus 50 per centum of its unimpaired surplus fund.

“(c) Loans made to finance the construction of a building or buildings and having maturities of not to exceed sixty months where there is a valid and binding agreement entered into by a financially responsible lender or other party to advance the full amount of the bank's loan upon completion of the building or buildings, and loans made to finance the construction of residential or farm buildings and having maturities of not to exceed sixty months, may be considered as real estate loans if the loans qualify under this section, or such loans may be classed as commercial loans whether or not secured by a mortgage or similar lien on the real estate upon which the building or buildings are being constructed, at the option of each national banking association that may have an interest in such loan: *Provided*, That no national banking association shall invest in, or be liable on, any such loans classed as commercial loans under this subsection in an aggregate amount in excess of 100 per centum of its actually paid-in and unimpaired capital plus 100 per centum of its unimpaired surplus fund.

12 USC 343.

“(d) Notes representing loans made under this section to finance the construction of residential or farm buildings and having maturities of not to exceed nine months shall be eligible for discount as commercial paper within the terms of the second paragraph of section 13 of this Act if accompanied by a valid and binding agreement to advance the full amount of the loan upon the completion of the building entered into by an individual, partnership, association, or corporation acceptable to the discounting bank.

15 USC 631
note.

“(e) Loans made to any borrower (i) where the association looks for repayment by relying primarily on the borrower's general credit standing and forecast of income, with or without other security, or (ii) secured by an assignment of rents under a lease, and where, in either case described in clause (i) or (ii) above, the association wishes to take a mortgage, deed of trust, or other instrument upon real estate (whether or not constituting a first lien) as a precaution against contingencies, and loans in which the Small Business Administration cooperates through agreements to participate on an immediate or deferred or guaranteed basis under the Small Business Act, shall not be considered as real estate loans within the meaning of this section but shall be classed as commercial loans.

“(f) Any national banking association may make loans upon the security of real estate that do not comply with the limitations and restrictions in this section, if the total unpaid amount loaned, exclusive of loans which subsequently comply with such limitations and restrictions, does not exceed 10 per centum of the amount that a national banking association may invest in real estate loans. The total unpaid amount so loaned shall be included in the aggregate sum that such association may invest in real estate loans.

NATIONAL INSTITUTE OF BUILDING SCIENCES

Sec. 809. (a) (1) The Congress finds (A) that the lack of an authoritative national source to make findings and to advise both the public and private sectors of the economy with respect to the use of building science and technology in achieving nationally acceptable standards and other technical provision for use in Federal, State, and local housing and building regulations is an obstacle to efforts by and imposes severe burdens upon all those who procure, design, construct, use, operate, maintain, and retire physical facilities, and frequently results in the failure to take full advantage of new and useful developments in technology which could improve our living environment; (B) that the establishment of model buildings codes or of a single national building code will not completely resolve the problem because of the difficulty at all levels of government in updating their housing and building regulations to reflect new developments in technology, as well as the irregularities and inconsistencies which arise in applying such requirements to particular localities or special local conditions; (C) that the lack of uniform housing and building regulatory provisions increases the costs of construction and thereby reduces the amount

of housing and other community facilities which can be provided; and (D) that the existence of a single authoritative nationally recognized institution to provide for the evaluation of new technology could facilitate introduction of such innovations and their acceptance at the Federal, State, and local levels.

(2) The Congress further finds, however, that while an authoritative source of technical findings is needed, various private organizations and institutions, private industry, labor, and Federal and other governmental agencies and entities are presently engaged in building research, technology development, testing, and evaluation, standards and model code development and promulgation, and information dissemination. These existing activities should be encouraged and these capabilities effectively utilized wherever possible and appropriate to the purposes of this section.

(3) The Congress declares that an authoritative nongovernmental instrument needs to be created to address the problems and issues described in paragraph (1), that the creation of such an instrument should be initiated by the Government, with the advice and assistance of the National Academy of Sciences-National Academy of Engineering-National Research Council (hereinafter referred to as the "Academies-Research Council") and of the various sectors of the building community, including labor and management, technical experts in building science and technology, and the various levels of government.

National Institute of Building Sciences Establishment.

(b) (1) There is authorized to be established, for the purposes described in subsection (a) (3), an appropriate nonprofit, nongovernmental instrument to be known as the National Institute of Building Sciences (hereinafter referred to as the "Institute"), which shall not be an agency or establishment of the United States Government. The Institute shall be subject to the provisions of this section and, to the extent consistent with this section, to a charter of the Congress if such a charter is requested and issued or to the District of Columbia Non-profit Corporation Act if that is deemed preferable.
