OMB Control Number: 0694-0139

## Request for Exclusion from Remedies: Section 232 National Security Investigation of Aluminum Imports

Exclusion Request Requirements: Only individuals or organizations operating in the United States that use aluminum products (e.g. slab, billets, ingots, extrusions, rod and bar, sheet and plate, foil, pipe and tube, castings and forgings, etc.) in business activities (e.g., construction, manufacturing, supplying aluminum product to users) in the United States may submit an Exclusion Request. For an Exclusion Request to be considered, the Exclusion Requester must provide factual information on 1) the single type of aluminum product they require using a 10-digit HTSUS code, including its specific dimension; 2) the quantity of product required (stated in kilograms) under a one-year exclusion; 3) a full description of the properties of the aluminum product it seeks to import, including chemical composition, dimensions, strength, toughness, ductility, magnetic permeability, surface finish, coatings, and other relevant data. Exclusion Requests must be submitted using this Excel-based document. Paper submissions will not be accepted.

A separate Exclusion Request must be submitted on each distinct type and dimension of aluminum product to be imported. All applicable question blocks in the form must be completed for the Exclusion Request to be accepted. Exclusion Requests will be denied if the applicant: 1) does not sufficiently address the specified reporting requirements; 2) cites the improper HTSUS code, or 3) provides incorrect product descriptions.

Organizations electing to attach supporting documents must provide these documents in PDF format and it must not exceed 25 pages. All information submitted in the Exclusion Request is subject to public disclosure. Do not provide sensitive Personally Identifiable Information.

Organizations should upload their completed Exclusion Request pertaining to an aluminum product to www.regulations.gov under Docket Number BIS-2018-0002. An Exclusion Request may be submitted at any time. Processing of an Exclusion Request will take approximately 90 business days. Notification of granted Exclusions will be posted on www.regulations.gov. For questions related directly to completing this form, contact BIS via email (Aluminum232@bis.doc.gov) or telephone (202-482-4757).
