Model Questions

As discussed during the kick-off call, the model questions are part of the ForeSee methodology. For consistency with the model, these questions are standardized and have been tested and validated. Standardization of model questions allows benchmarking across companies/industries, and these questions are used in calculating scores and impacts. Focus on the future behaviors; I've started with some that I believe are a good fit but we can certainly make adjustments. These are desired customer outcomes that are impacted by customer satisfaction.

Custom Questions

When reviewing the custom questions tab, keep in mind these questions are used for segmentation analysis of the model data. It is suggested that you add, delete or change custom questions over time, as your needs or business objectives change.
