### SUPPLEMENTARY INFORMATION:

#### I. Abstract

This request is for an extension of a current information collection.

The National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) established programs to reduce excess fishing capacity by paying fishermen to surrender their vessels/permits. These fishing capacity reduction programs, or buybacks, are conducted pursuant to the Magnuson-Stevens Fishery Conservation and Management Act, and the Magnuson-Stevens Reauthorization Act (Pub. L. 109-479). The buybacks can be funded by a Federal loan to the industry or by direct Federal or other funding. Buyback regulations are at 50 CFR part 600.

The information collected by NMFS involves the submission of buyback requests by industry, submission of bids, referenda of fishery participants and reporting of collection of fees to repay buyback loans. For buybacks involving State-managed fisheries, the State may be involved in developing the buyback plan and complying with other information requirements. NMFS requests information from participating buyback participants to track repayments of the loans as well as ensure accurate management and monitoring of the loans. The recordkeeping and reporting requirements at 50 CFR parts 600.1013 through 600.1017 form the basis for the collection of information.

#### II. Method of Collection

Paper reports or electronic reports are required from buyback participants. Methods of submittal include mailing of paper reports, electronic submission via the internet, and/or facsimile transmission.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

This request is for extension of a currently approved information collection.

The Coral Reef Conservation Act of 2000 (Act) was enacted to provide a framework for conserving coral reefs. The Coral Reef Conservation Grant Program, under the Act, provides funds to broad-based applicants with experience in coral reef conservation to conduct activities to protect and conserve coral reef ecosystems. The information submitted by applicants is used to determine if a proposed project is consistent with the NOAA coral reef conservation priorities and the priorities of authorities with jurisdiction over the area where the project will be carried out. As part of the application, NOAA requires a Data and Information Sharing Plan in addition to the standard required application materials.

**II. Method of Collection**

The information will be collected by the secure web based tool [grants.gov](http://grants.gov) or by mail when the internet is not available.
