

Caution: *DRAFT—NOT FOR FILING*

This is an early release draft of an IRS tax form, instructions, or publication, which the IRS is providing for your information as a courtesy. **Do not file draft forms.** Also, do **not** rely on draft forms, instructions, and publications for filing. We generally do not release drafts of forms until we believe we have incorporated all changes. However, unexpected issues sometimes arise, or legislation is passed, necessitating a change to a draft form. In addition, forms generally are subject to OMB approval before they can be officially released. Drafts of instructions and publications usually have at least some changes before being officially released.

Early release drafts are at [IRS.gov/DraftForms](https://www.irs.gov/DraftForms), and may remain there even after the final release is posted at [IRS.gov/DownloadForms](https://www.irs.gov/DownloadForms). All information about all forms, instructions, and pubs is at [IRS.gov/Forms](https://www.irs.gov/Forms).

Almost every form and publication also has its own page on IRS.gov. For example, the Form 1040 page is at [IRS.gov/Form1040](https://www.irs.gov/Form1040); the Publication 17 page is at [IRS.gov/Pub17](https://www.irs.gov/Pub17); the Form W-4 page is at [IRS.gov/W4](https://www.irs.gov/W4); and the Schedule A (Form 1040) page is at [IRS.gov/ScheduleA](https://www.irs.gov/ScheduleA). If typing in a link above instead of clicking on it, be sure to type the link into the address bar of your browser, not in a Search box. Note that these are friendly shortcut links that will automatically go to the actual link for the page.

If you wish, you can submit comments about draft or final forms, instructions, or publications at [IRS.gov/FormsComments](https://www.irs.gov/FormsComments). We cannot respond to all comments due to the high volume we receive. Please note that we may not be able to consider many suggestions until the subsequent revision of the product.

Future Developments

For the latest information about developments related to Form 6627 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/Form6627.

What's New

The section 4681 tax rates for ozone-depleting chemicals (ODCs) in Parts II and III have increased for 2019. See the listing below.

The section 4611 tax on petroleum is scheduled to expire after December 31, 2018.

Purpose of Form

Use this form to figure the environmental tax on, ODCs, imported products that used ODCs as materials in the manufacture or production of the product, and the floor stocks tax on ODCs. If you need more lines for any part of the form, prepare additional sheets using the same format as the part. Attach the additional sheets with Form 6627 to Form 720, Quarterly Federal Excise Tax Return. See Pub. 510, Excise Taxes, for more information on environmental taxes. See the Instructions for Form 720 for information on when and where to file Form 6627.

Who Must File

For petroleum:

- The operator of the refinery that receives crude oil;
- The user or exporter of crude oil before tax is imposed; and
- The person entering the petroleum products for consumption, use, or warehousing.

For ODCs:

- The manufacturer or importer of ODCs who sells or uses those ODCs;
- The importer of taxable products who sells or uses those products; and
- The person other than the manufacturer or importer of ODCs who holds ODCs for sale or use in manufacturing on January 1, 2019.

Specific Instructions

Part I. Reserved for future use.

Part II. Tax on Ozone-Depleting Chemicals (ODCs), IRS No. 98

The following ODCs are taxable.

Post-1989 ODCs	Tax Per Pound in 2019
CFC-11	\$16.15
CFC-12	16.15
CFC-113	12.92
CFC-114	16.15
CFC-115	9.69
Halon-1211	48.45
Halon-1301	161.50
Halon-2402	96.90
Post-1990 ODCs	Tax Per Pound in 2019
Carbon tetrachloride	17.765
Methyl chloroform	1.615
CFC-13, CFC-111, CFC-112, and CFC-211 through CFC-217	16.15

The tax per pound rates above are figured using the ozone-depletion factor. Do not multiply the tax per pound by the ozone-depletion factor.

Mixture elections. Generally, the creation of a mixture containing one or more ODCs by the manufacturer or importer of an ODC is treated as the use of the ODC in the mixture. However, the manufacturer or importer may elect to treat the sale or use of the mixture as the first sale or use of the ODC in the mixture.

Post-1989 ODCs (the 1990 election). If this election is made, the tax on the post-1989 ODCs (listed earlier) contained in the mixture is imposed on the date of sale or use of the mixture. To make the election, check the first box in Part II, under *Elections*. This election may be revoked only with the consent of the IRS.

Post-1990 ODCs (the 1991 election). If this election is made, the tax on the post-1990 ODCs (listed earlier) contained in the mixture is imposed on the date of sale or use of the mixture. To make the election, check the second box in Part II, under *Elections*. This election may be revoked only with the consent of the IRS.

Column (c). Enter the tax per pound using the chart earlier.

Part III. ODC Tax on Imported Products, IRS No. 19

An imported taxable product is any product entered into the United States for consumption, use, or warehousing if any ODC was used as material in the manufacture or production of the product. The product must also be listed in the imported products table issued by the IRS. See Regulations section 52.4682-3(f)(6). The tax is based on the weight of ODCs used in the manufacture of the product. If the weight cannot be determined under the exact method or table method (see below), the tax is 1% of the entry value of the product (value method).

Importer election. Generally, an imported taxable product is taxed when it is sold or used by the importer. However, an importer may elect to treat the entry of products into the United States as the use of such products. This election applies to all products held by the importer when the election becomes effective. It also applies to all products the importer enters into the United States after the election becomes effective. If an election applies to an imported taxable product, tax is imposed on the product on the date of entry. To make the election, check the box in Part III, under *Election*. This election may be revoked only with the consent of the IRS.

Figure the ODC weight of the product as follows.

Exact method. If you determine the weight of each ODC used as a material in the manufacture of the product and you can support this determination, the ODC weight is the weight you determine.

Table method. If you don't use the exact method and the ODC weight is listed in the imported products table, use the ODC weight listed to figure the tax. See Pub. 510 for more information.

Figure the tax for Part III.

Column (a). Enter the imported product and the applicable ODC. Use additional lines if there is more than one ODC.

Column (b). Enter the number of taxable products imported.

Column (c). Enter the ODC weight of the product in pounds. If you are using the value method, don't complete this column.

Column (d). Enter the tax per pound from the chart in the instructions for Part II, earlier. If you are using the value method, enter 1% (0.01).

Column (e). If you are using the value method to figure the tax, enter the entry value of the total number of imported products.

Column (f). Figure the tax due by multiplying the number of products in column (b) by the ODC weight in column (c) by the tax per pound in column (d). If you are using the value method, multiply the 1% (0.01) rate in column (d) by the entry value in column (e).

Part IV. Tax on Floor Stocks of ODCs, IRS No. 20

The floor stocks tax for 2019 is imposed on the following ODCs.

ODCs	Tax Per Pound in 2019
CFC-11	\$0.45
CFC-12	0.45
CFC-113	0.36
CFC-114	0.45
CFC-115	0.27
Halon-1211	1.35
Halon-1301	4.50
Halon-2402	2.70
Carbon tetrachloride	0.495
Methyl chloroform	0.045
CFC-13, CFC-111, CFC-112, and CFC-211 through CFC-217	0.45

The tax per pound rates above are figured using the ozone-depletion factor. Do not multiply the tax per pound by the ozone-depletion factor.

For 2019, you are liable for the floor stocks tax if, on January 1, you hold any of the following.

1. At least 400 pounds of ODCs, other than halons or methyl chloroform, subject to the floor stocks tax.
2. At least 50 pounds of halons.
3. At least 1,000 pounds of methyl chloroform.

Report the tax on Form 6627 and Form 720 for the second calendar quarter of 2019. Payment of the tax is due by June 30, 2019.

Column (c). Enter the tax per pound using the chart above.
