Paperwork Reduction Act Notice

The PBGC has asked the ACLI to conduct this survey so that it can ensure that its actuarial assumptions are in line with those underlying private sector annuity prices. The PBGC uses this information to determine the actuarial present value of benefits under single-employer plans that terminate and under multi-employer plans that undergo a mass withdrawal of contributing employers. Your response is voluntary. The ACLI will not disclose to the PBGC the identity of the insurance company responding to this survey. The PBGC regards the information gathered through the survey as confidential under 5 U.S.C. § 552(b) and 29 CFR Part 4901.

Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. This collection of information has been approved by the Office of Management and Budget (OMB) under control number 1212-0030. The PBGC estimates that the average burden of responding to this survey is 30 minutes. Comments concerning the accuracy of this estimate or suggestions for reducing this burden may be sent to the Pension Benefit Guaranty Corporation, Office of the General Counsel, 1200 K Street, NW, Washington, DC 20005-4026.

Instructions

If you are temporarily withdrawn from the immediate annuity market at the Date of Illustration, please check this box.

(If you checked the above box, skip Part I below.)

If you are temporarily withdrawn from the deferred annuity market at the Date of Illustration, please check this box.

(If you checked the above box, skip Part II below.)

(If you checked both of the above boxes, go directly to Part IV, Question 1.)

1. Display the net rate plan factors that reflect or are consistent with mortality and interest rate assumptions that underlie your company's quotation basis on actual bids on the above date. If you prefer, you may display these assumptions explicitly. If you provide actuarial assumptions, please make sure that there is enough information for the PBGC to be able to fill out the tables in Parts I and II. In either event, the assumptions or the factors based on them should contain no specific expense loading or provisions for disabled lives.
2. Assume an annuity contract for a plan termination or ASC 715 settlement on the date of illustration specified above. (See the enclosure for more details and background.)
