

NASA Scientific Research Challenge Activity: Educator Feedback Form

Instructions: As a current instructor of the NASA Education Scientific Research Challenge (SRC) Activity, you've been selected to take part in this questionnaire to test a future survey for clarity and comprehensibility. The questions below ask about your experiences with the NASA SRC you instructed in the Fall of 2016. Your answers to these questions will help us learn more about the program, including what worked well and what we may improve on. Please complete the questions on this survey to the best of your ability. This survey is voluntary. You do not have to take the survey or answer any questions you do not want to. Also, your responses are confidential, meaning that your name will never be tied to your responses and no one will know how you responded to these questions.

We also want to validate the estimate for how long it takes to complete this survey. **Therefore, we ask that you please note the time that you start this survey because we will ask at the end how long it took to complete this survey.**

Thank you very much for your help!

If you wish to participate in this survey, please continue.
