

Feedback on Decommissioned USGS Applications

As user of a USGS Water web application that has been, or is scheduled to be, decommissioned we are asking for your feedback on how you may be impacted by this change. The feedback that you provide will help us better understand how USGS Water web applications are used so that we may make informed decisions about resources and services we provide to the public in the future. Your participation is voluntary and your responses will be anonymous. We estimate the survey will take 5 minutes to complete. Thank you for providing us with valuable information about how you use our science.

Paperwork Reduction Act Statement: We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501) to inform future water web application decisions. Your response is voluntary and we will not share the results publicly. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB Control Number. OMB has reviewed and approved this survey and assigned OMB Control Number 1090-0011, which expires 10/31/2021.

Estimated Burden Statement: We estimate the survey will take you 5 minutes to complete, including time to read instructions, gather information, and complete and submit the survey. You may submit comments on any aspect of this information collection to the Information Collection Clearance Officer, US Geological Survey, gs-info_collections@usgs.gov
