The information gathered from the MIHOPE study will help policymakers design better programs for mothers of young children. Your participation in MIHOPE is voluntary but very important! This is your opportunity to help improve the health care and home visiting system. You cannot be replaced in the study.

As you may recall, the Administration for Children and Families of the U.S. Department of Health and Human Services is sponsoring MIHOPE. Mathematica Policy Research, an independent research company, is conducting the survey as part of the study. We'd like to let you know that taking part in MIHOPE will not affect any benefits you receive now or in the future. Also, all information you provide for MIHOPE will be kept private to the extent provided by law. Study results will be reported for groups of families. No names or individual information will be reported.

Thank you for your continued participation in the MIHOPE study. We look forward to speaking with you soon!

Sincerely,

Erin Panzarella

This collection of information is voluntary and will be used to learn how home visiting programs benefit families. Public reporting burden for this collection is estimated to average 30 minutes, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is XXXX-XXXX and it expires on XX/XX/XXXX.
