All questions must be answered with complete and accurate information that is subject to verification. If the answer is "none," "not applicable," or "unknown," so state. 2. **State Trust Powers.** Indicate (a) the trust powers granted by the state authority, (b) the date(s) those powers were granted, and (c) the status of any application(s) filed with the state authority regarding the granting of, or consent to exercise, trust powers.
3. **Trust Officer.** Identify the individual designated to be the primary Trust Officer. Indicate their age, proposed title, and proposed annual salary, and the percentage of time to be devoted to fiduciary activities. 4. **Servicing Arrangements.** If the institution intends to use another organization to manage the administration of its trust accounts and/or to manage trust investments, please provide: (a) the name, address and phone number of each such organization; (b) the organization's relationship (if any) to the applicant and its directors and officers; (c) the type of service(s) to be provided; (d) the basis for selecting each such organization; (e) whether such service(s) will be governed by a written agreement; (f) the projected annual cost of such service(s); and (g) how the applicant intends to monitor the outside organization's performance and compliance with the scope and terms of fiduciary responsibilities and the written agreement. *Please note: This question does not cover EDP servicing or custody of trust assets by correspondent banks.*

 - Trust Profitability: For each of the three calendar years, show gross trust account fees, other income, and a breakdown of direct and allocated expenses (such as salaries and benefits, audits, data processing, advertising, operations, legal, overhead, etc.). If the bank intends to provide an internal credit for bank earnings generated by trust deposits, the credit for deposits should be included as a separate item for each year.
8. **Impact on Applicant.** For years where the trust profitability projections indicate a net operating loss from offering trust services, discuss the extent of the adverse impact of these losses on the condition of the applicant.

STATEMENT OF PRINCIPLES OF TRUST DEPARTMENT MANAGEMENT

The minimum requirements to provide for sound banking practices in the operation of a trust department and to provide safeguards for the protection of depositors, fiduciary beneficiaries, creditors, stockholders, and the public, should include:

- Involvement by the board of directors in providing for the establishment and continuing operation of a trust department;
- Operation of the trust department separate and apart from every other department of the bank, with trust assets separated from other assets owned by the bank, and the assets of each trust account separated from the assets of every other trust account; and
- Maintenance of separate books and records for the trust department in sufficient detail to properly reflect all trust department activities.

Nothing herein is intended to prohibit the board of directors from acting as the trust committee, or from appointing additional committees and officers to administer the operations of the trust department. When delegating duties to subcommittees and/or officers, the board and the trust committee continue to be responsible for the oversight of all trust activities. Sufficient reporting and monitoring procedures should be established to fulfill this responsibility.

The board of directors, by proper resolution included in its minutes, should:

1. Designate an officer, qualified and competent, to be responsible for and administer the activities of the trust department. In addition, the board should define the officer's duties.
2. Name a trust committee consisting of at least three directors to be responsible for and supervise the activities of the trust department. The committee should include, where possible, one or more directors who are not active officers of the bank.

The trust committee should:

- a) Meet at least quarterly, and more frequently if considered necessary and prudent to fulfill its supervisory responsibilities;
 - b) Approve and document the opening of all new trust department accounts; all purchases and sales of, and changes in, trust assets; and the closing of trust accounts;
 - c) Provide for a comprehensive review of all new accounts for which the bank has investment responsibility promptly following acceptance;
 - d) Provide for a review of each trust department account, including collective investment funds, at least once during each calendar year. The scope, frequency, and level of review (trust committee, subcommittee, or disinterested account officer) should be addressed in appropriate written policies which give consideration to the department's fiduciary responsibilities, type and size of account, and other relevant factors.

Generally, discretionary account reviews should cover both administration of the account and suitability of the account's investments, and nondiscretionary account reviews should address account administration;
 - e) Keep comprehensive minutes of meetings held and actions taken; and
 - f) Make periodic reports to the board of its actions.
3. Provide comprehensive written policies which address all important areas of trust department activities.
 4. Provide competent legal counsel to advise trust officers and the trust committee on legal matters pertaining to fiduciary activities.
 5. Provide for adequate internal controls including appropriate controls over trust assets.

6. Provide for an adequate audit (by internal or external auditors or a combination thereof) of all fiduciary activities, annually. The findings of the audit, including actions taken as a result of the audit, should be recorded in its minutes.

If a bank adopts a continuous audit process instead of performing annual audits, audits may be performed, on an activity-by-activity basis, at intervals commensurate with the level of risk associated with that activity. Audit intervals must be supported and reassessed regularly to ensure appropriateness given the current risk and volume of the activity.

7. Receive reports from the trust committee and record actions taken in its minutes.

8. Review the examination reports of the trust department by supervisory agencies and record actions taken in its minutes.
