## OMB Compliance & Instructions

**Form Approved**
**OMB No. 0920-0650**
**Exp. Date: 06/30/2019**

Public reporting of this collection of information is estimated to average 48 hours per response, including the time for reviewing instructions and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0650).

**Instructions**

This document provides general instructions for using the PRC Program Evaluation Reporting System (PRC-PERS), including an overview of its layout and contents, as well as instructions for data entry.

PRC-PERS starts with the OMB Compliance Statement, these instructions, support information, and radio buttons to select which budget year you will report (e.g., Budget Year 4). You can choose to enter data throughout the reporting period, or once annually, until the deadline provided by the PRC Program.

The **Records Home Page** includes a legend of status icons that reflect the status you have selected for the fields you have entered, and a table of the sections of the Data Collection Instrument. These status icons reflect REDCap system prompts at the end of each data entry section. Selection of one of four "status" options will result in the status button colors changing on the Records Home Page according to these definitions:

**REDCap System Prompts:**
**Form Status:** Status of the selected record - Options include:
  **Blank** - white status icon - default status - No data has been entered for the selected record
  **Incomplete** - Red icon status - staff at PRC select Incomplete when they have not completed data entry for the selected record
  **Unverified** - Yellow status icon - staff at PRC select Unverified if they have not verified or quality checked their data entry - selecting Unverified could remind the PRC staff to confirm something prior to marking the record Complete.
  **Complete** - Green status icon - staff at PRC select Complete to indicate data entry for the selected record is complete and verified
**Save & Exit Form** - Save any changes made to the selected record, and return to the Record Home Page.
**Save & Stay** - Save any changes made to the selected record, and stay on the current data collection page.
**Cancel** - Cancel any changes made to the selected record, and return to the Record Home Page.

Each section of the instrument will have section specific instructions and definitions when applicable.

Data collection begins with Partnerships. At the top of this section and at the top of every data collection section, there are built in REDCap user features. These include:

**Download PDF of instrument(s)** - when clicked, this tab generates a PDF of the data entered in a selected record.
**VIDEO: Basic data entry** - This is a 5 minute Data Entry demonstration video created by the REDCap consortium, about how to enter data in a typical REDCap project.
**Save & Exit Form** - Save any changes made to the selected record, and return to the Record Home Page.
**Save & Stay** - Save any changes made to the selected record, and stay on the current data collection page.
**Cancel** - Cancel any changes made to the selected record, and return to the Record Home Page.

**Support**

For questions about evaluation content (e.g., what to report), please refer to the "Definitions/Instructions" section within each record.

If you still have questions, please contact your PRC Program Evaluation & Translation Team liaison.

If you have technical questions about this data collection system, please contact:
Email: prctechsupport@cdc.gov
Name: Gyan Chandra
Phone: 770-488-0145

## 📰 Input: Partnerships

| ✏️ Editing existing PRC-ID **Z_Test_PRC** | |
| --- | --- |
| 　Event Name: **Year 4** | |
| **PRC-ID** | Z_Test_PRC |

## Definitions / Instructions

Partnerships are mutual working relationships between your PRC and external collaborators (organizations or individuals outside of the PRC) on a project. PRC partnerships are for the purpose of developing, enhancing, or improving public health practice, programs, or activities (2014-2019 PRC FOA, RFA-DP-14-001, pp. 16).

In addition, PRCs are expected to establish a community committee with defined roles, responsibilities, guidelines, and procedures. The committee should reflect the defined community within which the applied public health prevention research project will occur (2014-2019 PRC FOA, RFA-DP-14-001, pp. 16). For the purposes of this evaluation, include community committee members as partners. This also includes any individual members who represent themselves or a particular sector in the community.

In order to be considered an actively engaged partnership, the PRC and project partner should fulfill at least one of the following roles during the reporting period:
• Service provision: Includes practice-based services such as providing health screenings.
• Research: Conducting basic research that informs a public health strategy.
• Evaluation: Conducting an evaluation that informs a public health strategy. This could include being paid for evaluation services, or evaluation of a specific intervention or program.
• Provision of resources: Resources that were exchanged as part of the partnership, including financial, material, or technical resources such as staff or volunteers for a particular project, office space, and access to technology. Those resources would not have been obtained without the partnership.
• Program development: Developing, implementing, or translating a curriculum, intervention, etc.
• Technical assistance (TA) may include: intervention selection and implementation, grant writing, grant review, developing a survey, etc.
• Training: Providing a formal training (e.g. curriculum implementation).
• Subject matter expertise (SME) includes presenting or providing information regarding evidence-based interventions or the public health burden of a risk factor through either oral or written communication.
• Service on boards or committees: Faculty or staff member(s) from the PRC is a member of the partner's board(s) or committee(s) OR the partner is represented on a PRC community committee.
• Dissemination: The PRC or partner systematically disseminates an intervention or program.
Instructions

## Instructions
Please report the number of external partners your PRC actively engaged on a project (including sitting on a community committee) during the current reporting period. Only report each partner once. If your PRC is a member of a SIP Thematic Network, enter the name of the Thematic Network for the Partner Name, select "PRC" for Organization/Partner Type, and "SIP" for the associated project.

Please do not report:
• Collaborations within your PRC.
• Partners who were not actively engaged with your PRC during the current reporting period.
• "In-kind support" from your academic institution.
• Partnerships that do not develop, enhance, or improve public health practice, programs, or activities.

## Input: Partnerships

### Partners that your PRC was actively engaged with, in Budget Year 4 (9/30/2017 - 9/29/2018).

### Definitions / Instructions

Please use the following definition to tell us about the resources provided by your academic institution to support your PRC's activities.

**Definition**
Some PRCs receive in-kind support from the academic institutions in which they are housed. This may take the form of financial (e.g. return of indirect costs, additional funding), material (e.g. equipment, office space), or technical (i.e. support provided by a faculty or staff member) support.

## Input: Resources provided by your academic institution to support your PRC

**Which of the following types of support (with actual or estimated value > $100) were provided in-kind to your PRC by your academic institution in Budget Year 4 (9/30/2017 - 9/29/2018)?** (Select all that apply.)

For each type of support that was provided, please indicate whether it was provided to the center, core research, or both.

### Definitions / Instructions

As stated in the 2014-2019 PRC FOA, RFA-DP-14-001, (p. 14), the funding (50%) provided for the comprehensive prevention research center should support the following key elements:
1. Infrastructure and administration;
2. Community engagement, partnerships and technical assistance;
3. Communication and dissemination;
4. Training; and
5. Evaluation.

Please enter all projects associated with these center elements (i.e. projects funded through center as opposed to core research funding) during the reporting period. Provide a project name, brief description, and the key element it was associated with. Note that the outputs and outcomes you report in Sections 7-10 will need to be associated with either a center project or research project. All formal training programs (Section 6) will be linked to a center project entered here.

## Activity: Center Projects

## 📰 Activity: Other-funded Research Projects

| 🖉 Editing existing PRC-ID **Z_Test_PRC** |
| --- |
| Event Name: **Year 4** |

| **PRC-ID** | Z_Test_PRC |
| --- | --- |

### Definitions / Instructions

Other-funded research projects are specific research projects that are in line with the mission of the PRC and for which a PRC faculty or staff member applied and received funding for a specified project period. The funding source may be a foundation, government agency, school, or other funding source. Center projects, core research projects, and SIPs are not considered "other-funded research projects".

PRC faculty and staff include individuals who receive salary and/or project-specific funding from the PRC or SIP budgets, or provide in-kind services to the PRC, and who contributed to or benefited from the PRC.

**Instructions**
Please provide information about the "other-funded research projects" for which your PRC received funding during the current reporting period.

NOTE: Please do not report:
• Core and SIP projects.
• Center projects
• Projects that did not receive financial support from a funding agency.
• Projects not awarded to PRC faculty or staff.
• Projects not in line with the mission of the PRC.

## 📰 Output: Students Mentored

🖊 Editing existing PRC-ID **Z_Test_PRC**

Event Name: **Year 4**

| PRC-ID | Z_Test_PRC |
|---|---|

### Definitions / Instructions

**Definitions**
Students mentored by and/or working with the PRC must be connected to PRC activities through center projects, core research, SIP, or other-funded research projects that are within the scope of the PRC mission. This includes, but is not limited to, students who worked with the PRC through research assistantships, independent study, practica, internships, fellowships, or other activities. These students may be paid or unpaid. This excludes students who only attended academic classes taught by PRC faculty and students who only attended formal PRC-developed or PRC-sponsored training programs.

A Pipeline Program is a program "focused on intervening in the educational pipeline to enhance opportunities for racial/ethnic minority and disadvantaged students to enter careers in the health professions and health sciences" (HHS, 2009).

## Output: Students mentored by and/or working with PRC

**Total # of students who worked with or for your PRC in Budget Year 4 (9/30/2017 - 9/29/2018).**

**For each academic level, in the table below, indicate the total number of students who worked with or for the PRC (paid or unpaid) during the current reporting period. If there were no students that received training or mentoring for a specified academic level, please enter "0" for the number of students.**

### Definitions / Instructions

We define a formal training program as one that your PRC funds or administers, and is replicable and portable (i.e., has fixed content that can be transferred to a different audience or population). The program may occur once, be recurring, or be available for ongoing distribution through your PRC. Most PRC formal training programs confer a new skill set or new knowledge.

Formal training programs do NOT include:
• Courses offered for university credit
• Training programs related to a specific research project (e.g., teaching interviewers to execute a particular survey protocol or orienting staff to a particular PRC project)
• Conferences or conference presentations that are for information sharing (NOTE: you may include a training program that is embedded in a conference setting or a conference that is specifically conducted to provide training via workshops)
• A fellowship or internship program
• A series of presentations (e.g., guest lectures on changing topics, a journal club, a brown bag series, etc.)
• An individual presentation

## Output: Formal Training Programs

**Formal Training Programs conducted by your PRC in Budget Year 4 (9/30/2017 - 9/29/2018).**

**Center Project Name**            [                    ]

## 📰 Output: Practice and Research Tools

| 🖉 Editing existing PRC-ID **Z_Test_PRC** |
|---|
| Event Name: **Year 4** |

| **PRC-ID** | Z_Test_PRC |
|---|---|

### Definitions / Instructions

Research tools are defined as instruments, methodologies, procedures, etc., funded all or in part by PRC dollars and intended primarily for use by researchers to conduct research.

Practice tools are tools developed to synthesize research findings and convert them into a form applicable to the target population or audience and are materials and resources public health practitioners and other external stakeholders can use to inform and improve their work in the promotion and advancement of public health objectives. Practice tools may include programs, technical packages, protocols, training materials, etc., intended primarily for use by community practitioners for non-research endeavors. Practice tools must be funded all or in part by PRC dollars.

Dissemination is the purposive distribution of information and intervention materials to a specific audience with the intent to spread information and associated evidence-based interventions. Methods of dissemination may include, but are not limited to: publishing, presenting at workshops, and posting to web-based information clearinghouses.

**Instructions**
Please report the number of practice and research tools that were developed and disseminated by your PRC in the current reporting period. Please only report tools associated with your center projects, core research project, SIPs, or other-funded research projects.

## Output: Practice and Research Tools

## 📰 Impact: Policy Systems and Environmental Strategies

✏️ Editing existing PRC-ID **Z_Test_PRC**

Event Name: **Year 4**

| PRC-ID | Z_Test_PRC |
|---|---|

### Definitions / Instructions

Systems-wide strategies affect populations and can occur as a result of any law, rule, regulation (formal or informal), or as standard practice. Policies must be sustainable - (e.g., a school-based intervention funded by a grant continues to be offered after the study is over). An example of a non-sustainable strategy: PRC is funded to evaluate an intervention. Schools offer the intervention during the study period but do not make it a formal part of their curriculum.

Environmental strategies addresses the physical (built environment), social (social context or social structures), and economic (access to employment, income, wealth, and other resources that influence consumerism) environments. Environmental strategies include building walking trails in a community, making low-fat choices available in cafeterias, or removing ashtrays from break rooms, etc.

## Impact: Policy, Systems & Environmental Strategies (PSE)

## 📰 Impact: Number of People Reached

🖊 Editing existing PRC-ID **Z_Test_PRC**

Event Name: **Year 4**

| PRC-ID | Z_Test_PRC |
|---|---|

### Definitions / Instructions

**Definition:**
The number of people reached by PRC Projects is defined as the number of people who had access to (potential reach) and/or use of (actual reach) PRC projects. This includes, for example, the number of participants in a PRC intervention (actual reach), or the number of people potentially reached by a new policy that resulted from PRC involvement (e.g., implementation, TA, prior evaluation evidence).

**Instructions**
Please report the number of people impacted by those PRC Projects that reached a new population. There must be evidence of how your PRC's involvement contributed to expanded reach. The PRC must have played an active role on the project during the current reporting period. Items reported must be a center project, core research project, SIP or other-funded research project.

NOTE: Please do not report:
• Projects that only include etiological research
• Existing programs for which your PRC only provided additional services (e.g., evaluation)
• Projects that were solely housed on a website with no additional PRC involvement

**Reach Website Links**

| Setting/Topic | Reach Measurement Methods |
|---|---|
| Parks/Public Areas | *Number of people in the community (http://quickfacts.census.gov)* |
| Worksites | *Number of Employees- Employer Records and/or U.S. Census County Business Patterns (www.census.gov/econ/cbp)* |
| Education Settings | *Number of enrolled children/students and employees (http://nces.ed.gov/globallocator    http://factfinder2.census.gov)* |
| Government Buildings | *Number of people in the community (http://quickfacts.census.gov)* |
| Hospital/Health Care Facilities | *Number of patients and employees (http://www.ahd.com/state_statistics.html)* |
| Housing | Number of residents who live in housing |
| Farmer's Markets | *Number of residents within a 5-mile radius of the farmer's market (www.freedemographics.com)* |
| Chain Retailers | *Number of community members (http://quickfacts.census.gov)* |
| Non-Chain Retailers | *Number of residents within a 1-mile (urban) or 10-mile (rural) radius of retailer (www.freedemographics.com)* |
| Prisons/Juvenile Detention Center | Number of inmates/prisoners and employees |
| Restaurants/Bars/Casinos | *Number of patrons and employees within a five mile radius of the facility (www.freedemographics.com)* |
| Smokers | *CDC State Tobacco Activities Tracking and Evaluation (STATE) System (http://www.cdc.gov/tobacco/state_system) and multiply by community census (http://quickfacts.census.gov)* |
| Specific Age Ranges | *All community residents of the target age range and location (http://quickfacts.census.gov)* |
| Community or Zoning/Land Use Population Count | *All community residents within the community/zone (http://quickfacts.census.gov)* |
| Specific Program Participation | Use Program Records |
| Determining Number of Individuals Using a Project/Strategy Based on Household Program Records | *Use program records to determine the number of participating households and multiply by average number of people per household by state, county, or zip code (http://quickfacts.census.gov)* |

## 📰 Impact: Projects Found Effective

| 🖊 Editing existing PRC-ID **Z_Test_PRC** |
| --- |
| Event Name: **Year 4** |

| PRC-ID | Z_Test_PRC |
| --- | --- |

### Definitions / Instructions

Please report the subset of PRC projects that were developed, implemented and/or evaluated by the PRC and found to be effective. The implementation of the project may have taken place in the current or previous funding cycles but the effectiveness of the project must have been established in the current reporting period. Projects must be a center project, core research project, SIP or other-funded research project.

Sources determining effectiveness may include peer-reviewed publications, recommendations from a national, state or local organization, Research-tested Intervention Programs (RTIPS), Community Guide, Center for Training and Research Translation (Center TRT), Guide to Clinical Preventative Services, or the Cochrane Review.

## Impact: PRC projects found to be effective

**Projects that were implemented and evaluated by your PRC that were effective in Budget Year 4 (9/30/2017 - 9/29/2018).**

### Definitions / Instructions

Each submitted product should adhere to the following criteria:
• Have at least one author who is either currently affiliated with the PRC, or was affiliated with the PRC during product development;
• Have accurate and complete citation and linking information;
• Relate to a center project, core research project, SIP, or other-funded research project;
• Have a valid ISBN# (for book or book chapters);
• Have a valid PubMed ID (PMID)# where applicable (for peer-reviewed journal articles);
• Have a URL link (if no PMID)

If the article has a PMID, enter it on the main screen and select the search button. Select the Details button to confirm the correct citation and abstract information has been pulled from PubMed ("Journal" and "PubMed View Abstract" tabs). Enter the project linking information in the "Project Linking Data" before submitting the record.

## Product Submission: Journal Articles

### Journal articles authored by your PRC in Budget Year 4 (9/30/2017 - 9/29/2018).

If PubMed ID# has been entered, please SKIP remaining questions relating to the journal article & complete information in the Project Linking Data section.
