SUPPLEMENTARY INFORMATION:

Title: Specialty Sugar Certificate Application.

OMB Number: 0551-0025.

Expiration Date of Approval: June 30, 2018.

Type of Request: Revision of a currently approved information collection.

Abstract: The quota system established by Presidential Proclamation 4941 of May 5, 1982, prevented imports of certain sugars used for specialized purposes which originated in countries without quota allocations. Therefore, the regulation at 15 CFR part 2011 (Allocation of Tariff-Rate Quota on Imported Sugars, Syrups and Molasses, subpart B—Specialty Sugar) established terms and conditions under which certificates are issued permitting U.S. importers holding certificates to enter specialty sugars from specialty sugar source countries under the sugar tariff-rate quotas (TRQ). Nothing in this subpart affects the ability to enter specialty sugars at the over-TRQ duty rates. Applicants for certificates for the import of specialty sugars must supply the information required by 15 CFR 2011.205 to be eligible to receive a specialty sugar certificate. The specific information required on an application must be collected from those who wish to participate in the program in order to grant specialty sugar certificates, ensure that imported specialty sugar does not disrupt the current domestic sugar program, and administer the issuance of the certificates effectively.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2 hours per response.

Respondents: Importers.

Estimated Number of Respondents: 60.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 120 hours.

Request for Comments: We are requesting comments on all aspects of this information collection to help us to: (1) Evaluate whether the collection of information is necessary for the proper performance of FAS's functions, including whether the information will have practical utility; (2) Evaluate the accuracy of FAS's estimate of burden including the validity of the methodology and assumptions used; (3) Enhance the quality, utility and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology. Copies of this information collection can be obtained from Connie Ehrhart, the Agency Information Collection Coordinator, at (202) 690-1578 or email at Connie.Ehrhart@fas.usda.gov.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.
