SUPPLEMENTARY INFORMATION: Under the PRA, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information before submitting the collection to OMB for approval. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below.

Title: Large Trader Reporting for Physical Commodity Swaps, (OMB Control No. 3038-0095). This is a request for extension of a currently approved information collection.

Abstract: Part 20 of the Commission’s regulations (“Reporting Rules”) requires clearing organizations and any persons that are “reporting entities” to file swaps position data with the Commission. The Reporting Rules collect clearing member reports from clearing organizations. The Reporting Rules also require position reports from reporting entities for principal and counterparty positions in cleared and uncleared physical commodity swaps. Reporting entities are those persons that are either “clearing members” or “swap dealers” that are otherwise not clearing members. For purposes of part 20, reporting parties are required to submit data on positions on a futures equivalent basis so as to allow the Commission to assess a trader’s market impact across differently structured but linked derivatives instruments and markets. This renewal updates the total

requested burden based on available reported data.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;

- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <http://www.cftc.gov>. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission’s regulations.¹

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <http://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement

The annual respondent burden for this collection during the renewal period is estimated to be as follows:

- *Estimated Number of Respondents*: 4,824.

- *Estimated Average Annual Burden Hours per Respondent*: 1.55.

- *Estimated Total Annual Number of Responses*: 56,088.

¹ 17 CFR 145.9.

Opportunity for Public Comment on Proposed Definition of “Procurement Administrative Lead Time” or “PALT” and the Plan for Measuring and Publically Reporting Data on PALT for Department of Defense Contracts and Task Orders Above the Simplified Acquisition Threshold

AGENCY: Defense Acquisition Regulations System (DARS), Department of Defense (DoD).

ACTION: Notice; request for public comments.

SUMMARY: In accordance with section 886 of the National Defense Authorization Act for Fiscal Year 2018, DoD is requesting public comments on a proposed definition of “Procurement Administrative Lead Time” or “PALT”, that will be applied DoD-wide, and DoD’s plan for measuring and publicly reporting data on PALT for DoD contracts and task orders above the simplified acquisition threshold.

SUPPLEMENTARY INFORMATION: Section 886 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91), requires DoD to develop and make available for public comment a definition of the term “Procurement Administrative Lead Time” or “PALT” and a plan for measuring and publicly reporting data on PALT for DoD contracts and task orders above the simplified acquisition threshold. DoD is proposing to define PALT as “the time between the date on which the initial solicitation for a contract or task order of the Department of Defense is issued and the date of the award of the contract or task order.” The Department plans to use Federal Procurement Data System—Next Generation (FPDS-NG), the authoritative source for Governmentwide contract award data, to measure PALT and make PALT data available to the public. The Department plans to submit a Change Control Board request to the General Services Administration to update FPDS-NG by adding a new data field that reflects when the solicitation for a contract or task order valued above the simplified acquisition threshold is issued. Once the FPDS-NG system is updated (estimated to be completed in fiscal year 2019), the public will be able to utilize FPDS-NG to obtain the PALT information for any contract or task order issued by the DoD that is valued above the simplified acquisition threshold. The public is invited to submit comments on this proposed definition and the plan as instructed in the addresses section of this notice.

Regulatory Control Officer, Defense Acquisition Regulations System.
