Q17 Installed Avionics Equipment: Check all boxes below that reflect this aircraft's installed avionics equipment as of December 31, 2016. (Check the box if the aircraft has the equipment listed.)

Installed General Equipment:	Installed Recording Equipment:
☐ Electrical System	☐ Flight Data Recorder
☐ Electronic Primary Flight Display (PFD)	☐ Cockpit Voice Recorder
☐ Multi-Function Display (MFD)	Quick Access Recorder
☐ Electronic Flight Bag (EFB) – Installed	Cockpit Image Recorder
☐ Electronic Engine Monitor	Recording Capability in PFD/MFD (SD card)
☐ Terrain Awareness Warning System (TAWS)	
	Installed Navigation Equipment:
☐ Collision Avoidance (TCAS, TCAD, TIS)	Global Position System Operational Capability:
☐ Emergency Locator Transmitter: 121.5 MHz	☐ Not IFR approved
☐ Emergency Locator Transmitter: 406 MHz	IFR-approved for enroute operation only
☐ Air Bag	☐ IFR-approved for enroute & terminal
Ballistic Parachute	operation
Angle of Attack Display	☐ IFR-approved for LNAV or LNAV/VNAV approach
☐ Envelope Protection	operation
	☐ IFR-approved for LPV approach
Installed Transponder Equipment:	☐ Baro-VNAV for Approach Vertical Guidance
☐ Mode 3A/C	☐ Moving map capability
☐ Mode 3A/C and UAT (ADS-B TSO-C154)	☐ Inertial Reference / Navigation System
☐ Mode S (TSO-C112)	☐ VOR/DME-based Area Navigation (RNAV)
☐ Mode S (TSO-C112) and ADS-B (TSO-C166)	☐ DME/DME-based Area Navigation (RNAV)
ADS-B In Receive:	DME v v v
☐ UAT only	
1090 only	100 channel VOR receiver
UAT-1090 Dual-band	☐ 200 channel VOR receiver
Installed Communications Equipment:	Installed Guidance and Control Equipment:
50 kHz radio (360 channel)	Flight Management System
25 kHz radio (720 channel)	☐ Flight Director
8.33 kHz radio (2280 channel)	Autopilot-Axis Control:
☐ HF Radio	Lateral Guidance
Datalink:	Approach Mode (vertical guidance)
SATCOM (Comsat, Inmarsat)	☐ Horizontal Situation Indicator (HSI)
☐ ACARS (AFIS)	☐ Heads Up Display
FANS (1/A)	☐ Enhanced Vision System (EVS)
	☐ Enhanced Flight Vision System (EFVS)
Installed Weather Equipment:	Synthetic Vision System (SVS)
☐ Airborne Weather Radar	☐ Combined Vision System (CVS)
☐ Data Link Flight Information (UAT, XM, WSI)	·
Lightning Detection Equipment

Figure B.2: Single-Aircraft Internet Invitation Postcard

Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size and the hours flown by the general aviation community. Please log on to www.aviationsurvey.org to complete a survey for the aircraft listed below. Use the aircraft N-number as your password. If you cannot complete the survey on the Internet, you will automatically be sent a paper survey in the mail. It may be helpful to have your flight log book handy to answer the questions.

N-NUMBER: MANUFACTURER: MODEL: SERIAL:

This survey for the FAA is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private. If you have questions about the survey, please call Tetra Tech at 1-800-826-1797. Thank you for your help with this important study.

2016 General Aviation

and Part 135 Activity Survey

OMB (2120-0060) Expiration 5/31/2018

Figure B.3: Single-Aircraft Reminder/Thank-you Postcard

Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size, the hours flown by the general aviation community, and the reasons people use general aviation aircraft. A few weeks ago, we sent a postcard invitation to complete this survey on the Internet, followed by a paper version of the survey.

If you have already completed the survey online or returned the paper version, *thank you*. If you have not yet done so, please log on to <u>www.aviationsurvey.org</u> to complete the survey online for the aircraft listed below (use the aircraft N-number as your password). Or you may fill out and mail back the paper version—another survey form with a postage-paid envelope will be arriving in a few days.

N-NUMBER:

MANUFACTURER:

MODEL: SERIAL:

If you have questions or cannot complete the survey on the Internet, please contact Tetra Tech at 1-800-826-1797 or email infoaviationsurvey@tetratech.com. Thank you for your help with this important study.

and Part 135 Activity Survey

OMB (2120-0060) Expiration 5/31/2018

Figure B.4: Single-Aircraft Mail 1 Survey Insert for Partial Web Completes

Our records indicate you were unable to complete the 2016 General Aviation and Part 135 Activity Survey on the Internet. We apologize if this was caused by slow server response time or other technical difficulties. It's very important that we include everyone's response in order to represent the general aviation community accurately. We would appreciate it if you would complete the enclosed paper version of the 2016 General Aviation and Part 135 Activity Survey.

Thank you for your help with this important study. If you have any questions, please call Tetra Tech at 1-800-826-1797.

Figure B.5: Insert for All Mail Surveys with Alaska Addresses (Single Aircraft and Large Fleet)

Dear Alaskan aircraft owner or operator:

The enclosed survey is an important tool in collecting accurate information on Alaskan aviation. The **Alaska Airmen Association**, **Alaska Air Carriers Association**, and the **Medallion Foundation** all strongly support this survey and encourage your participation. The survey is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private.

If we are to set the best course for aviation in Alaska, we need the best data. Please take a few minutes to complete the enclosed survey—it will be time well spent!

Thank you,

Sven Lincke Jane Dale Jerry Rock

President Executive Director Executive Director

Alaska Airmen Association Alaska Air Carriers Association Medallion Foundation

If you have questions, please contact Tetra Tech at 1-800-826-1797 or infoaviationsurvey@tetratech.com.

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

of Transportation **Federal Aviation** Administration

March 10, 2017 Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 39th annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2016. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this important information. The information collected will be aggregated and used by government agencies, industry, trade associations, and private businesses. These organizations use the data to pinpoint safety problems and to form the basis for critical research and analysis of general aviation issues. Previous years' survey results can be found at

http://www.faa.gov/data_research/aviation_data_statistics/general_aviation/.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Enclosed is a questionnaire requesting information for *calendar year 2016*. Regardless of whether you used this aircraft frequently in 2016, did not use this aircraft at all, or filled out a similar survey about this aircraft in past years, your response for 2016 is important. I urge you to complete the questionnaire today.

If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft Nnumber as the log-on password.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call the GA Survey help line, at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com. If you still have questions about this survey, please email

Mr. Brad Wacker, FAA Safety Analyst, at GASurvey@faa.gov.

The FAA and the general aviation community thank you for your participation in this important survey.

Sincerely,

Michael P. Huerta Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so Tetra Tech knows who should receive the letter.

Why was I selected for this survey?

Your aircraft was selected from the Civil Aviation Registry. The Registry shows you as a registrant of this aircraft as of December 31, 2016.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

You may have been selected again because several groups of aircraft are sampled at 100 percent to better understand general aviation activity of high-use groups (FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft). If you were randomly sampled to complete a survey last year, it may be because there are relatively few aircraft like yours so you may be selected more often.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line, at 1-800-826-1797, or email: **infoaviationsurvey@tetratech.com**.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

U.S. Department of Transportation

Federal Aviation Administration

April 21, 2017

Dear Aircraft Owner or Operator:

The Federal Aviation Administration needs your help. Please participate in the 2016 General Aviation (GA) and Part 135 Activity Survey. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample.

The enclosed survey is the only source for this important information. The information collected will be aggregated and used by government agencies, industry, trade associations, and private businesses. These organizations use the data to pinpoint safety problems and to form the basis for critical research and analysis of general aviation issues. Previous years' survey results can be found at http://www.faa.gov/data_research/aviation_data_statistics/general_aviation/.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Enclosed is a questionnaire requesting information for calendar year 2016. If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft

N-number as the log-on password.

Federal Aviation Administration

June 2, 2017

We really need your input! Thanks to the support and participation of the General Aviation (GA) community, the 2015 survey was a tremendous success. You can help us sustain that success.

Earlier this year, we sent you a General Aviation and Part 135 Activity Survey questionnaire to help us compile aircraft activity information for calendar year 2016. We have not yet received your response. Your participation will help the FAA track the effectiveness of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this information. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample. Previous years' survey results can be found at http://www.faa.gov/data research/aviation data statistics/general aviation/.

In case the previous mailings never reached you or were misplaced, we have enclosed another identical questionnaire with a return postage-paid envelope. Please read the instructions on the back of this letter, complete the questionnaire, and use the enclosed envelope to return it to us today.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft Nnumber as the log-on password.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call the GA Survey help line, at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com. If you still have questions about this survey, please email Mr. Brad Wacker, FAA Safety Analyst, at GASurvey@faa.gov.

The FAA and the general aviation community thank you for your participation in this important survey. Sincerely,

Michael P. Huerta Administrator

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Figure B.9: Single-Aircraft End of Field Period Follow-up Postcard

Dear Aircraft Owner or Operator,

We need your help! The 2016 General Aviation and Part 135 Activity Survey will end very soon. Thank you for your past participation—previous surveys have been a success thanks to you and many aircraft owners like you. Information about the activity of aircraft each year is critical to accurately calculate fleet size, hours flown, and the reasons people use their general aviation aircraft.

Please complete your survey today by logging-on to www.aviationsurvey.org for the aircraft listed below (use the aircraft N-number as your password).

N-NUMBER: MANUFACTURER: MODEL: SERIAL:

If you have questions please contact Tetra Tech at 1-800-826-1797 or email infoaviationsurvey@tetratech.com. Thank you for your help with this important study.

2016 General Aviation
OMB (2120-0060) Expiration 5/31/2018

and Part 135 Activity Survey

2016 General Aviation and Part 135 Activity Survey Large Fleet Form

This form collects information based on 6 broad aircraft categories. We recommend responding for one aircraft category at a time—each category should be completed independently of the others.

Please return the completed pages in the enclosed postage-paid envelope. You may fax your responses to 1-608-661-5181 or email to infoaviationsurvey@tetratech.com. You can complete the survey online at: www.aviationfleetsurvey.org (to log in, use your 7-digit password located in red in the bottom right corner of the page). If you have any questions about this study, please contact Tetra Tech at 1-800-826-1797.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, include all hours flown by all users under all FAR Parts for all of 2016.

If you do not know the exact information for a particular question, please provide your best estimate.

Q1 Enter the number of aircraft in each aircraft type that were owned or operated by your organization as of December 31, 2016. Then, enter the state/territory in which each aircraft type was <u>primarily</u> flown in 2016. (Enter 0 if you did not own or operate aircraft in a category in 2016. If none of the aircraft in a category were flown, leave the state primarily flown blank.)

Aircraft Type	Number of Aircraft	State Primarily Flown*
Turbojets		
Turboprops		
Reciprocating Aircraft		
Turbine Rotorcraft		
Reciprocating Rotorcraft		
Other Aircraft (e.g., balloons, gliders, experimental, etc.)		

*Please use 2-character state/territory abbreviations.

(Continue to the next page.)

800 Independence Avenue SW AVP-200 (2016 Survey) Washington, DC 20591 Office of Management and Budget Paperwork Reduction Project OMB (2120-0060) Expiration 5/31/2018 Washington, DC 20503

How many total hours did your entire turbojet fleet fly in 2016? (Include estimated rental and leased hours; if you purchased any of these aircraft in 2016, please include hours flown for the entire year.)
Hours (rounded to the nearest WHOLE number - no decimals please)
What percent of the total hours flown by your entire turbojet fleet in 2016 was under a fractional ownership program? (This is NOT simply joint ownership. This is ONLY for turbojet aircraft in a fractional ownership program meeting Part 91, subpart K, and issued FAA Management Specifications. Flights under Part 135 should not be included. Enter 0 if no hours were flown under a fractional ownership program.)
How many landings did your entire
turbojet fleet perform in 2016? Number of 2016 landings
What was the total fuel consumption (in gallons) for all turbojets in your fleet in 2016? (Please estimate the total fuel consumption for your turbojet fleet in 2016.)
Total Gallons Consumed (rounded to the nearest WHOLE number – no decimals please)
For your turbojet fleet, for what percent of the total hours flown in 2016 were the aircraft owned or hired by the federal, state, or local government for the purpose of fulfilling a governmental function? (Enter 0 if the aircraft were not used for the purpose of fulfilling a governmental function.)

Q7a What percent of the total hours flown by your entire turbojet fleet in 2016 were flown in each of the following categories? (Estimate the percent of total hours flown in 2016 in each of the following categories so that the total equals 100%.)

FIGURE B.11: LARGE FLEET MAIL 1 COVER LETTER

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

U.S. Department of Transportation

Federal Aviation Administration

February 6, 2017

Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 39th annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2016. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. Previous years' survey results can be found at

http://www.faa.gov/data research/aviation data statistics/general aviation/.

Our records indicate that you are an owner or operator of multiple aircraft. To minimize the burden of reporting for multiple aircraft, we have developed a special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.

The responses of multiple-aircraft owners or operators are extremely important **«LFID»** for estimating general aviation and on-demand Part 135 activity. To complete the survey online, please use your Web browser to access www.aviationfleetsurvey.org (to log in, use the 7-digit password in the box to the right). For your convenience, we have also enclosed a paper copy of the survey. If you choose to complete the paper copy, please return it in the enclosed business reply envelope. You may also contact us to discuss other means of reporting, such as email, electronic file, or over the phone. We are committed to working with you to

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call the GA Survey help line, at 1-800-826-1797, or email: **infoaviationsurvey@tetratech.com**. If you still have questions about this survey, please email Mr. Brad Wacker, FAA Safety Analyst, at GASurvey@faa.gov.

Sincerely,

find the best reporting option for your organization.

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so Tetra Tech knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2016.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year. Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line at 1-800-826-1797, or email: **infoaviationsurvey@tetratech.com**.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

FIGURE B.12: LARGE FLEET REMINDER LETTER

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

Federal Aviation Administration

March 17, 2017

Dear Aircraft Owner or Operator:

Recently we mailed you a consolidated survey form for the 2016 General Aviation and Part 135 Activity Survey. We have not yet heard back from you and would like to ask if you have any questions regarding the questionnaire or the study itself. If so, please contact the GA Survey help line at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com.

Our records indicate that you are an owner or operator of multiple aircraft. In order to minimize the burden of reporting for multiple aircraft, we have developed a special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft. The responses of multiple-aircraft owners or operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity.

If you would like to complete the survey online, please use your web browser to www.aviationfleetsurvey.org (to log in, use the 7-digit password in the box to the

«LFID»

access right).

If you have misplaced your questionnaire, feel free to contact us for another copy or another one will automatically be sent to you in a few weeks. You may also contact us to discuss other means of reporting, such as email, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses. Previous years' survey results can be found at http://www.faa.gov/data_research/aviation_data_statistics/general_aviation/.

Again, if you have any questions or need further assistance, please call the GA Survey help line at

1-800-826-1797, or email: **infoaviationsurvey@tetratech.com**. If you have not obtained a satisfactory response, please email Mr. Brad Wacker, FAA Safety Analyst at GASurvey@faa.gov.

The FAA and the general aviation industry thank you for your participation in this important survey.

Sincerely,

Michael P. Huerta Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so Tetra Tech knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2016.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year. Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2016.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year. Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line at 1-800-826-1797, or email: **infoaviationsurvey@tetratech.com**.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

FIGURE B.14: LARGE FLEET MAIL 3 COVER LETTER

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

Federal Aviation Administration

June 2, 2017

Dear Aircraft Owner or Operator:

We really need your input! Thanks to the support of the General Aviation (GA) community, the survey has been a tremendous success in previous years. You can help us sustain that success.

Earlier this year, we sent you a General Aviation and Part 135 Activity Survey questionnaire to help us compile aircraft activity information for *calendar year 2016*. We have not yet received your response. Your participation will help the FAA track the effectiveness of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this information. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample. Previous years' survey results can be found at http://www.faa.gov/data research/aviation data statistics/general aviation/.

In case the previous mailings never reached you or were misplaced, we have enclosed another identical questionnaire with a return postage-paid envelope. This survey has been specially designed to minimize the burden of reporting for multiple aircraft, and allows you to report activity for your entire fleet using a single survey. Please complete the questionnaire and use the enclosed envelope to return it to us today.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with Tetra Tech, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

The responses of multiple-aircraft owners or operators are extremely important for accurately estimating general aviation and ondemand Part 135 activity. To complete the survey online, please use your Web browser to access «LFID» www.aviationfleetsurvey.org (to log in, use the 7-digit password in the box to the right). For your convenience, we have enclosed a paper copy of the survey. If you choose to complete the paper copy, please return it in the enclosed business reply envelope. You may also contact us to discuss other means of reporting, such as email, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call the GA Survey help line at 1-800-826-1797 or email: **infoaviationsurvey@tetratech.com**. If you still have questions about this survey, please email Mr. Brad Wacker, FAA Safety Analyst, at GASurvey@faa.gov.

The FAA and the general aviation community thank you for your participation in this important survey.

Sincerely,

Michael P. Huerta Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so Tetra Tech knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2016.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year. Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?
