

Objection Filing to Posted Section 232 Exclusion Request: Aluminum

Objection Filing Requirements: Any individual or organization in the United States may file an Objection to an Exclusion Request. Where relevant, organizations must provide factual information on 1) the aluminum products that they manufacture in the United States, 2) the production capabilities at aluminum manufacturing facilities that they operate in the United States; and 3) the availability and delivery time of the products that they manufacture relative to the specific aluminum product that is subject to an Exclusion Request. For an Objection Filing to be considered, it must be submitted as an electronic document using this Excel-based template. Paper submissions will not be accepted.

Organizations submitting an Objection Filing on an Exclusion Request should provide specific information, as relevant, on the product that their company can provide that is comparable to the aluminum product that is the subject of the Exclusion Request. This information should include 1) discussion on the suitability of its product for the application identified by the Exclusion Requestor, and 2) a full technical description of the properties of the product it manufactures relative to specifications provided in the Exclusion Request posted on regulations.gov, including information on dimensions, strength, toughness, ductility, surface finish, coatings, and other relevant data.

A separate Objection Filing must be submitted on each Exclusion Request, citing the specific aluminum product and dimension covered in the request posted on regulations.gov. All applicable question blocks in this form must be completed for the Objection Filing to be accepted for consideration. Organizations electing to attach supporting documents must provide a single submission only in PDF format that must not exceed 25 pages in total. All information submitted in the Exclusion Request is subject to public disclosure. Do not provide sensitive Personally Identifiable Information.

Organizations should upload their Objection Filing covering a single aluminum Exclusion Request to the corresponding Exclusion Request on <https://www.regulations.gov/> under Docket Number BIS-2018-0002. An Objection Filing must be submitted to regulations.gov no later than 30 days from the date the Exclusion Request is posted in regulations.gov. Processing of the Exclusion Request, including consideration of Objection Filings, will take approximately 90 business days. When Exclusion Requests are approved, notification will be made on regulations.gov. For questions related directly to completing this form, contact BIS via email (aluminum232@bis.doc.gov) or telephone (202-482-4757).

Instruction: State the name, address, and related contact information for the organization submitting the Objection Filing. Provide the same information for the Exclusion Requestor that is the subject of this Objection Filing, relying on information in the request notice posted on regulations.gov. Also provide the regulations.gov identification number issued for the submitter of the Exclusion Request, the HTSUS code for the aluminum product, and annual quantity of imported aluminum product at issue. This information is found in the Exclusion Request document posted on regulations.gov

Identify the reasons your organization objects to an Exclusion Request being granted to the applicant cited above. Written comments may be submitted (not required) to supplement information that your organization has provided in the Objection Filing form on the Exclusion Request, but total attachments may not exceed 25 pages. Organizations making an Objections Filing should identify factual problems that they encounter in the Exclusion Request (e.g., product description).

1.b	Indicate what type of order the Exclusion Request that is the subject of the Objection Filing would pertain to:					
	Comments					
1.c	Is the aluminum product type identified in the Exclusion Request currently manufactured by your organization in the United States, or can it immediately be made (within 8 weeks) by your organization, in a company-owned plant in the United States? If "Yes" identify the location(s) of your aluminum production facilities in the United States.	-Yes/No-	City	State	Current Annual Plant Production Capacity (mt)	% Plant Utilization Current
1.d	This organization does not currently manufacture the identified aluminum product, but can produce the product identified in the Exclusion Request within the following time period at the following facilities:	Days	City	State	Current Annual Plant Production Capacity (mt)	% Plant Utilization Current
	Comments					
1.e	Does this organization currently manufacture, or can immediately manufacture (within 8 weeks), in a company-owned plant located in the United States a substitute product for the identified aluminum product that has similar form, fit, function, and performance? If "Yes" identify the location(s) of your aluminum production facilities in the United States, current plant capacity and utilization	-Yes/No-	City	State	Current Annual Plant Production Capacity (mt)	% Plant Utilization Current
1.f	This organization does not currently manufacture the identified aluminum product, but can make a substitute product that has similar form, fit, function, and performance within the following time period at the following facilities:	Days	City	State	Current Annual Plant Production Capacity (mt)	% Plant Utilization Current
