Introduction

This information collection is focused on communities that have used or are currently using the NIST Community Resilience Planning Guide for Buildings and Infrastructure Systems. We are collecting information from representatives of these communities in order to 1) inform the next generation of guidance on community resilience planning including Version 2.0 of the NIST Community Resilience Planning Guide and accompanying tool development, 2) better understand the process of resilience planning, and 3) identify additional resources that communities need for resilience planning.

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 15 minutes per survey, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the National Institute of Standards and Technology, Attn: Jennifer Helgeson, Economist, NIST, 100 Bureau Drive, MS 8603, Gaithersburg, MD 20899-1710, telephone 301-975-6133, or via email to jennifer.helgeson@nist.gov.

Survey to Assess Community Use of the NIST Community Resilience Planning Guide for Buildings and Infrastructure Systems (S2, D) OMB Control #0693-0078; Expiration Date: 07/31/2019 Step 2 Module + General Module D Thank you for continuing to provide feedback on your community's experience with the NIST Community Resilience Planning Guide for Buildings and Infrastructure Systems. We would now like to ask you a set of questions about your community's experience with Step 2 "Understand the Situation". 2. What processes were used to characterize the population and identify the social institutions? 3. Did the planning team identify dependencies among the social institutions?

	level of complexed was:	xity of the soc	cial institution	ı dependenci	es
Not at a	all complex				
Slightly	complex				
Modera	itely complex				
Very co	mplex				
Extrem	ely complex				

DMB Control #6	d Infrastructure Syste. 1693-0078; Expiration	Date: 07/31/2019		
5 What pro	coeeoe woro us	nd to characte	vrizo the built onviror	amont?
5. What pro		eu lu characte	erize the built enviror	iiileiit?
6. Did the p	anning team ide	entify depende	encies within the buil	t
environmer	t?			
Yes				
No				

Survey to Assess Community Use of the NIST Community Resilience Planning Guide

7. The level of complexity of the built environment dependencies
identified was:
Not at all complex
Slightly complex
Moderately complex
Very complex
Extremely complex

Survey to Assess Community Use of the NIST Community Resilience Planning Guide for Buildings and Infrastructure Systems (S2, D) OMB Control #0693-0078; Expiration Date: 07/31/2019
8. Were metrics identified?
Yes
○ No

o. Were metrics identified?
Yes
○ No
9. What processes were used to identify links between social institutions
and the built environment?
10. The level of difficulty encountered by the planning team in obtaining
information to complete Step 2 was:
Very difficult
O Difficult
Neutral Neutral
Easy
Very easy

11. Please describe the resource requirements for this step (Understanding the Situation) by estimating the total number of participants and labor hours to the best of your ability. Number of participants:
Number of labor hours:
12. Are there tools and/or support that your planning team needs from NIST or other organizations that would enable you to work more effectively?
○ No

for Buildings and Infrastructure Systems (S2, D) OMB Control #0693-0078; Expiration Date: 07/31/2019 16. In what ways has the NIST Community Resilience Planning Guide been useful? 17. In what ways would you recommend changing or improving the NIST Community Resilience Planning Guide for communities similar to your own? 18. Is there anything else you would like to tell us about your community's experience with the resilience planning process at this time?
