

**Appendix B2. Study of School Food Authority (SFA)
Procurement Practices: Frequently Asked
Questions - In-Depth Interview**

Q	Who is invited to participate in the Study of School Food Authority (SFA) Procurement Practices?
A	There are two phases of data collection for the study. The first phase included a web survey of approximately 560 SFAs. From the group of SFAs who complete the web survey, a subsample was selected to participate in a follow-up SFA Procurement Practices In-Depth Interview (IDI); approximately 100 SFAs will complete the follow-up IDI to meet the study's follow-up IDI subsample requirement and provide FNS with in-depth information from a wide range of SFAs.
Q	Why did you select our SFA?
A	Your SFA is part of a nationally representative sample. The selected SFAs for this study are in urban, suburban, and rural areas and include schools of varying sizes/grade levels. The sample of SFAs for this study is a subsample of SFAs that responded to the second year of the Child Nutrition Program Operations Study II (CN-OPS-II) survey. Your experiences and opinions about procurement practices are extremely valuable as FNS continually seeks to improve SFA procurement processes. By completing this interview, you serve as the voice for many SFAs like yours across the country.
Q	Are we required to participate?
A	Your SFA's cooperation is encouraged, given its authorization under the Healthy, Hunger-Free Kids Act of 2010, Section 305: <i>States, State educational agencies, local educational agencies, schools, institutions, facilities, and contractors participating in programs authorized under this Act and the Child Nutrition Act of 1966 (42 U.S.C 1771 et seq.) shall cooperate with officials and contractors acting on behalf of the Secretary, in the conduct of evaluations and studies under those Acts.</i> This study is not an audit—in this study, we are asking you to be partners in assessing the range of procurement practices currently in use by your SFA.
Q	What types of information should I be prepared to provide?
A	For the IDI, the following topics will be discussed: <ul style="list-style-type: none">• Procurement decision-making, goals, and strategy• Contract types• Solicitation and contract award processes• Contract management• Recordkeeping and performance monitoring• Training and resources• SFA challenges/best practices
Q	How long is the data collection period?
A	The data collection period will last from October 2018 to April 2019. For those SFAs selected for an IDI, the interview will require approximately 90 minutes and will be scheduled after the web survey.
Q	Do I have to be audio-recorded?
A	You will be asked if we have your permission to record the IDI so that the 2M/Mathematica Study Team and FNS may accurately represent your responses. If you do not wish to be audio-recorded, that is not a problem. We will ask that you be patient with us as we will need to take notes during the interview.
Q	What if we do not have time or staff to participate in the study?
A	We understand that your time is valuable. The study has been carefully designed and pretested to collect the required information with minimal burden to both you and your staff.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average five minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Q	Who should I contact if I have questions about the study, web survey, or IDI?
