SUBCHAPTER I—FOREIGN AND NATIONAL SECURITY POLICY OBJECTIVES AND RESTRAINTS

.....

§ 2751. Need for international defense cooperation and military export controls; Presidential waiver; report to Congress; arms sales policy

As declared by the Congress in the Arms Control and Disarmament Act [22 U.S.C. 2551 et seq.], an ultimate goal of the United States continues to be a world which is free from the scourge of war and the dangers and burdens of armaments; in which the use of force has been subordinated to the rule of law; and in which international adjustments to a changing world are achieved peacefully. In furtherance of that goal, it remains the policy of the United States to encourage regional arms control and disarmament agreements and to discourage arms races.

The Congress recognizes, however, that the United States and other free and independent countries continue to have valid requirements for effective and mutually beneficial defense relationships in order to maintain and foster the environment of international peace and security essential to social, economic, and political progress. Because of the growing cost and complexity of defense equipment, it is increasingly difficult and uneconomic for any country, particularly a developing country, to fill all of its legitimate defense requirements from its own design and production base. The need for international defense cooperation among the United States and those friendly countries to which it is allied by mutual defense treaties is especially important, since the effectiveness of their armed forces to act in concert to deter or defeat aggression is directly related to the operational compatibility of their defense equipment.

Accordingly, it remains the policy of the United States to facilitate the common defense by entering into international arrangements with friendly countries which further the objective of applying agreed resources of each country to programs and projects of cooperative exchange of data, research, development, production, procurement, and logistics support to achieve specific national defense requirements and objectives of mutual concern. To this end, this chapter authorizes sales by the United States Government to friendly countries having sufficient wealth to maintain and equip their own military forces at adequate strength, or to assume progressively larger shares of the costs thereof, without undue burden to their economies, in accordance with the restraints and control measures specified herein and in furtherance of the security objectives of the United States and of the purposes and principles of the United Nations Charter.

It is the sense of the Congress that all such sales be approved only when they are consistent with the foreign policy interests of the United States, the purposes of the foreign assistance program of the United States as embodied in the Foreign Assistance Act of 1961, as amended [22 U.S.C. 2151 et seq.], the extent and character of the military requirement, and the economic and financial capability of the recipient country, with particular regard being given, where appropriate, to proper balance among such sales, grant military assistance, and economic assistance as well as to the impact of the sales on programs of social and economic development and on existing or incipient arms races.

It shall be the policy of the United States to exert leadership in the world community to bring about arrangements for reducing the international trade in implements of war and to lessen the danger of outbreak of regional conflict and the burdens of armaments. United States programs for or procedures governing the export, sale, and grant of defense articles and defense services to foreign countries and international organizations shall be administered in a manner which will carry out this policy.

It is the sense of the Congress that the President should seek to initiate multilateral discussions for the purpose of reaching agreements among the principal arms suppliers and arms purchasers and other countries with respect to the control of the international trade in armaments. It is further the sense of Congress that the President should work actively with all nations to check and control the international sale and distribution of conventional weapons of death and destruction and to encourage regional arms control arrangements. In furtherance of this policy, the President should undertake a concerted effort to convene an international conference of major arms-supplying and arms-purchasing nations which shall consider measures to limit conventional arms transfers in the interest of international peace and stability.

It is the sense of the Congress that the aggregate value of defense articles and defense services—

- (1) which are sold under section 2761 or section 2762 of this title; or
- (2) which are licensed or approved for export under section 2778 of this title to, for the use, or for benefit of the armed forces, police, intelligence, or other internal security forces of a foreign country or international organization under a commercial sales contract;

in any fiscal year should not exceed current levels.

It is the sense of the Congress that the President maintain adherence to a policy of restraint in conventional arms transfers and that, in implementing this policy worldwide, a balanced approach should be taken and full regard given to the security interests of the United States in all regions of the world and that particular attention should be paid to controlling the flow of conventional arms to the nations of the developing world. To this end, the President is encouraged to continue discussions with other arms suppliers in order to restrain the flow of conventional arms to less developed countries.

Amendments

1981—Pub. L. 97–113 struck out paragraph which provided that it was the sense of Congress that sales and guaranties under sections 2761, 2762, 2763, and 2764 of this title not be approved where they would have had the effect of arming military dictators who were denying the growth of fundamental rights or social progress to their own people but allowing the President to waive this limitation when he determined it would be important to the security of the United States, and promptly so reported to the Speaker of the House of Representatives and the Committee on Foreign Relations in the Senate.

1978—Pub. L. 95–384, § 15(a), inserted paragraph relating to adherence to a policy of restraint in conventional arms transfer.

1976—Pub. L. 94–329 substituted in last paragraph provision relating to a new statement of policy whereby the United States shall exert leadership in the reduction of international trade in arms, and in that regard, the President to initiate discussions and actively work with other nations with a view towards control of international trade in arms, for provisions relating to a reduction in the role of the United States in furnishing of defense articles and defense services to foreign countries and international organizations by decreasing sales, credit sales and guarantees of such articles and services.

1973—Pub. L. 93–189 inserted last paragraph relating to a reduction by the United States in the furnishing of defense articles and defense services to foreign countries.

1971—Pub. L. 91–672 substituted “denying the growth of fundamental rights or social progress” for “denying social progress” in last par.

§ 2753. Eligibility for defense services or defense articles

(a) Prerequisites for consent by President; report to Congress

No defense article or defense service shall be sold or leased by the United States Government under this chapter to any country or international organization, and no agreement shall be entered into for a cooperative project (as defined in section 2767 of this title), unless—

- (1) the President finds that the furnishing of defense articles and defense services to such country or international organization will strengthen the security of the United States and promote world peace;
- (2) the country or international organization shall have agreed not to transfer title to, or possession of, any defense article or related training or other defense service so furnished to it, or produced in a cooperative project (as defined in section 2767 of this title), to anyone not an officer, employee, or agent of that country or international organization (or the North Atlantic Treaty Organization or the specified member countries (other than the United States) in the case of a cooperative project) and not to use or permit the use of such article or related training or other defense service for purposes other than those for which furnished unless the consent of the President has first been obtained:

- (3) the country or international organization shall have agreed that it will maintain the security of such article or service and will provide substantially the same degree of security protection afforded to such article or service by the United States Government; and
- (4) the country or international organization is otherwise eligible to purchase or lease defense articles or defense services.

In considering a request for approval of any transfer of any weapon, weapons system, munitions, aircraft, military boat, military vessel, or other implement of war to another country, the President shall not give his consent under paragraph (2) to the transfer unless the United States itself would transfer the defense article under consideration to that country. In addition, the President shall not give his consent under paragraph (2) to the transfer of any significant defense articles on the United States Munitions List unless the foreign country requesting consent to transfer agrees to demilitarize such defense articles prior to transfer, or the proposed recipient foreign country provides a commitment in writing to the United States Government that it will not transfer such defense articles, if not demilitarized, to any other foreign country or person without first obtaining the consent of the President. The President shall promptly submit a report to the Speaker of the House of Representatives and to the Committee on Foreign Relations of the Senate on the implementation of each agreement entered into pursuant to clause (2) of this subsection.

(b) Necessity of consent by President

The consent of the President under paragraph (2) of subsection (a) of this section or under paragraph (1) of section 2314 (a) of this title (as it relates to subparagraph (B) of such paragraph) shall not be required for the transfer by a foreign country or international organization of defense articles sold by the United States under this chapter if a treaty referred to in section 2778 (j)(1)(C)(i) of this title permits such transfer without prior consent of the President, or if—

- (1) such articles constitute components incorporated into foreign defense articles;
- (2) the recipient is the government of a member country of the North Atlantic Treaty Organization, the Government of Australia, the Government of Japan, the Government of the Republic of Korea, the Government of Israel, or the Government of New Zealand;
- (3) the recipient is not a country designated under section 2371 of this title;
- (4) the United States-origin components are not—
 - (A) significant military equipment (as defined in section 2794 (9) of this title);
 - (B) defense articles for which notification to Congress is required under section 2776 (b) of this title; and
 - (C) identified by regulation as Missile Technology Control Regime items; and
- (5) the foreign country or international organization provides notification of the transfer of the defense articles to the United States Government not later than 30 days after the date of such transfer.

(c) Termination of credits, guaranties or sales; report of violation by President; national security exception; conditions for reinstatement

- (1) (A) No credits (including participations in credits) may be issued and no guaranties may be extended for any foreign country under this chapter as hereinafter provided, if such country uses defense articles or defense services furnished under this chapter, or any predecessor Act, in substantial violation (either in terms of quantities or in terms of the gravity of the consequences regardless of the quantities involved) of any agreement entered into pursuant to any such Act
 - (i) by using such articles or services for a purpose not authorized under section 2754 of this title or, if such agreement provides that such articles or services may only be used for purposes more limited than those authorized under section 2754 of this title for a purpose not authorized under such agreement;

(ii) by transferring such articles or services to, or permitting any use of such articles or services by, anyone not an officer, employee, or agent of the recipient country without the consent of the President; or

(iii) by failing to maintain the security of such articles or services.

(B) No cash sales or deliveries pursuant to previous sales may be made with respect to any foreign country under this chapter as hereinafter provided, if such country uses defense articles or defense services furnished under this chapter, or any predecessor Act, in substantial violation (either in terms of quantity or in terms of the gravity of the consequences regardless of the quantities involved) of any agreement entered into pursuant to any such Act by using such articles or services for a purpose not authorized under section 2754 of this title or, if such agreement provides that such articles or services may only be used for purposes more limited than those authorized under section 2754 of this title, for a purpose not authorized under such agreement.

(2) The President shall report to the Congress promptly upon the receipt of information that a violation described in paragraph (1) of this subsection may have occurred.

(3) (A) A country shall be deemed to be ineligible under subparagraph (A) of paragraph (1) of this subsection, or both subparagraphs (A) and (B) of such paragraph in the case of a violation described in both such paragraphs, if the President so determines and so reports in writing to the Congress, or if the Congress so determines by joint resolution.

(B) Notwithstanding a determination by the President of ineligibility under subparagraph (B) of paragraph (1) of this subsection, cash sales and deliveries pursuant to previous sales may be made if the President certifies in writing to the Congress that a termination thereof would have significant adverse impact on United States security, unless the Congress adopts or has adopted a joint resolution pursuant to subparagraph (A) of this paragraph with respect to such ineligibility.

(4) A country shall remain ineligible in accordance with paragraph (1) of this subsection until such time as—

(A) the President determines that the violation has ceased; and

(B) the country concerned has given assurances satisfactory to the President that such violation will not recur.

(d) Submission of written certification to Congress; contents; classified material; effective date of consent; report to Congress; transfers not subject to procedures

(1) Subject to paragraph (5), the President may not give his consent under paragraph (2) of subsection (a) of this section or under the third sentence of such subsection, or under section 2314 (a)(1) or 2314 (a)(4) of this title, to a transfer of any major defense equipment valued (in terms of its original acquisition cost) at \$14,000,000 or more, or any defense article or related training or other defense service valued (in terms of its original acquisition cost) at \$50,000,000 or more, unless the President submits to the Speaker of the House of Representatives and the Committee on Foreign Relations of the Senate a written certification with respect to such proposed transfer containing—

(A) the name of the country or international organization proposing to make such transfer,

(B) a description of the article or service proposed to be transferred, including its acquisition cost,

(C) the name of the proposed recipient of such article or service,

(D) the reasons for such proposed transfer, and

(E) the date on which such transfer is proposed to be made.

Any certification submitted to Congress pursuant to this paragraph shall be unclassified, except that information regarding the dollar value and number of articles or services proposed to be transferred may be classified if public disclosure thereof would be clearly detrimental to the security of the United States.

- (2) (A) Except as provided in subparagraph (B), unless the President states in the certification submitted pursuant to paragraph (1) of this subsection that an emergency exists which requires that consent to the proposed transfer become effective immediately in the national security interests of the United States, such consent shall not become effective until 30 calendar days after the date of such submission and such consent shall become effective then only if the Congress does not enact, within such 30-day period, a joint resolution prohibiting the proposed transfer.
- (B) In the case of a proposed transfer to the North Atlantic Treaty Organization, or any member country of such Organization, Japan, Australia, the Republic of Korea, Israel, or New Zealand, unless the President states in the certification submitted pursuant to paragraph (1) of this subsection that an emergency exists which requires that consent to the proposed transfer become effective immediately in the national security interests of the United States, such consent shall not become effective until fifteen calendar days after the date of such submission and such consent shall become effective then only if the Congress does not enact, within such fifteen-day period, a joint resolution prohibiting the proposed transfer.
- (C) If the President states in his certification under subparagraph (A) or (B) that an emergency exists which requires that consent to the proposed transfer become effective immediately in the national security interests of the United States, thus waiving the requirements of that subparagraph, the President shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate immediate consent to the transfer and a discussion of the national security interests involved.
- (D) (i) Any joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.
- (ii) For the purpose of expediting the consideration and enactment of joint resolutions under this paragraph, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.
- (3) (A) Subject to paragraph (5), the President may not give his consent to the transfer of any major defense equipment valued (in terms of its original acquisition cost) at \$14,000,000 or more, or of any defense article or defense service valued (in terms of its original acquisition cost) at \$50,000,000 or more, the export of which has been licensed or approved under section 2778 of this title or has been exempted from the licensing requirements of this chapter pursuant to a treaty referred to in section 2778 (j)(1)(C)(i) of this title where such treaty does not authorize the transfer without prior United States Government approval, unless before giving such consent the President submits to the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate a certification containing the information specified in subparagraphs (A) through (E) of paragraph (1). Such certification shall be submitted—
- (i) at least 15 calendar days before such consent is given in the case of a transfer to a country which is a member of the North Atlantic Treaty Organization or Australia, Japan, the Republic of Korea, Israel, or New Zealand; and
- (ii) at least 30 calendar days before such consent is given in the case of a transfer to any other country,
- unless the President states in his certification that an emergency exists which requires that consent to the proposed transfer become effective immediately in the national security interests of the United States. If the President states in his certification that such an emergency exists (thus waiving the requirements of clause (i) or (ii), as the case may be, and of subparagraph (B)) the President shall set forth in the certification a detailed justification for

his determination, including a description of the emergency circumstances which necessitate that consent to the proposed transfer become effective immediately and a discussion of the national security interests involved.

(B) Consent to a transfer subject to subparagraph (A) shall become effective after the end of the 15-day or 30-day period specified in subparagraph (A)(i) or (ii), as the case may be, only if the Congress does not enact, within that period, a joint resolution prohibiting the proposed transfer.

(C) **(i)** Any joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(ii) For the purpose of expediting the consideration and enactment of joint resolutions under this paragraph, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(4) This subsection shall not apply—

(A) to transfers of maintenance, repair, or overhaul defense services, or of the repair parts or other defense articles used in furnishing such services, if the transfer will not result in any increase, relative to the original specifications, in the military capability of the defense articles and services to be maintained, repaired, or overhauled;

(B) to temporary transfers of defense articles for the sole purpose of receiving maintenance, repair, or overhaul; or

(C) to arrangements among members of the North Atlantic Treaty Organization or between the North Atlantic Treaty Organization and any of its member countries—

(i) for cooperative cross servicing, or

(ii) for lead-nation procurement if the certification transmitted to the Congress pursuant to section 2776 (b) of this title with regard to such lead-nation procurement identified the transferees on whose behalf the lead-nation procurement was proposed.

(5) In the case of a transfer to a member country of the North Atlantic Treaty Organization (NATO) or Australia, Japan, the Republic of Korea, Israel, or New Zealand that does not authorize a new sales territory that includes any country other than such countries, the limitations on consent of the President set forth in paragraphs (1) and (3)(A) shall apply only if the transfer is—

(A) a transfer of major defense equipment valued (in terms of its original acquisition cost) at \$25,000,000 or more; or

(B) a transfer of defense articles or defense services valued (in terms of its original acquisition cost) at \$100,000,000 or more.¹

(e) Transfers without consent of President; report to Congress

If the President receives any information that a transfer of any defense article, or related training or other defense service, has been made without his consent as required under this section or under section 2314 of this title, he shall report such information immediately to the Speaker of the House of Representatives and the Committee on Foreign Relations of the Senate.

(f) Sales and leases to countries in breach of nuclear nonproliferation agreements and treaties

No sales or leases shall be made to any country that the President has determined is in material breach of its binding commitments to the United States under international treaties or agreements concerning the nonproliferation of nuclear explosive devices (as defined in section 6305 (4) of this title) and unsafeguarded special nuclear material (as defined in section 6305 (8) of this title).

(g) Unauthorized use of articles

Any agreement for the sale or lease of any article on the United States Munitions List entered into by the United States Government after November 29, 1999, shall state that the United States Government retains the right to verify credible reports that such article has been used for a purpose not authorized under section 2754 of this title or, if such agreement provides that such article may only be used for purposes more limited than those authorized under section 2754 of this title, for a purpose not authorized under such agreement.

(C) in the case of the sale of a defense service, the full cost to the United States Government of furnishing such service, except that in the case of training sold to a purchaser who is concurrently receiving assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 [22 U.S.C. 2347 et seq.] or to any high-income foreign country (as described in that chapter), only those additional costs that are incurred by the United States Government in furnishing such assistance.

(2) For purposes of subparagraph (A) of paragraph (1), the actual value of a naval vessel of 3,000 tons or less and 20 years or more of age shall be considered to be not less than the greater of the scrap value or fair value (including conversion costs) of such vessel, as determined by the Secretary of Defense.

(b) Time of payment

Except as provided by subsection (d) of this section, payment shall be made in advance or, if the President determines it to be in the national interest, upon delivery of the defense article or rendering of the defense service.

(c) Personnel performing defense services sold as prohibited from performing combat activities

(1) Personnel performing defense services sold under this chapter may not perform any duties of a combatant nature, including any duties related to training and advising that may engage United States personnel in combat activities, outside the United States in connection with the performance of those defense services.

(2) Within forty-eight hours of the existence of, or a change in status of significant hostilities or terrorist acts or a series of such acts, which may endanger American lives or property, involving a country in which United States personnel are performing defense services pursuant to this chapter or the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], the President shall submit to the Speaker of the House of Representatives and to the President pro tempore of the Senate a report, in writing, classified if necessary, setting forth—

(A) the identity of such country;

(B) a description of such hostilities or terrorist acts; and

(C) the number of members of the United States Armed Forces and the number of United States civilian personnel that may be endangered by such hostilities or terrorist acts.

(d) Billings; interest after due date, rates of interest and extension of due date

If the President determines it to be in the national interest pursuant to subsection (b) of this section, billings for sales made under letters of offer issued under this section after June 30, 1976, may be dated and issued upon delivery of the defense article or rendering of the defense service and shall be due and payable upon receipt thereof by the purchasing country or international organization. Interest shall

be charged on any net amount due and payable which is not paid within sixty days after the date of such billing. The rate of interest charged shall be a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding short-term obligations of the United States as of the last day of the month preceding the billing and shall be computed from the date of billing. The President may extend such sixty-day period to one hundred and twenty days if he determines that emergency requirements of the purchaser for acquisition of such defense articles or defense services exceed the ready availability to the purchaser of funds sufficient to pay the United States in full for them within such sixty-day period and submits that determination to the Congress together with a special emergency request for the authorization and appropriation of additional funds to finance such purchases under this chapter.

(e) Charges; reduction or waiver

(1) After September 30, 1976, letters of offer for the sale of defense articles or for the sale of defense services that are issued pursuant to this section or pursuant to section 2762 of this title shall include appropriate charges for—

(A) administrative services, calculated on an average percentage basis to recover the full estimated costs (excluding a pro rata share of fixed base operation costs) of administration of sales made under this chapter to all purchasers of such articles and services as specified in section 2792 (b) of this title and section 2792 (c) of this title;

(B) a proportionate amount of any nonrecurring costs of research, development, and production of major defense equipment (except for equipment wholly paid for either from funds transferred under section 503(a)(3) of the Foreign Assistance Act of 1961 [22 U.S.C. 2311 (a)(3)] or from funds made available on a nonrepayable basis under section 2763 of this title); and

(C) the recovery of ordinary inventory losses associated with the sale from stock of defense articles that are being stored at the expense of the purchaser of such articles.

(2) **(A)** The President may reduce or waive the charge or charges which would otherwise be considered appropriate under paragraph (1)(B) for particular sales that would, if made, significantly advance United States Government interests in North Atlantic Treaty Organization standardization, standardization with the Armed Forces of Japan, Australia, the Republic of Korea, Israel, or New Zealand in furtherance of the mutual defense treaties between the United States and those countries, or foreign procurement in the United States under coproduction arrangements.

(B) The President may waive the charge or charges which would otherwise be considered appropriate under paragraph (1)(B) for a particular sale if the President determines that—

(i) imposition of the charge or charges likely would result in the loss of the sale; or

(ii) in the case of a sale of major defense equipment that is also being procured for the use of the Armed Forces, the waiver of the charge or charges would (through a resulting increase in the total quantity of the equipment purchased from the source of the equipment that causes a reduction in the unit cost of the equipment) result in a savings to the United States on the cost of the equipment procured for the use of the Armed Forces that substantially offsets the revenue foregone by reason of the waiver of the charge or charges.

(C) The President may waive, for particular sales of major defense equipment, any increase in a charge or charges previously considered appropriate under paragraph (1)(B) if the increase results from a correction of an estimate (reasonable when made) of the production quantity base that was used for calculating the charge or charges for purposes of such paragraph.

(3) **(A)** The President may waive the charges for administrative services that would otherwise be required by paragraph (1)(A) in connection with any sale to the Maintenance and Supply Agency of the North Atlantic Treaty Organization in support of—

(i) a weapon system partnership agreement; or

(ii) a NATO/SHAPE project.

(B) The Secretary of Defense may reimburse the fund established to carry out section 2792 (b) of this title in the amount of the charges waived under subparagraph (A) of this paragraph. Any such reimbursement may be made from any funds available to the Department of Defense.

(C) As used in this paragraph—

(i) the term “weapon system partnership agreement” means an agreement between two or more member countries of the Maintenance and Supply Agency of the North Atlantic Treaty Organization that—

(I) is entered into pursuant to the terms of the charter of that organization; and

(II) is for the common logistic support of a specific weapon system common to the participating countries; and

(ii) the term “NATO/SHAPE project” means a common-funded project supported by allocated credits from North Atlantic Treaty Organization bodies or by host nations with NATO Infrastructure funds.

(f) Public inspection of contracts

Any contracts entered into between the United States and a foreign country under the authority of this section or section 2762 of this title shall be prepared in a manner which will permit them to be made available for public inspection to the fullest extent possible consistent with the national security of the United States.

(g) North Atlantic Treaty Organization standardization agreements, similar agreements; reimbursement for costs; transmittal to Congress

The President may enter into North Atlantic Treaty Organization standardization agreements in carrying out section 814 of the Act of October 7, 1975 (Public Law 94–106), and may enter into similar agreements with countries which are major non-NATO allies, for the cooperative furnishing of training on bilateral or multilateral basis, if the financial principles of such agreements are based on reciprocity. Such agreements shall include reimbursement for all direct costs but may exclude reimbursement for indirect costs, administrative surcharges, and costs of billeting of trainees (except to the extent that members of the United States Armed Forces occupying comparable accommodations are charged for such accommodations by the United States). Each such agreement shall be transmitted promptly to the Speaker of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate.

(h) Reciprocal quality assurance, inspection, contract administrative services, and contract audit defense services; catalog data and services

(1) The President is authorized to provide (without charge) quality assurance, inspection, contract administration services, and contract audit defense services under this section—

(A) in connection with the placement or administration of any contract or subcontract for defense articles, defense services, or design and construction services entered into after October 29, 1979, by, or under this chapter on behalf of, a foreign government which is a member of the North Atlantic Treaty Organization or the Governments of Australia, New Zealand, Japan, the Republic of Korea, or Israel, if such government provides such services in accordance with an agreement on a reciprocal basis, without charge, to the United States Government; or

(B) in connection with the placement or administration of any contract or subcontract for defense articles, defense services, or design and construction services pursuant to the North Atlantic Treaty Organization Security Investment program in accordance with an agreement under which the foreign governments participating in such program provide such services, without charge, in connection with similar contracts or subcontracts.

(2) In carrying out the objectives of this section, the President is authorized to provide cataloging data and cataloging services, without charge, to the North Atlantic Treaty Organization, to any member government of that Organization, or to the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel if that Organization, member government, or the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel provides such data and services in accordance with an agreement on a reciprocal basis, without charge, to the United States Government.

(i) Sales affecting combat readiness of Armed Forces; statement to Congress; limitation on delivery

(1) Sales of defense articles and defense services which could have significant adverse effect on the combat readiness of the Armed Forces of the United States shall be kept to an absolute minimum. The President shall transmit to the Speaker of the House of Representatives and the Committees on Armed Services and Foreign Relations of the Senate on the same day a written statement giving a complete explanation with respect to any proposal to sell, under this section or under authority of subchapter II–B, any defense articles or defense services if such sale could have a significant adverse effect on the combat readiness of the Armed Forces of the United States. Each such statement shall be unclassified except to the extent that public disclosure of any item of information contained therein would be clearly detrimental to the security of the United States. Any necessarily classified information shall be confined to a supplemental report. Each such statement shall include an explanation relating to only one such proposal to sell and shall set forth—

- (A) the country or international organization to which the sale is proposed to be made;
- (B) the amount of the proposed sale;
- (C) a description of the defense article or service proposed to be sold;
- (D) a full description of the impact which the proposed sale will have on the Armed Forces of the United States; and
- (E) a justification for such proposed sale, including a certification that such sale is important to the security of the United States.

A certification described in subparagraph (E) shall take effect on the date on which such certification is transmitted and shall remain in effect for not to exceed one year.

(2) No delivery may be made under any sale which is required to be reported under paragraph (1) of this subsection unless the certification required to be transmitted by paragraph ¹ (E) of paragraph (1) is in effect.

(j) Repealed. Pub. L. 104–106, div. A, title I, § 112, Feb. 10, 1996, 110 Stat. 206

(k) Effect of sales of excess defense articles on national technology and industrial base

Before entering into the sale under this chapter of defense articles that are excess to the stocks of the Department of Defense, the President shall determine that the sale of such articles will not have an adverse impact on the national technology and industrial base and, particularly, will not reduce the opportunities of entities in the national technology and industrial base to sell new or used equipment to the countries to which such articles are transferred.

(l) Repair of defense articles

(1) In general

The President may acquire a repairable defense article from a foreign country or international organization if such defense article—

- (B) The total cost charged pursuant to subparagraph (A) shall be the same as that charged the United States Armed Forces for a similar repair and replacement transaction, plus an administrative surcharge in accordance with subsection (e)(1)(A) of this section.

(4) Relationship to certain other provisions of law

The authority of the President to accept the return of a repairable defense article as provided in subsection (a) of this section shall not be subject to chapter 137 of title 10 or any other provision of law relating to the conclusion of contracts.

§ 2762. Procurement for cash sales

(a) Authority of President; dependable undertaking by foreign country or international organization; interest rates

Except as otherwise provided in this section, the President may, without requirement for charge to any appropriation or contract authorization otherwise provided, enter into contracts for the procurement of defense articles or defense services for sale for United States dollars to any foreign country or international organization if such country or international organization provides the United States Government with a dependable undertaking

- (1) to pay the full amount of such contract which will assure the United States Government against any loss on the contract, and
- (2) to make funds available in such amounts and at such times as may be required to meet the payments required by the contract, and any damages and costs that may accrue from the cancellation of such contract, in advance of the time such payments, damages, or costs are due. Interest shall be charged on any net amount by which any such country or international organization is in arrears under all of its outstanding unliquidated dependable undertakings, considered collectively. The rate of interest charged shall be a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding short-term obligations of the United States as of the last day of the month preceding the net arrearage and shall be computed from the date of net arrearage.

(b) Issuance of letters of offer under emergency determination; availability of appropriations for payment

The President may, if he determines it to be in the national interest, issue letters of offer under this section which provide for billing upon delivery of the defense article or rendering of the defense service and for payment within one hundred and twenty days after the date of billing. This authority may be exercised, however, only if the President also determines that the emergency requirements of the purchaser for acquisition of such defense articles and services exceed the ready availability to the purchaser of funds sufficient to make payments on a dependable undertaking basis and submits both determinations to the Congress together with a special emergency request for authorization and appropriation of additional funds to finance such purchases under this chapter. Appropriations available to the Department of Defense may be used to meet the payments required by the contracts for the procurement of defense articles and defense services and shall be reimbursed by the amounts subsequently received from the country or international organization to whom articles or services are sold.

(c) Applicability of Renegotiation Act of 1951

The provisions of the Renegotiation Act of 1951 [50 App. U.S.C. 1211 et seq.] do not apply to procurement contracts heretofore or hereafter entered into under this section, section 2769 of this title, or predecessor provisions of law.

(d) Competitive pricing

(1) Procurement contracts made in implementation of sales under this section for defense articles and defense services wholly paid for from funds made available on a nonrepayable basis shall be priced on the same costing basis with regard to profit, overhead, independent research and development, bid and proposal, and other costing elements, as is applicable to procurements of like items purchased by the Department of Defense for its own use.

(2) Direct costs associated with meeting additional or unique requirements of the purchaser shall be allowable under contracts described in paragraph (1). Loadings applicable to such direct costs shall be permitted at the same rates applicable to procurement of like items purchased by the Department of Defense for its own use.

§ 2763. Credit sales

(a) Financing procurement of defense articles and services, and design and construction services

The President is authorized to finance the procurement of defense articles, defense services, and design and construction services by friendly foreign countries and international organizations, on such terms and conditions as he may determine consistent with the requirements of this section. Notwithstanding any other provision of law, and subject to the regular notification requirements of the Committees on Appropriations, the authority of this section may be used to provide financing to Israel and Egypt for the procurement by leasing (including leasing with an option to purchase) of defense articles from United States commercial suppliers, not including Major Defense Equipment (other than helicopters and other types of aircraft having possible civilian application), if the President determines that there are compelling foreign policy or national security reasons for those defense articles being provided by commercial lease rather than by government-to-government sale under this chapter.

(b) Repayment period

The President shall require repayment in United States dollars within a period not to exceed twelve years after the loan agreement with the country or international organization is signed on behalf of the

United States Government, unless a longer period is specifically authorized by statute for that country or international organization.

(c) Interest rate; definitions

- (1) The President shall charge interest under this section at such rate as he may determine, except that such rate may not be less than 5 percent per year.
- (2) For purposes of financing provided under this section—
 - (A) the term “concessional rate of interest” means any rate of interest which is less than market rates of interest; and
 - (B) the term “market rate of interest” means any rate of interest which is equal to or greater than the current average interest rate (as of the last day of the month preceding the financing of the procurement under this section) that the United States Government pays on outstanding marketable obligations of comparable maturity.

(d) Participations in credits

References in any law to credits extended under this section shall be deemed to include reference to participations in credits.

(e) Payments on account of prior credits or loans

- (1) Funds made available to carry out this section may be used by a foreign country to make payments of principal and interest which it owes to the United States Government on account of credits previously extended under this section or loans previously guaranteed under section 2764 of this title, subject to paragraph (2).
- (2) Funds made available to carry out this section may not be used for prepayment of principal or interest pursuant to the authority of paragraph (1).

(f) Audit of certain private firms

For each fiscal year, the Secretary of Defense, as requested by the Director of the Defense Security Assistance Agency, shall conduct audits on a nonreimbursable basis of private firms that have entered into contracts with foreign governments under which defense articles, defense services, or design and construction services are to be procured by such firms for such governments from financing under this section.

(g) Notification requirements with respect to cash flow financing

- (1) For each country and international organization that has been approved for cash flow financing under this section, any letter of offer and acceptance or other purchase agreement, or any amendment thereto, for a procurement of defense articles, defense services, or design and construction services in excess of \$100,000,000 that is to be financed in whole or in part with funds made available under this chapter or the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.] shall be submitted to the congressional committees specified in section 634A(a) of the Foreign Assistance Act of 1961 [22 U.S.C. 2394–1 (a)] in accordance with the procedures applicable to reprogramming notifications under that section.
- (2) For purposes of this subsection, the term “cash flow financing” has the meaning given such term in subsection (d) of section 2765 of this title.

(h) Limitation on use of funds for direct commercial contracts

Of the amounts made available for a fiscal year to carry out this section, not more than \$100,000,000 for such fiscal year may be made available for countries other than Israel and Egypt for the purpose of financing the procurement of defense articles, defense services, and design and construction services that are not sold by the United States Government under this chapter.

§ 2764. Guaranties

(a) Guaranty against political and credit risks of nonpayment

The President may guarantee any individual, corporation, partnership, or other juridical entity doing business in the United States (excluding United States Government agencies other than the Federal Financing Bank) against political and credit risks of nonpayment arising out of their financing of credit sales of defense articles, defense services, and design and construction services to friendly countries and international organizations. Fees shall be charged for such guaranties.

(b) Sale of promissory notes of friendly countries and international organizations; guaranty of payment

The President may sell to any individual, corporation, partnership, or other juridical entity (excluding United States Government agencies other than the Federal Financing Bank) promissory notes issued by friendly countries and international organizations as evidence of their obligations to make repayments to the United States on account of credit sales financed under section 2763 of this title, and may guarantee payment thereof.

(c) Guaranty Reserve Fund; payment of guaranties; guaranty reserve below prescribed amount

Funds obligated under this section before December 16, 1980, which constitute a single reserve for the payment of claims under guaranties issued under this section shall remain available for expenditure for the purposes of this section on and after that date. That single reserve may, on and after August 8, 1985, be referred to as the “Guaranty Reserve Fund”. Funds provided for necessary expenses to carry out the provisions of section 2763 of this title and of section 2311 of this title may be used to pay claims on the Guaranty Reserve Fund to the extent that funds in the Guaranty Reserve Fund are inadequate for that purpose. For purposes of any provision in this chapter or any other Act relating to a prohibition or limitation on the availability of funds under this chapter, whenever a guaranty is issued under this section, the principal amount of the loan so guaranteed shall be deemed to be funds made available for use under this chapter. Any guaranties issued hereunder shall be backed by the full faith and credit of the United States.

Amendments

1987—Subsec. (c). Pub. L. 100–71, which directed that the second par. be struck out and a new one-sentence par. be inserted, was executed to reflect the probable intent of Congress by substituting the new sentence for the third sentence which read as follows: “Funds authorized to be appropriated by section 2771 (a) of this title to carry out this chapter which are allocated for credits at market rates of interest may be used to pay claims under such guarantees to the extent funds in the Guaranty Reserve Fund are inadequate for that purpose.”

1985—Subsec. (c). Pub. L. 99–83 inserted provisions authorizing the single reserve to be termed the “Guaranty Reserve Fund”, and substituted provisions relating to payment of claims under guarantees, for provisions relating to report to Congress respecting any payment of claims reducing the single reserve.

Subsec. (c). Pub. L. 96–533, § 104(a), substituted provisions making funds obligated before Dec. 16, 1980 available for expenditure after such date for payment of guaranteed claims, requiring the President to report to Congress the reduction of the single reserve below \$750,000,000 with recommendation for an appropriations authorization of additional funds and deeming the principal amount of a guaranteed loan to be funds made available for use under this chapter for purposes of any limitation on availability of funds for prior provisions for obligation of available funds in an amount equal to 10 per centum of principal amount of contractual liability related to a guaranty under this section, making such funds a single reserve for payment of guaranteed claims, and providing for transfer of any funds deobligated during any current fiscal year to the general fund of the Treasury.

1974—Subsecs. (a), (b). Pub. L. 93–559, § 45(a)(3), inserted “other than the Federal Financing Bank” in parenthetical text.

§ 2766. Security assistance surveys

(a) Statement of findings and policy

The Congress finds that security assistance surveys prepared by the United States for foreign countries have had a significant impact on subsequent military procurement decisions of those countries. It is the policy of the United States that the results of security assistance surveys conducted by the United States clearly do not represent a commitment by the United States to provide any military equipment to any foreign country. Further, recommendations in such surveys should be consistent with the arms export control policy provided for in this chapter.

(b) Reporting requirements

§ 2767. Authority of President to enter into cooperative projects with friendly foreign countries

(a) Authority of President

The President may enter into a cooperative project agreement with the North Atlantic Treaty Organization or with one or more member countries of that Organization.

(b) Definitions

As used in this section—

(1) the term “cooperative project”, in the case of an agreement with the North Atlantic Treaty Organization or with one or more member countries of that Organization, means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to further the objectives of standardization, rationalization, and interoperability of the armed forces of North Atlantic Treaty Organization member countries and which provides—

(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

(B) for concurrent production in the United States and in another member country of a defense article jointly developed in accordance with subparagraph (A); or

(C) for procurement by the United States of a defense article or defense service from another member country or for procurement by the United States of munitions from the North Atlantic Treaty Organization or a subsidiary of such organization;

(2) the term “cooperative project”, in the case of an agreement entered into under subsection (j) of this section, means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to enhance the ongoing multinational effort of the participants to improve the conventional defense capabilities of the participants and which provides—

(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

(B) for concurrent production in the United States and in the country of another participant of a defense article jointly developed in accordance with subparagraph (A); or

(C) for procurement by the United States of a defense article or defense service from another participant to the agreement; and

(3) the term “other participant” means a participant in a cooperative project other than the United States.

(c) Agreements for equitable share of costs; limiting nature of agreements

Each agreement for a cooperative project shall provide that the United States and each of the other participants will contribute to the cooperative project its equitable share of the full cost of such cooperative project and will receive an equitable share of the results of such cooperative project. The full costs of such cooperative project shall include overhead costs, administrative costs, and costs of claims. The United States and the other participants may contribute their equitable shares of the full cost of such cooperative project in funds or in defense articles or defense services needed for such cooperative project. Military assistance and financing received from the United States Government may not be used by any other participant to provide its share of the cost of such cooperative project. Such agreements shall provide that no requirement shall be imposed by a participant for worksharing or other industrial or commercial compensation in connection with such agreement that is not in accordance with such agreement.

(d) Contractual or other obligation; preconditions

The President may enter into contracts or incur other obligations for a cooperative project on behalf of the other participants, without charge to any appropriation or contract authorization, if each of the other participants in the cooperative project agrees

(1) to pay its equitable share of the contract or other obligation, and

(2) to make such funds available in such amounts and at such times as may be required by the contract or other obligation and to pay any damages and costs that may accrue from the performance of or cancellation of the contract or other obligation in advance of the time such payments, damages, or costs are due.

(e) Waiver of charges; administrative surcharges

(1) For those cooperative projects entered into on or after the effective date¹ of the International Security and Development Cooperation Act of 1985, the President may reduce or waive the charge or charges which would otherwise be considered appropriate under section 2761 (e) of this title in connection with sales under sections 2761 and 2762 of this title when such sales are made as part of such cooperative project, if the other participants agree to reduce or waive corresponding charges.

(2) Notwithstanding provisions of section 2761 (e)(1)(A) and section 2792 (b) of this title, administrative surcharges shall not be increased on other sales made under this chapter in order to compensate for reductions or waivers of such surcharges under this section. Funds received pursuant to such other sales shall not be available to reimburse the costs incurred by the United States Government for which reduction or waiver is approved by the President under this section.

(f) Transmission of numbered certification to Congress respecting proposed agreement; contents

Not less than 30 days before a cooperative project agreement is signed on behalf of the United States, the President shall transmit to the Speaker of the House of Representatives, the chairman of the Committee on Foreign Relations of the Senate, and the chairman of the Committee on Armed Services of the Senate, a numbered certification with respect to such proposed agreement, setting forth—

- (4) an estimate of the dollar value of the funds to be contributed by the United States and each of the other participants on behalf of such cooperative project;
- (5) a description of the defense articles and defense services expected to be contributed by the United States and each of the other participants on behalf of such cooperative project;
- (6) a statement of the foreign policy and national security benefits anticipated to be derived from such cooperative project; and
- (7) to the extent known, whether it is likely that prime contracts will be awarded to particular prime contractors or that subcontracts will be awarded to particular subcontractors to comply with the proposed agreement.

A certification transmitted pursuant to this subsection shall be unclassified, except that the information specified in clause (ii) and the details of the description specified in clause (iii) of subsection (a) of this section may be classified if the public disclosure thereof would be clearly detrimental to the security of the United States, in which case the information shall be accompanied by a description of the damage to the national security that could be expected to result from public disclosure of the information. The letter of offer shall not be issued, with respect to a proposed sale to the North Atlantic Treaty Organization, any member country of such Organization, Japan, Australia, the Republic of Korea, Israel, or New Zealand, if the Congress, within fifteen calendar days after receiving such certification, or with respect to a proposed sale to any other country or organization, if the Congress within thirty calendar days after receiving such certification, enacts a joint resolution prohibiting the proposed sale, unless the President states in his certification that an emergency exists which requires such sale in the national security interests of the United States. If the President states in his certification that an emergency exists which requires the proposed sale in the national security interest of the United States, thus waiving the congressional review requirements of this subsection, he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the letter of offer and a discussion of the national security interests involved.

(2) Any such joint resolution shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976, except that for purposes of consideration of any joint resolution with respect to the North Atlantic Treaty Organization, any member country of such Organization, Japan, Australia, the Republic of Korea, Israel, or New Zealand, it shall be in order in the Senate to move to discharge a committee to which such joint resolution was referred if such committee has not reported such joint resolution at the end of five calendar days after its introduction.

(3) For the purpose of expediting the consideration and enactment of joint resolutions under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(4) In addition to the other information required to be contained in a certification submitted to the Congress under this subsection, each such certification shall cite any quarterly report submitted pursuant to section 2768¹ of this title which listed a price and availability estimate, or a request for the issuance of a letter of offer, which was a basis for the proposed sale which is the subject of such certification.

(5) (A) If, before the delivery of any major defense article or major defense equipment, or the furnishing of any defense service or design and construction service, sold pursuant to a letter of offer described in paragraph (1), the sensitivity of technology or the capability of the article, equipment, or service is enhanced or upgraded from the level of sensitivity or capability described in the numbered certification with respect to an offer to sell such article, equipment, or service, then, at least 45 days before the delivery of such article or equipment or the furnishing of such service, the President shall prepare and transmit to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report—

(i) describing the manner in which the technology or capability has been enhanced or upgraded and describing the significance of such enhancement or upgrade; and

(ii) setting forth a detailed justification for such enhancement or upgrade.

(B) The provisions of subparagraph (A) apply to an article or equipment delivered, or a service furnished, within ten years after the transmittal to the Congress of a numbered certification with respect to the sale of such article, equipment, or service.

(C) Subject to paragraph (6), if the enhancement or upgrade in the sensitivity of technology or the capability of major defense equipment, defense articles, defense services, or design and construction services described in a numbered certification submitted under this subsection costs \$14,000,000 or more in the case of any major defense equipment, \$50,000,000 or more in the case of defense articles or defense services, or \$200,000,000 or more in the case of design or construction services, then the President shall submit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a new numbered certification which relates to such enhancement or upgrade and which shall be considered for purposes of this subsection as if it were a separate letter of offer to sell defense equipment, articles, or services, subject to all of the requirements, restrictions, and conditions set forth in this subsection. For purposes of this subparagraph, references in this subsection to sales shall be deemed to be references to enhancements or upgrades in the sensitivity of technology or the capability of major defense equipment, articles, or services, as the case may be.

(D) For the purposes of subparagraph (A), the term “major defense article” shall be construed to include electronic devices, which if upgraded, would enhance the mission capability of a weapons system.

(6) The limitation in paragraph (1) and the requirement in paragraph (5)(C) shall apply in the case of a letter of offer to sell to a member country of the North Atlantic Treaty Organization (NATO) or Australia, Japan, the Republic of Korea, Israel, or New Zealand that does not authorize a new sales territory that includes any country other than such countries only if the letter of offer involves—

(A) the sale of major defense equipment under this chapter for, or the enhancement or upgrade of major defense equipment at a cost of, \$25,000,000 or more, as the case may be; and

(B) the sale of defense articles or services for, or the enhancement or upgrade of defense articles or services at a cost of, \$100,000,000 or more, as the case may be; or

(C) the sale of design and construction services for, or the enhancement or upgrade of design and construction services at a cost of, \$300,000,000 or more, as the case may be.

(c) Application for export license; submission of numbered Presidential certification and statement to Congress; contents; emergency circumstances; joint resolution; exception; notification of upgrades

(1) Subject to paragraph (5), in the case of an application by a person (other than with regard to a sale under section 2761 or section 2762 of this title) for a license for the export of any major defense equipment sold under a contract in the amount of \$14,000,000 or more or of defense articles or defense services sold under a contract in the amount of \$50,000,000 or more (or, in the case of a defense article that is a firearm controlled under category I of the United States Munitions List, \$1,000,000 or more), before issuing such license the President shall transmit to the Speaker of the House of Representatives and to the chairman of the Committee on Foreign Relations of the Senate an unclassified numbered certification with respect to such application specifying

(A) the foreign country or international organization to which such export will be made,

(B) the dollar amount of the items to be exported, and

(C) a description of the items to be exported. Each such numbered certification shall also contain an item indicating whether any offset agreement is proposed to be entered into in connection with such export and a description of any such offset agreement. In addition, the President shall, upon the request of such committee or the Committee on Foreign Affairs of the House of Representatives, transmit promptly to both such committees a statement setting forth, to the extent specified in such request, a description of the capabilities of the items to be exported, an estimate of the total number of United States personnel expected to be needed in the foreign country concerned in connection with the items to be exported and an analysis of the arms control impact pertinent to such application, prepared in consultation with the Secretary of Defense and a description from the person who has submitted the license

application of any offset agreement proposed to be entered into in connection with such export (if known on the date of transmittal of such statement). In a case in which such articles or services are listed on the Missile Technology Control Regime Annex and are intended to support the design, development, or production of a Category I space launch vehicle system (as defined in section 2797c of this title), such report shall include a description of the proposed export and rationale for approving such export, including the consistency of such export with United States missile nonproliferation policy. A certification transmitted pursuant to this subsection shall be unclassified, except that the information specified in clause (B) and the details of the description specified in clause (C) may be classified if the public disclosure thereof would be clearly detrimental to the security of the United States, in which case the information shall be accompanied by a description of the damage to the national security that could be expected to result from public disclosure of the information.

(2) Unless the President states in his certification that an emergency exists which requires the proposed export in the national security interests of the United States, a license for export described in paragraph (1)—

(A) in the case of a license for an export to the North Atlantic Treaty Organization, any member country of that Organization or Australia, Japan, the Republic of Korea, Israel, or New Zealand, shall not be issued until at least 15 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 15-day period, enacts a joint resolution prohibiting the proposed export;

(B) in the case of a license for an export of a commercial communications satellite for launch from, and by nationals of, the Russian Federation, Ukraine, or Kazakhstan, shall not be issued until at least 15 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 15-day period, enacts a joint resolution prohibiting the proposed export; and

(C) in the case of any other license, shall not be issued until at least 30 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 30-day period, enacts a joint resolution prohibiting the proposed export.

If the President states in his certification that an emergency exists which requires the proposed export in the national security interests of the United States, thus waiving the requirements of subparagraphs (A) and (B) of this paragraph, he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the export license and a discussion of the national security interests involved.

(3) (A) Any joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(B) For the purpose of expediting the consideration and enactment of joint resolutions under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(4) The provisions of subsection (b)(5) of this section shall apply to any equipment, article, or service for which a numbered certification has been transmitted to Congress pursuant to paragraph (1) in the same manner and to the same extent as that subsection applies to any equipment, article, or service for which a numbered certification has been transmitted to Congress pursuant to subsection (b)(1) of this section. For purposes of such application, any reference in subsection (b)(5) of this section to “a letter of offer” or “an offer” shall be deemed to be a reference to “a contract”.

(5) In the case of an application by a person (other than with regard to a sale under section 2761 or 2762 of this title) for a license for the export to a member country of the North Atlantic Treaty Organization (NATO) or Australia, Japan, the Republic of Korea, Israel, or New Zealand that

does not authorize a new sales territory that includes any country other than such countries, the limitations on the issuance of the license set forth in paragraph (1) shall apply only if the license is for export of—

- (A) major defense equipment sold under a contract in the amount of \$25,000,000 or more; or
- (B) defense articles or defense services sold under a contract in the amount of \$100,000,000 or more.

(6) The President shall notify the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate at least 15 days prior to an export pursuant to a treaty referred to in section 2778 (j)(1)(C)(i) of this title to which the provisions of paragraph (1) of this subsection would apply absent an exemption granted under section 2778 (j)(1) of this title, for which purpose such notification shall contain information comparable to that specified in paragraph (1) of this subsection.

(d) Commercial technical assistance or manufacturing licensing agreements with non-North Atlantic Treaty Organization member countries; submission of Presidential certification; contents

(1) In the case of an approval under section 2778 of this title of a United States commercial technical assistance or manufacturing licensing agreement which involves the manufacture abroad of any item of significant combat equipment on the United States Munitions List, before such approval is given, the President shall submit a certification with respect to such proposed commercial agreement in a manner similar to the certification required under subsection (c)(1) of this section containing comparable information, except that the last sentence of such subsection shall not apply to certifications submitted pursuant to this subsection.

(2) A certification under this subsection shall be submitted—

- (A) at least 15 days before approval is given in the case of an agreement for or in a country which is a member of the North Atlantic Treaty Organization or Australia, Japan, the Republic of Korea, Israel, or New Zealand; and
- (B) at least 30 days before approval is given in the case of an agreement for or in any other country;

unless the President states in his certification that an emergency exists which requires the immediate approval of the agreement in the national security interests of the United States.

(3) If the President states in his certification that an emergency exists which requires the immediate approval of the agreement in the national security interests of the United States, thus waiving the requirements of paragraph (4), he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate approval of the agreement and a discussion of the national security interests involved.

(4) Approval for an agreement subject to paragraph (1) may not be given under section 2778 of this title if the Congress, within the 15-day or 30-day period specified in paragraph (2)(A) or (B), as the case may be, enacts a joint resolution prohibiting such approval.

(5) (A) Any joint resolution under paragraph (4) shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(B) For the purpose of expediting the consideration and enactment of joint resolutions under paragraph (4), a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(6) The President shall notify the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate at least 15 days prior to an export pursuant to a treaty referred to in section 2778 (j)(1)(C)(i) of this title to which the provisions of paragraph (1) of this subsection would apply absent an exemption granted under section 2778 (j)(1) of this

title, for which purpose such notification shall contain information comparable to that specified in paragraph (1) of this subsection.

§ 2778. Control of arms exports and imports

(a) Presidential control of exports and imports of defense articles and services, guidance of policy, etc.; designation of United States Munitions List; issuance of export licenses; negotiations information

(1) In furtherance of world peace and the security and foreign policy of the United States, the President is authorized to control the import and the export of defense articles and defense services and to provide foreign policy guidance to persons of the United States involved in the export and import of such articles and services. The President is authorized to designate those items which shall be considered as defense articles and defense services for the purposes of this section and to promulgate regulations for the import and export of such articles and services. The items so designated shall constitute the United States Munitions List.

(2) Decisions on issuing export licenses under this section shall take into account whether the export of an article would contribute to an arms race, aid in the development of weapons of mass destruction, support international terrorism, increase the possibility of outbreak or escalation of conflict, or prejudice the development of bilateral or multilateral arms control or nonproliferation agreements or other arrangements.

(3) In exercising the authorities conferred by this section, the President may require that any defense article or defense service be sold under this chapter as a condition of its eligibility for export, and may require that persons engaged in the negotiation for the export of defense articles and services keep the President fully and currently informed of the progress and future prospects of such negotiations.

(b) Registration and licensing requirements for manufacturers, exporters, or importers of designated defense articles and defense services

(1) (A) (i) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in an official capacity) who engages in the business of manufacturing, exporting, or importing any defense articles or defense services designated by the President under subsection (a)(1) of this section shall

register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations. Such regulations shall prohibit the return to the United States for sale in the United States (other than for the Armed Forces of the United States and its allies or for any State or local law enforcement agency) of any military firearms or ammunition of United States manufacture furnished to foreign governments by the United States under this chapter or any other foreign assistance or sales program of the United States, whether or not enhanced in value or improved in condition in a foreign country. This prohibition shall not extend to similar firearms that have been so substantially transformed as to become, in effect, articles of foreign manufacture.

(ii) (I) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in official capacity) who engages in the business of brokering activities with respect to the manufacture, export, import, or transfer of any defense article or defense service designated by the President under subsection (a)(1) of this section, or in the business of brokering activities with respect to the manufacture, export, import, or transfer of any foreign defense article or defense service (as defined in subclause (IV)), shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations.

(II) Such brokering activities shall include the financing, transportation, freight forwarding, or taking of any other action that facilitates the manufacture, export, or import of a defense article or defense service.

(III) No person may engage in the business of brokering activities described in subclause (I) without a license, issued in accordance with this chapter, except that no license shall be required for such activities undertaken by or for an agency of the United States Government—

(aa) for use by an agency of the United States Government; or

(bb) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(IV) For purposes of this clause, the term “foreign defense article or defense service” includes any non-United States defense article or defense service of a nature described on the United States Munitions List regardless of whether such article or service is of United States origin or whether such article or service contains United States origin components.

(B) ¹ The prohibition under such regulations required by the second sentence of subparagraph (A) shall not extend to any military firearms (or ammunition, components, parts, accessories, and attachments for such firearms) of United States manufacture furnished to any foreign government by the United States under this chapter or any other foreign assistance or sales program of the United States if—

(i) such firearms are among those firearms that the Secretary of the Treasury is, or was at any time, required to authorize the importation of by reason of the provisions of section 925 (e) of title 18 (including the requirement for the listing of such firearms as curios or relics under section 921(a)(13) of that title); and

(ii) such foreign government certifies to the United States Government that such firearms are owned by such foreign government.

(B) ¹ A copy of each registration made under this paragraph shall be transmitted to the Secretary of the Treasury for review regarding law enforcement concerns. The Secretary shall report to the President regarding such concerns as necessary.

(2) Except as otherwise specifically provided in regulations issued under subsection (a)(1) of this section, no defense articles or defense services designated by the President under subsection (a)(1) of this section may be exported or imported without a license for such export or import, issued in accordance with this chapter and regulations issued under this chapter, except that no license shall be required for exports or imports made by or for an agency of the United States Government

(A) for official use by a department or agency of the United States Government, or

(B) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(3) (A) For each of the fiscal years 1988 and 1989, \$250,000 of registration fees collected pursuant to paragraph (1) shall be credited to a Department of State account, to be available without fiscal year limitation. Fees credited to that account shall be available only for the payment of expenses incurred for—

(i) contract personnel to assist in the evaluation of munitions control license applications, reduce processing time for license applications, and improve monitoring of compliance with the terms of licenses; and

(ii) the automation of munitions control functions and the processing of munitions control license applications, including the development, procurement, and utilization of computer equipment and related software.

(B) The authority of this paragraph may be exercised only to such extent or in such amounts as are provided in advance in appropriation Acts.

(c) Criminal violations; punishment

Any person who willfully violates any provision of this section, section 2779 of this title, a treaty referred to in subsection (j)(1)(C)(i), or any rule or regulation issued under this section or section 2779 of this title, including any rule or regulation issued to implement or enforce a treaty referred to in subsection (j)(1)(C)(i) or an implementing arrangement pursuant to such treaty, or who willfully, in a registration or license application or required report, makes any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading, shall upon conviction be fined for each violation not more than \$1,000,000 or imprisoned not more than 20 years, or both.

(d) Repealed. Pub. L. 96–70, title III, § 3303(a)(4), Sept. 27, 1979, 93 Stat. 499

(e) Enforcement powers of President

In carrying out functions under this section with respect to the export of defense articles and defense services, including defense articles and defense services exported or imported pursuant to a treaty referred to in subsection (j)(1)(C)(i), the President is authorized to exercise the same powers concerning violations and enforcement which are conferred upon departments, agencies and officials by subsections (c), (d), (e), and (g) of section 11 of the Export Administration Act of 1979 [50 App. U.S.C. 2410 (c), (d), (e), and (g)], and by subsections (a) and (c) of section 12 of such Act [50 App. U.S.C. 2411 (a) and (c)], subject to the same terms and conditions as are applicable to such powers under such Act [50 App. U.S.C. 2401 et seq.], except that section 11(c)(2)(B) of such Act shall not apply, and instead, as prescribed in regulations issued under this section, the Secretary of State may assess civil penalties for violations of this chapter and regulations prescribed thereunder and further may commence a civil action to recover such civil penalties, and except further that the names of the countries and the types and quantities of defense articles for which licenses are issued under this section shall not be withheld from public disclosure unless the President determines that the release of such information would be contrary to the national interest. Nothing in this subsection shall be construed as authorizing the withholding of information from the Congress. Notwithstanding section 11(c) of the Export Administration Act of 1979, the civil penalty for each violation involving controls imposed on the export of defense articles and defense services under this section may not exceed \$500,000.

(f) Periodic review of items on Munitions List; exemptions

(1) The President shall periodically review the items on the United States Munitions List to determine what items, if any, no longer warrant export controls under this section. The results of such reviews shall be reported to the Speaker of the House of Representatives and to the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate. The President may not remove any item from the Munitions List until 30 days after the date on which the President has provided notice of the proposed removal to the Committee on International Relations of the House of Representatives and to the Committee on Foreign Relations of the Senate in accordance with the procedures applicable to reprogramming notifications under section 2394–1 (a) of this title. Such notice shall describe the nature of any controls to be imposed on that item under any other provision of law.

(2) The President may not authorize an exemption for a foreign country from the licensing requirements of this chapter for the export of defense items under subsection (j) of this section or any other provision of this chapter until 30 days after the date on which the President has transmitted to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate a notification that includes—

(A) a description of the scope of the exemption, including a detailed summary of the defense articles, defense services, and related technical data covered by the exemption; and

(B) a determination by the Attorney General that the bilateral agreement concluded under subsection (j) of this section requires the compilation and maintenance of sufficient documentation relating to the export of United States defense articles, defense services, and related technical data to facilitate law enforcement efforts to detect, prevent, and prosecute criminal violations of any provision of this chapter, including the efforts on the part of countries and factions engaged in international terrorism to illicitly acquire sophisticated United States defense items.

(3) Paragraph (2) shall not apply with respect to an exemption for Canada from the licensing requirements of this chapter for the export of defense items.

(4) Paragraph (2) shall not apply with respect to an exemption under subsection (j)(1) to give effect to a treaty referred to in subsection (j)(1)(C)(i) (and any implementing arrangements to such treaty), provided that the President promulgates regulations to implement and enforce such treaty under this section and section 2779 of this title.

Landmine Export Moratorium

Pub. L. 102–484, div. A, title XIII, § 1365, Oct. 23, 1992, 106 Stat. 2561, as amended by Pub. L. 103–160, div. A, title XI, § 1182(c)(3), title XIV, § 1423(c), Nov. 30, 1993, 107 Stat. 1772, 1832; Pub. L. 104–107, title V, § 558, Feb. 12, 1996, 110 Stat. 743; Pub. L. 104–208, div. A, title I, § 101(c) [title V, § 556], Sept. 30, 1996, 110 Stat. 3009–121, 3009–161; Pub. L. 106–113, div. B, § 1000(a)(2) [title V, § 553], Nov. 29, 1999, 113 Stat. 1535, 1501A–99; Pub. L. 107–115, title V, § 548, Jan. 10, 2002, 115 Stat. 2156; Pub. L. 110–161, div. J, title VI, § 634(j), Dec. 26, 2007, 121 Stat. 2329, provided that:

“(a) Findings.—The Congress makes the following findings:

“(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

“(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

“(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at \$980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at \$841,145.

“(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

“(5) When it signed the Convention, the United States stated: ‘We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.’

“(6) The President should submit the Convention to the Senate for its advice and consent to ratification, and the President should actively negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. Such an agreement or modification would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

“(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

“(b) Statement of Policy.—(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer, or export, and further limiting the use, production, possession, and deployment of anti-personnel landmines.

“(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer, or export of anti-personnel landmines.

“(c) Moratorium on Transfers of Anti-Personnel Landmines Abroad.—During the 22 year period beginning on October 23, 1992—

“(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act [22 U.S.C. 2751 et seq.], with respect to any anti-personnel landmine; and

“(2) no assistance may be provided under the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], with respect to the provision of any anti-personnel landmine.

“(d) Definition.—For purposes of this section, the term ‘anti-personnel landmine’ means—

“(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

“(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

NB: This unofficial compilation of the U.S. Code is current as of Jan. 4, 2012 (see <http://www.law.cornell.edu/uscode/uscprint.html>).

“(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.”

[Section 634(j) of title VI of div. J of Pub. L. 110–161, which directed the amendment of section 1365(c) of Pub. L. 102–484, set out above, by substituting “During the 22 year period beginning on October 23, 1992” for “During the 16 year period beginning on October 23, 1992” before the period at the end, was executed by making the substitution in the introductory provisions, to reflect the probable intent of Congress.]

Arms Transfers Restraint Policy for Middle East and Persian Gulf Region

Pub. L. 102–138, title IV, Oct. 28, 1991, 105 Stat. 718, provided that:

“SEC. 401. FINDINGS.

“The Congress finds that—

“(1) nations in the Middle East and Persian Gulf region, which accounted for over 40 percent of the international trade in weapons and related equipment and services during the decade of the 1980’s, are the principal market for the worldwide arms trade;

“(2) regional instability, large financial resources, and the desire of arms-supplying governments to gain influence in the Middle East and Persian Gulf region, contribute to a regional arms race;

“(3) the continued proliferation of weapons and related equipment and services contribute further to a regional arms race in the Middle East and Persian Gulf region that is politically, economically, and militarily destabilizing;

“(4) the continued proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons, poses an urgent threat to security and stability in the Middle East and Persian Gulf region;

“(5) the continued proliferation of ballistic missile technologies and ballistic missile systems that are capable of delivering conventional, nuclear, biological, or chemical warheads undermines security and stability in the Middle East and Persian Gulf region;

“(6) future security and stability in the Middle East and Persian Gulf region would be enhanced by establishing a stable military balance among regional powers by restraining and reducing both conventional and unconventional weapons;

“(7) security, stability, peace, and prosperity in the Middle East and Persian Gulf region are important to the welfare of the international economy and to the national security interests of the United States;

“(8) future security and stability in the Middle East and Persian Gulf region would be enhanced through the development of a multilateral arms transfer and control regime similar to those of the Nuclear Suppliers’ Group, the Missile Technology Control Regime, and the Australia Chemical Weapons Suppliers Group;

“(9) such a regime should be developed, implemented, and agreed to through multilateral negotiations, including under the auspices of the 5 permanent members of the United Nations Security Council;

“(10) confidence-building arms control measures such as the establishment of a centralized arms trade registry at the United Nations, greater multinational transparency on the transfer of defense articles and services prior to agreement or transfer, cooperative verification measures, advanced notification of military exercises, information exchanges, on-site inspections, and creation of a Middle East and Persian Gulf Conflict Prevention Center, are important to implement an effective multilateral arms transfer and control regime;

“(11) as an interim step, the United States should consider introducing, during the ongoing negotiations on confidence security-building measures at the Conference on Security and Cooperation in Europe (CSCE) [now the Organization for Security and Cooperation in Europe], a proposal regarding the international exchange of information, on an annual basis, on the sale and transfer of major military equipment, particularly to the Middle East and Persian Gulf region; and

“(12) such a regime should be applied to other regions with the ultimate objective of achieving an effective global arms transfer and control regime, implemented and enforced through the United Nations Security Council, that—

“(A) includes a linkage of humanitarian and developmental objectives with security objectives in Third World countries, particularly the poorest of the poor countries; and

“(B) encourages countries selling military equipment and services to consider the following factors before making conventional arms sales: the security needs of the purchasing countries, the level of defense expenditures by the purchasing countries, and the level of indigenous production of the purchasing countries.

TITLE 22 - Section 2778 - Control of arms exports and imports

NB: This unofficial compilation of the U.S. Code is current as of Jan. 4, 2012 (see <http://www.law.cornell.edu/uscode/uscpri.html>).

“SEC. 402. MULTILATERAL ARMS TRANSFER AND CONTROL REGIME.

“(a) Implementation of the Regime.—

“(1) Continuing negotiations.—The President shall continue negotiations among the 5 permanent members of the United Nations Security Council and commit the United States to a multilateral arms transfer and control regime for the Middle East and Persian Gulf region.

“(2) Proposing a temporary moratorium during negotiations.—In the context of these negotiations, the President should propose to the 5 permanent members of the United Nations Security Council a temporary moratorium on the sale and transfer of major military equipment to nations in the Middle East and Persian Gulf region until such time as the 5 permanent members agree to a multilateral arms transfer and control regime.

“(b) Purpose of the Regime.—The purpose of the multilateral arms transfer and control regime should be—

“(1) to slow and limit the proliferation of conventional weapons in the Middle East and Persian Gulf region with the aim of preventing destabilizing transfers by—

“(A) controlling the transfer of conventional major military equipment;

“(B) achieving transparency among arms suppliers nations through advanced notification of agreement to, or transfer of, conventional major military equipment; and

“(C) developing and adopting common and comprehensive control guidelines on the sale and transfer of conventional major military equipment to the region;

“(2) to halt the proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons and the technologies necessary to produce or assemble such weapons;

“(3) to limit and halt the proliferation of ballistic missile technologies and ballistic missile systems that are capable of delivering conventional, nuclear, biological, or chemical warheads;

“(4) to maintain the military balance in the Middle East and Persian Gulf region through reductions of conventional weapons and the elimination of unconventional weapons; and

“(5) to promote regional arms control in the Middle East and Persian Gulf region.

“(c) Achieving the Purposes of the Regime.—

“(1) Controlling proliferation of conventional weapons.—In order to achieve the purposes described in subsection (b)(1), the United States should pursue the development of a multilateral arms transfer and control regime which includes—

“(A) greater information-sharing practices among supplier nations regarding potential arms sales to all nations of the Middle East and Persian Gulf region;

“(B) applying, for the control of conventional major military equipment, procedures already developed by the International Atomic Energy Agency, the Multilateral Coordinating Committee on Export Controls (COCOM), and the Missile Technology Control Regime (MTCR); and

“(C) other strict controls on the proliferation of conventional major military equipment to the Middle East and Persian Gulf region.

“(2) Halting proliferation of unconventional weapons.—In order to achieve the purposes described in subsections (b)(2) and (3), the United States should build on existing and future agreements among supplier nations by pursuing the development of a multilateral arms transfer and control regime which includes—

“(A) limitations and controls contained in the Enhanced Proliferation Control Initiative;

“(B) limitations and controls contained in the Missile Technology Control Regime (MTCR);

“(C) guidelines followed by the Australia Group on chemical and biological arms proliferation;

“(D) guidelines adopted by the Nuclear Suppliers Group (the London Group); and

“(E) other appropriate controls that serve to halt the flow of unconditional [unconventional] weapons to the Middle East and Persian Gulf region.

“(3) Promotion of regional arms control agreements.—In order to achieve the purposes described in subsections (b)(4) and (5), the United States should pursue with nations in the Middle East and Persian Gulf region—

“(A) the maintenance of the military balance within the region, while eliminating nuclear, biological, and chemical weapons and associated delivery systems, and ballistic missiles;

“(C) other useful arms control measures.

§ 2780. Transactions with countries supporting acts of international terrorism

(a) Prohibited transactions by United States Government

The following transactions by the United States Government are prohibited:

(1) Exporting or otherwise providing (by sale, lease or loan, grant, or other means), directly or indirectly, any munitions item to a country described in subsection (d) of this section under the authority of this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or any other law (except as provided in subsection (h) of this section). In implementing this paragraph, the United States Government—

(A) shall suspend delivery to such country of any such item pursuant to any such transaction which has not been completed at the time the Secretary of State makes the determination described in subsection (d) of this section, and

(B) shall terminate any lease or loan to such country of any such item which is in effect at the time the Secretary of State makes that determination.

(2) Providing credits, guarantees, or other financial assistance under the authority of this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or any other law (except as provided in subsection (h) of this section), with respect to the acquisition of any munitions item by a country described in subsection (d) of this section. In implementing this paragraph, the United States Government shall suspend expenditures pursuant to any such assistance obligated before the Secretary of State makes the determination described in subsection (d) of this section. The President may authorize expenditures otherwise required to be suspended pursuant to the preceding sentence if the President has determined, and reported to the Congress, that suspension of those expenditures causes undue financial hardship to a supplier, shipper, or similar person and allowing the expenditure will not result in any munitions item being made available for use by such country.

(3) Consenting under section 2753 (a) of this title, under section 505(a) of the Foreign Assistance Act of 1961 [22 U.S.C. 2314 (a)], under the regulations issued to carry out section 2778 of this title, or under any other law (except as provided in subsection (h) of this section), to any transfer of any munitions item to a country described in subsection (d) of this section. In implementing this paragraph, the United States Government shall withdraw any such consent which is in effect at the time the Secretary of State makes the determination described in subsection (d) of this section, except that this sentence does not apply with respect to any item that has already been transferred to such country.

(4) Providing any license or other approval under section 2778 of this title for any export or other transfer (including by means of a technical assistance agreement, manufacturing licensing agreement, or coproduction agreement) of any munitions item to a country described in subsection (d) of this section. In implementing this paragraph, the United States Government shall suspend any such license or other approval which is in effect at the time the Secretary of State makes the

determination described in subsection (d) of this section, except that this sentence does not apply with respect to any item that has already been exported or otherwise transferred to such country.

(5) Otherwise facilitating the acquisition of any munitions item by a country described in subsection (d) of this section. This paragraph applies with respect to activities undertaken—

(A) by any department, agency, or other instrumentality of the Government,

(B) by any officer or employee of the Government (including members of the United States Armed Forces), or

(C) by any other person at the request or on behalf of the Government.

The Secretary of State may waive the requirements of the second sentence of paragraph (1), the second sentence of paragraph (3), and the second sentence of paragraph (4) to the extent that the Secretary determines, after consultation with the Congress, that unusual and compelling circumstances require that the United States Government not take the actions specified in that sentence.

(b) Prohibited transactions by United States persons

(1) In general

A United States person may not take any of the following actions:

(A) Exporting any munitions item to any country described in subsection (d) of this section.

(B) Selling, leasing, loaning, granting, or otherwise providing any munitions item to any country described in subsection (d) of this section.

(C) Selling, leasing, loaning, granting, or otherwise providing any munitions item to any recipient which is not the government of or a person in a country described in subsection (d) of this section if the United States person has reason to know that the munitions item will be made available to any country described in subsection (d) of this section.

(D) Taking any other action which would facilitate the acquisition, directly or indirectly, of any munitions item by the government of any country described in subsection (d) of this section, or any person acting on behalf of that government, if the United States person has reason to know that that action will facilitate the acquisition of that item by such a government or person.

(2) Liability for actions of foreign subsidiaries, etc.

A United States person violates this subsection if a corporation or other person that is controlled in fact by that United States person (as determined under regulations, which the President shall issue) takes an action described in paragraph (1) outside the United States.

(3) Applicability to actions outside the United States

Paragraph (1) applies with respect to actions described in that paragraph which are taken either within or outside the United States by a United States person described in subsection (1)(3)(A) or (B) of this section. To the extent provided in regulations issued under subsection (1)(3)(D) of this section, paragraph (1) applies with respect to actions described in that paragraph which are taken outside the United States by a person designated as a United States person in those regulations.

(c) Transfers to governments and persons covered

This section applies with respect to—

(1) the acquisition of munitions items by the government of a country described in subsection (d) of this section; and

(2) the acquisition of munitions items by any individual, group, or other person within a country described in subsection (d) of this section, except to the extent that subparagraph (D) of subsection (b)(1) of this section provides otherwise.

(d) Countries covered by prohibition

The prohibitions contained in this section apply with respect to a country if the Secretary of State determines that the government of that country has repeatedly provided support for acts of international terrorism. For purposes of this subsection, such acts shall include all activities that the Secretary determines willfully aid or abet the international proliferation of nuclear explosive devices to individuals or groups, willfully aid or abet an individual or groups in acquiring unsafeguarded special nuclear material, or willfully aid or abet the efforts of an individual or group to use, develop, produce, stockpile, or otherwise acquire chemical, biological, or radiological weapons.

(e) Publication of determinations

Each determination of the Secretary of State under subsection (d) of this section shall be published in the Federal Register.

(f) Rescission

(1) A determination made by the Secretary of State under subsection (d) of this section may not be rescinded unless the President submits to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate—

(A) before the proposed rescission would take effect, a report certifying that—

(i) there has been a fundamental change in the leadership and policies of the government of the country concerned;

(ii) that government is not supporting acts of international terrorism; and

(iii) that government has provided assurances that it will not support acts of international terrorism in the future; or

(B) at least 45 days before the proposed rescission would take effect, a report justifying the rescission and certifying that—

(i) the government concerned has not provided any support for international terrorism during the preceding 6-month period; and

(ii) the government concerned has provided assurances that it will not support acts of international terrorism in the future.

(2) (A) No rescission under paragraph (1)(B) of a determination under subsection (d) of this section may be made if the Congress, within 45 days after receipt of a report under paragraph (1)(B), enacts a joint resolution the matter after the resolving clause of which is as follows: “That the proposed rescission of the determination under section 40(d) of the Arms Export Control Act pursuant to the report submitted to the Congress on XXXXXXXXXX is hereby prohibited.”, the blank to be completed with the appropriate date.

(B) A joint resolution described in subparagraph (A) and introduced within the appropriate 45-day period shall be considered in the Senate and the House of Representatives in accordance with paragraphs (3) through (7) of section 8066(c) of the Department of Defense Appropriations Act (as contained in Public Law 98–473), except that references in such paragraphs to the Committees on Appropriations of the House of Representatives and the Senate shall be deemed to be references to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, respectively.

(g) Waiver

The President may waive the prohibitions contained in this section with respect to a specific transaction if—

(1) the President determines that the transaction is essential to the national security interests of the United States; and

(2) not less than 15 days prior to the proposed transaction, the President—

(A) consults with the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate; and

(B) submits to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report containing—

- (i)** the name of any country involved in the proposed transaction, the identity of any recipient of the items to be provided pursuant to the proposed transaction, and the anticipated use of those items;

- (iii)** the reasons why the proposed transaction is essential to the national security interests of the United States and the justification for such proposed transaction;
- (iv)** the date on which the proposed transaction is expected to occur; and
- (v)** the name of every United States Government department, agency, or other entity involved in the proposed transaction, every foreign government involved in the proposed transaction, and every private party with significant participation in the proposed transaction.

To the extent possible, the information specified in subparagraph (B) of paragraph (2) shall be provided in unclassified form, with any classified information provided in an addendum to the report.

(i) Relation to other laws

(2) Section 614 (a) waiver authority

If the authority of section 614(a) of the Foreign Assistance Act of 1961 [22 U.S.C. 2364 (a)] is used to permit a transaction under that Act [22 U.S.C. 2151 et seq.] or this chapter which is otherwise prohibited by this section, the written policy justification required by that section shall include the information specified in subsection (g)(2)(B) of this section.

L. 106-113 inserted “section 11(c)(2)(B) of such Act shall not apply, and instead, as prescribed in regulations issued under this section, the Secretary of State may assess civil penalties for violations of this chapter and regulations prescribed thereunder and further may commence a civil action to recover such civil penalties, and except further that” after “except that”.

1994—Subsec. (d). Pub. L. 103-236, § 822(a)(2)(A), inserted at end “For purposes of this subsection, such acts shall include all activities that the Secretary determines willfully aid or abet the international proliferation of nuclear explosive devices to individuals or groups or willfully aid or abet an individual or groups in acquiring unsafeguarded special nuclear material.”

Subsec. (l). Pub. L. 103-236, § 822(a)(2)(B), amended subsec. (l) by striking “and” after the semicolon in par. (2), substituting a semicolon for the period at the end of par. (3), and adding pars. (4) and (5).

1991—Subsec. (f). Pub. L. 102-138, § 321, designated existing provisions as par. (1), redesignated former par. (1) as subpar. (A) and former subpars. (A) to (C) as cls. (i) to (iii), respectively, redesignated former par. (2) as subpar. (B) and former subpars. (A) and (B) as cls. (i) and (ii), respectively, and added par. (2). So much of Pub. L. 102-138, § 321(1), as directed that subpar. (C) of former par. (2) be redesignated cl. (iii) of par. (1)(B), could not be executed because no such subpar. (C) had been enacted.

1989—Pub. L. 101-222 substituted “Transactions with” for “Exports to” in section catchline and amended text generally. Prior to amendment, text read as follows:

“(a) Prohibition.—Except as provided in subsection (b) of this section, items on the United States Munitions List may not be exported to any country which the Secretary of State has determined, for purposes of section 6(j)(1)(A) of the Export Administration Act of 1979 (50 App. U.S.C. 2405 (j)(1)(A)), has repeatedly provided support for acts of international terrorism.

“(b) Waiver.—The President may waive the prohibition contained in subsection (a) of this section in the case of a particular export if the President determines that the export is important to the national interests of the United States and submits to the Congress a report justifying that determination and describing the proposed export. Any such waiver shall expire at the end of 90 days after it is granted unless the Congress enacts a law extending the waiver.”

Effective Date of 1994 Amendment

Amendment by Pub. L. 103-236 effective 60 days after Apr. 30, 1994, see section 831 of Pub. L. 103-236, set out as an Effective Date note under section 6301 of this title.

SUBCHAPTER IV—GENERAL, ADMINISTRATIVE, AND MISCELLANEOUS PROVISIONS

.....

§ 2791. General provisions

(a) Considerations in procurement outside United States

In carrying out this chapter, special emphasis shall be placed on procurement in the United States, but, subject to the provisions of subsection (b) of this section, consideration shall also be given to coproduction or licensed production outside the United States of defense articles of United States origin when such production best serves the foreign policy, national security, and economy of the United States. In evaluating any sale proposed to be made pursuant to this chapter, there shall be taken into consideration

(A) the extent to which the proposed sale damages or infringes upon licensing arrangements whereby United States entities have granted licenses for the manufacture of the defense articles selected by the purchasing country to entities located in friendly foreign countries, which licenses result in financial returns to the United States,

(B) the portion of the defense articles so manufactured which is of United States origin, and

(C) whether, and the extent to which, such sale might contribute to an arms race, aid in the development of weapons of mass destruction, support international terrorism, increase the possibility of outbreak or escalation of conflict, or prejudice the development of bilateral or multilateral arms control or nonproliferation agreements or other arrangements.

(b) Information to Congress on credit sales and guaranties

No credit sale shall be extended under section 2763 of this title, and no guarantee shall be issued under section 2764 of this title, in any case involving coproduction or licensed, production outside the United States of any defense article of United States origin unless the Secretary of State shall, in advance of any such transaction, advise the appropriate committees of the Congress and furnish the Speaker of the House of Representatives and the President of the Senate with full information regarding the proposed transaction, including, but not limited to, a description of the particular defense article or articles which would be produced under a license or coproduced outside the United States, the estimated value of such production or coproduction, and the probable impact of the proposed transaction on employment and production within the United States.

(c) Availability of funds for procurement outside United States

Funds made available under this chapter may be used for procurement outside the United States only if the President determines that such procurement will not result in adverse effects upon the economy of the United States or the industrial mobilization base, with special reference to any areas of labor surplus or to the net position of the United States in its balance of payments with the rest of the world, which outweigh the economic or other advantages to the United States of less costly procurement outside the United States.

(d) Responsibility of Secretary of Defense with respect to sales and guaranties

(1) With respect to sales and guaranties under sections 2761, 2762, 2763, 2764, 2769 and 2770 of this title, the Secretary of Defense shall, under the direction of the President, have primary responsibility for—

(C) the supervision of the training of foreign military personnel;

(D) the movement and delivery of military end-items; and

- (E) within the Department of Defense, the performance of any other functions with respect to sales and guaranties.
- (2) The establishment of priorities in the procurement, delivery, and allocation of military equipment shall, under the direction of the President, be determined by the Secretary of Defense.
- (e) Revocation and suspension provisions of contracts for sale and export licenses; appropriations for refunds**
- (1) Each contract for sale entered into under sections 2761, 2762, 2769 and 2770 of this title, and each contract entered into under section 2767 (d) of this title, shall provide that such contract may be canceled in whole or in part, or its execution suspended, by the United States at any time under unusual or compelling circumstances if the national interest so requires.
- (2) (A) Each export license issued under section 2778 of this title shall provide that such license may be revoked, suspended, or amended by the Secretary of State, without prior notice, whenever the Secretary deems such action to be advisable.
- (B) Nothing in this paragraph may be construed as limiting the regulatory authority of the President under this chapter.
- (3) There are authorized to be appropriated from time to time such sums as may be necessary
- (A) to refund moneys received from purchasers under contracts of sale entered into under sections 2761, 2762, 2769 and 2770 of this title, or under contracts entered into under section 2767 (d) of this title, that are canceled or suspended under this subsection to the extent such moneys have previously been disbursed to private contractors and United States Government agencies for work in progress, and
- (B) to pay such damages and costs that accrue from the corresponding cancellation or suspension of the existing procurement contracts or United States Government agency work orders involved.

.....

§ 2795. Fund

(a) Establishment; purposes; special requirements and responsibilities; continuous orders for certain articles and services; articles for narcotics control purposes

(1) Under the direction of the President and in consultation with the Secretary of State, the Secretary of Defense shall establish a Special Defense Acquisition Fund (hereafter in this subchapter referred to as the “Fund”), to be used as a revolving fund separate from other accounts, under the control of the Department of Defense, to finance the acquisition of defense articles and defense service in anticipation of their transfer pursuant to this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or as otherwise authorized by law, to eligible foreign countries and international organizations, and may acquire such articles and services with the funds in the Fund as he may determine. Acquisition under this subchapter of items for which the initial issue quantity requirements for United States Armed Forces have not been fulfilled and are not under current procurement contract shall be emphasized when compatible with security assistance requirements for the transfer of such items.

(2) Nothing in this subchapter may be construed to limit or impair any responsibilities conferred upon the Secretary of State or the Secretary of Defense under this chapter or the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.].

(3) The Fund may be used to keep on continuous order such defense articles and defense services as are assigned by the Department of Defense for integrated management by a single agency thereof for the common use of all military departments in anticipation of the transfer of similar defense articles and defense services to foreign countries and international organizations pursuant to this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or other law.

(4) The Fund shall also be used to acquire defense articles that are particularly suited for use for narcotics control purposes and are appropriate to the needs of recipient countries, such as small boats, planes (including helicopters), and communications equipment.

(b) Collections in Fund

The Fund shall consist of—

(1) collections from sales made under letters of offer issued pursuant to section 2761 (a)(1)(A) of this title representing the actual value of defense articles not intended to be replaced in stock,

(2) collections from sales representing the value of asset use charges (including contractor rental payments for United States Government-owned plant and production equipment) and charges for the proportionate recoupment of nonrecurring research, development, and production costs, and

(3) collections from sales made under letters of offer (or transfers made under the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.]) of defense articles and defense services acquired under this subchapter, representing the value of such items calculated in accordance with subparagraph (B) or (C) of section 2761 (a)(1) of this title or section 2762 of this title or section 644(m) of the Foreign Assistance Act of 1961 [22 U.S.C. 2403 (m)], as appropriate,

together with such funds as may be authorized and appropriated or otherwise made available for the purposes of the Fund.

(c) Amounts

(1) The size of the Fund may not exceed such dollar amount as is prescribed in section 114 (c) of title 10. For purposes of this limitation, the size of the Fund is the amounts in the Fund plus the value (in terms of acquisition cost) of the defense articles acquired under this subchapter which have not been transferred from the Fund in accordance with this subchapter.

(2) Amounts in the Fund shall be available for obligation in any fiscal year only to such extent or in such amounts as are provided in advance in appropriation Acts.

SUBCHAPTER VI—LEASES OF DEFENSE ARTICLES AND LOAN AUTHORITY FOR COOPERATIVE RESEARCH AND DEVELOPMENT PURPOSES

.....

§ 2796. Leasing authority

(a) Preconditions

The President may lease defense articles in the stocks of the Department of Defense to an eligible foreign country or international organization if—

- (1) he determines that there are compelling foreign policy and national security reasons for providing such articles on a lease basis rather than on a sales basis under this chapter;
- (2) he determines that the articles are not for the time needed for public use;
- (3) the President first considers the effects of the lease of the articles on the national technology and industrial base, particularly the extent, if any, to which the lease reduces the opportunities of entities in the national technology and industrial base to sell new equipment to the country or countries to which the articles are leased; and
- (4) the country or international organization has agreed to pay in United States dollars all costs incurred by the United States Government in leasing such articles, including reimbursement for depreciation of such articles while leased, the costs of restoration or replacement if the articles are damaged while leased, and, if the articles are lost or destroyed while leased—
 - (A) in the event the United States intends to replace the articles lost or destroyed, the replacement cost (less any depreciation in the value) of the articles; or
 - (B) in the event the United States does not intend to replace the articles lost or destroyed, an amount not less than the actual value (less any depreciation in the value) specified in the lease agreement.

The requirement of paragraph (4) shall not apply to leases entered into for purposes of cooperative research or development, military exercises, or communications or electronics interface projects. The President may waive the requirement of paragraph (4) for reimbursement of depreciation for any defense article which has passed three-quarters of its normal service life if the President determines that to do so is important to the national security interest of the United States. The President may waive the requirement of paragraph (4) with respect to a lease which is made in exchange with the lessee for a lease on substantially reciprocal terms of defense articles for the Department of Defense, except that this waiver authority—

- (A) may be exercised only if the President submits to the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate, in accordance with the regular notification procedures of those Committees, a detailed notification for each lease with respect to which the authority is exercised; and
- (B) may be exercised only during the fiscal year¹ the current fiscal year and only with respect to one country, unless the Congress hereafter provides otherwise.

The preceding sentence does not constitute authorization of appropriations for payments by the United States for leased articles.

(b) Duration; termination

- (1) Each lease agreement under this section shall be for a fixed duration which may not exceed
 - (A) five years, and
 - (B) a specified period of time required to complete major refurbishment work of the leased articles to be performed prior to the delivery of the leased articles, and shall provide that, at any time during the duration of the lease, the President may terminate the lease and require the immediate return of the leased articles.

NB: This unofficial compilation of the U.S. Code is current as of Jan. 4, 2012 (see <http://www.law.cornell.edu/uscode/uscprint.html>).

(2) In this subsection, the term “major refurbishment work” means work for which the period of performance is 6 months or more.

(c) Applicable statutory authorities

Defense articles in the stocks of the Department of Defense may be leased or loaned to a foreign country or international organization only under the authority of this subchapter or chapter 2 of part II of the Foreign Assistance Act of 1961 [22 U.S.C. 2311 et seq.], and may not be leased to a foreign country or international organization under the authority of section 2667 of title 10.

§ 2797a. Denial of transfer of missile equipment or technology by United States persons

(a) Sanctions

(1) If the President determines that a United States person knowingly—

(A) exports, transfers, or otherwise engages in the trade of any item on the MTCR Annex, in violation of the provisions of section 2778 of this title, section 2404 or 2405 of title 50, Appendix, or any regulations or orders issued under any such provisions,

(B) conspires to or attempts to engage in such export, transfer, or trade, or

(C) facilitates such export, transfer, or trade by any other person,

then the President shall impose the applicable sanctions described in paragraph (2).

(2) The sanctions which apply to a United States person under paragraph (1) are the following:

(A) If the item on the MTCR Annex involved in the export, transfer, or trade is missile equipment or technology within category II of the MTCR Annex, then the President shall deny to such United States person for a period of 2 years—

(i) United States Government contracts relating to missile equipment or technology; and

(ii) licenses for the transfer of missile equipment or technology controlled under this chapter.

(B) If the item on the MTCR Annex involved in the export, transfer, or trade is missile equipment or technology within category I of the MTCR, then the President shall deny to such United States person for a period of not less than 2 years—

(i) all United States Government contracts, and

(ii) all export licenses and agreements for items on the United States Munitions List.

(b) Discretionary sanctions

In the case of any determination made pursuant to subsection (a) of this section, the President may pursue any penalty provided in section 2778 (c) of this title.

(c) Presumption

In determining whether to apply sanctions under subsection (a) of this section to a United States person involved in the export, transfer, or trade of an item on the MTCR Annex, it should be a rebuttable presumption that such item is designed for use in a missile listed in the MTCR Annex if the President determines that the final destination of the item is a country the government of which the Secretary of State has determined, for purposes of 2405(j)(1)(A)¹ of title 50, Appendix, has repeatedly provided support for acts of international terrorism.

(d) Waiver

The President may waive the imposition of sanctions under subsection (a) of this section with respect to a product or service if the President certifies to the Congress that—

- (1) the product or service is essential to the national security of the United States; and
- (2) such person is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met in a timely manner by improved manufacturing processes or technological developments.

§ 2797b. Transfers of missile equipment or technology by foreign persons

(a) Sanctions

(1) Subject to subsections (c) through (g) ¹ of this section, if the President determines that a foreign person, after November 5, 1990, knowingly—

- (A) exports, transfers, or otherwise engages in the trade of any MTCR equipment or technology that contributes to the acquisition, design, development, or production of missiles in a country that is not an MTCR adherent and would be, if it were United States-origin equipment or technology, subject to the jurisdiction of the United States under this chapter,
- (B) conspires to or attempts to engage in such export, transfer, or trade, or
- (C) facilitates such export, transfer, or trade by any other person,

or if the President has made a determination with respect to a foreign person under section 2410b (b)(1) of title 50, Appendix, then the President shall impose on that foreign person the applicable sanctions under paragraph (2).

(2) The sanctions which apply to a foreign person under paragraph (1) are the following:

- (A) If the item involved in the export, transfer, or trade is within category II of the MTCR Annex, then the President shall deny, for a period of 2 years—
 - (i) United States Government contracts relating to missile equipment or technology; and
 - (ii) licenses for the transfer to such foreign person of missile equipment or technology controlled under this chapter.
- (B) If the item involved in the export, transfer, or trade is within category I of the MTCR Annex, then the President shall deny, for a period of not less than 2 years—
 - (i) all United States Government contracts with such foreign person; and

(ii) licenses for the transfer to such foreign person of all items on the United States Munitions List.

(C) If, in addition to actions taken under subparagraphs (A) and (B), the President determines that the export, transfer, or trade has substantially contributed to the design, development, or production of missiles in a country that is not an MTCR adherent, then the President shall prohibit, for a period of not less than 2 years, the importation into the United States of products produced by that foreign person.

(b) Inapplicability with respect to MTCR adherents

(1) In general

Except as provided in paragraph (2), subsection (a) of this section does not apply with respect to—

(A) any export, transfer, or trading activity that is authorized by the laws of an MTCR adherent, if such authorization is not obtained by misrepresentation or fraud; or

(B) any export, transfer, or trade of an item to an end user in a country that is an MTCR adherent.

(2) Limitation

Notwithstanding paragraph (1), subsection (a) of this section shall apply to an entity subordinate to a government that engages in exports or transfers described in section 2295a (b)(3)(A) of this title.

(c) Effect of enforcement actions by MTCR adherents

Sanctions set forth in subsection (a) of this section may not be imposed under this section on a person with respect to acts described in such subsection or, if such sanctions are in effect against a person on account of such acts, such sanctions shall be terminated, if an MTCR adherent is taking judicial or other enforcement action against that person with respect to such acts, or that person has been found by the government of an MTCR adherent to be innocent of wrongdoing with respect to such acts, and if the President certifies to the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives that—

(1) for any judicial or other enforcement action taken by the MTCR adherent, such action has—

(A) been comprehensive; and

(B) been performed to the satisfaction of the United States; and

(2) with respect to any finding of innocence of wrongdoing, the United States is satisfied with the basis for such finding.

(d) Advisory opinions

The Secretary of State, in consultation with the Secretary of Defense and the Secretary of Commerce, may, upon the request of any person, issue an advisory opinion to that person as to whether a proposed activity by that person would subject that person to sanctions under this section. Any person who relies in good faith on such an advisory opinion which states that the proposed activity would not subject a person to such sanctions, and any person who thereafter engages in such activity, may not be made subject to such sanctions on account of such activity.

(e) Waiver and report to Congress

(1) In any case other than one in which an advisory opinion has been issued under subsection (d) of this section stating that a proposed activity would not subject a person to sanctions under this section, the President may waive the application of subsection (a) of this section to a foreign person if the President determines that such waiver is essential to the national security of the United States.

(2) In the event that the President decides to apply the waiver described in paragraph (1), the President shall so notify the Committee on Armed Services and the Committee on Foreign Relations of the Senate and the Committee on National Security and the Committee on International Relations of the House of Representatives not less than 45 working days before

issuing the waiver. Such notification shall include a report fully articulating the rationale and circumstances which led the President to apply the waiver.

(f) Presumption

In determining whether to apply sanctions under subsection (a) of this section to a foreign person involved in the export, transfer, or trade of an item on the MTCR Annex, it should be a rebuttable presumption that such item is designed for use in a missile listed in the MTCR Annex if the President determines that the final destination of the item is a country the government of which the Secretary of State has determined, for purposes of 2405(j)(1)(A)² of title 50, Appendix, has repeatedly provided support for acts of international terrorism.

(g) Additional waiver

The President may waive the imposition of sanctions under paragraph (1) on a person with respect to a product or service if the President certifies to the Congress that—

- (1) the product or service is essential to the national security of the United States; and
- (2) such person is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met in a timely manner by improved manufacturing processes or technological developments.

(h) Exceptions

The President shall not apply the sanction under this section prohibiting the importation of the products of a foreign person—

- (1) in the case of procurement of defense articles or defense services—
 - (A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy requirements essential to the national security of the United States;
 - (B) if the President determines that the person to which the sanctions would be applied is a sole source supplier of the defense articles and services, that the defense articles or services are essential to the national security of the United States, and that alternative sources are not readily or reasonably available; or
 - (C) if the President determines that such articles or services are essential to the national security of the United States under defense coproduction agreements or NATO Programs of Cooperation;
- (2) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose the sanctions; or
- (3) to—
 - (A) spare parts,
 - (B) component parts, but not finished products, essential to United States products or production,
 - (C) routine services and maintenance of products, to the extent that alternative sources are not readily or reasonably available, or
 - (D) information and technology essential to United States products or production.

to the efforts by any foreign country, project, or entity described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

(2) Countries, projects, or entities receiving assistance

Paragraph (1) applies in the case of—

(A) any foreign country that the President determines has, at any time after January 1, 1980—

(b) Consultations with and actions by foreign government of jurisdiction

(2) Actions by government of jurisdiction

In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1) of this section. The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

(e) Waiver

(1) Criterion for waiver

The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

(2) Notwithstanding paragraph (1) of this subsection, the President in any fiscal year may furnish assistance which would otherwise be prohibited under that paragraph if he determines and certifies in writing during that fiscal year to the Speaker of the House of Representatives and the Committee

on Foreign Relations of the Senate that the termination of such assistance would be seriously prejudicial to the achievement of United States nonproliferation objectives or otherwise jeopardize the common defense and security. The President shall transmit with such certification a statement setting forth the specific reasons therefor.

- (3) (A) A certification under paragraph (2) of this subsection shall take effect on the date on which the certification is received by the Congress. However, if, within 30 calendar days after receiving this certification, the Congress enacts a joint resolution stating in substance that the Congress disapproves the furnishing of assistance pursuant to the certification, then upon the enactment of that resolution the certification shall cease to be effective and all deliveries of assistance furnished under the authority of that certification shall be suspended immediately.
- (B) Any joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(b) Prohibitions on assistance to countries involved in transfer or use of nuclear explosive devices; exceptions; procedures applicable

(1) Except as provided in paragraphs (4), (5), and (6), in the event that the President determines that any country, after the effective date of part B of the Nuclear Proliferation Prevention Act of 1994—

(A) transfers to a non-nuclear-weapon state a nuclear explosive device,

(B) is a non-nuclear-weapon state and either—

(i) receives a nuclear explosive device, or

(ii) detonates a nuclear explosive device,

(C) transfers to a non-nuclear-weapon state any design information or component which is determined by the President to be important to, and known by the transferring country to be intended by the recipient state for use in, the development or manufacture of any nuclear explosive device, or

(D) is a non-nuclear-weapon state and seeks and receives any design information or component which is determined by the President to be important to, and intended by the recipient state for use in, the development or manufacture of any nuclear explosive device,

then the President shall forthwith report in writing his determination to the Congress and shall forthwith impose the sanctions described in paragraph (2) against that country.

(2) The sanctions referred to in paragraph (1) are as follows:

(A) The United States Government shall terminate assistance to that country under the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], except for humanitarian assistance or food or other agricultural commodities.

(C) The United States Government shall terminate all foreign military financing for that country under this chapter.

(D) The United States Government shall deny to that country any credit, credit guarantees, or other financial assistance by any department, agency, or instrumentality of the United States Government, except that the sanction of this subparagraph shall not apply—

(i) to any transaction subject to the reporting requirements of title V of the National Security Act of 1947 [50 U.S.C. 413 et seq.] (relating to congressional oversight of intelligence activities),

(ii) to medicines, medical equipment, and humanitarian assistance, or

- (iii) to any credit, credit guarantee, or financial assistance provided by the Department of Agriculture to support the purchase of food or other agricultural commodity.
- (E) The United States Government shall oppose, in accordance with section 262d of this title, the extension of any loan or financial or technical assistance to that country by any international financial institution.
- (F) The United States Government shall prohibit any United States bank from making any loan or providing any credit to the government of that country, except for loans or credits for the purpose of purchasing food or other agricultural commodities, which includes fertilizer.
- (G) The authorities of section 2405 of title 50, Appendix, shall be used to prohibit exports to that country of specific goods and technology (excluding food and other agricultural commodities), except that such prohibition shall not apply to any transaction subject to the reporting requirements of title V of the National Security Act of 1947 [50 U.S.C. 413 et seq.] (relating to congressional oversight of intelligence activities).
- (3) As used in this subsection—
- (A) the term “design information” means specific information that relates to the design of a nuclear explosive device and that is not available to the public; and
- (B) the term “component” means a specific component of a nuclear explosive device.
- (4) (A) Notwithstanding paragraph (1) of this subsection, the President may, for a period of not more than 30 days of continuous session, delay the imposition of sanctions which would otherwise be required under paragraph (1)(A) or (1)(B) of this subsection if the President first transmits to the Speaker of the House of Representatives, and to the chairman of the Committee on Foreign Relations of the Senate, a certification that he has determined that an immediate imposition of sanctions on that country would be detrimental to the national security of the United States. Not more than one such certification may be transmitted for a country with respect to the same detonation, transfer, or receipt of a nuclear explosive device.
- (B) If the President transmits a certification to the Congress under subparagraph (A), a joint resolution which would permit the President to exercise the waiver authority of paragraph (5) of this subsection shall, if introduced in either House within thirty days of continuous session after the Congress receives this certification, be considered in the Senate in accordance with subparagraph (C) of this paragraph.
- (C) Any joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.
- (D) For purposes of this paragraph, the term “joint resolution” means a joint resolution the matter after the resolving clause of which is as follows: “That the Congress having received on XX a certification by the President under section 102(b)(4) of the Arms Export Control Act with respect to XX, the Congress hereby authorizes the President to exercise the waiver authority contained in section 102(b)(5) of that Act.”, with the date of receipt of the certification inserted in the first blank and the name of the country inserted in the second blank.
- (5) Notwithstanding paragraph (1) of this subsection, if the Congress enacts a joint resolution under paragraph (4) of this subsection, the President may waive any sanction which would otherwise be required under paragraph (1)(A) or (1)(B) if he determines and certifies in writing to the Speaker of the House of Representatives and the Committee on Foreign Relations of the Senate that the imposition of such sanction would be seriously prejudicial to the achievement of United States nonproliferation objectives or otherwise jeopardize the common defense and security. The President shall transmit with such certification a statement setting forth the specific reasons therefor.
- (6) (A) In the event the President is required to impose sanctions against a country under paragraph (1)(C) or (1)(D), the President shall forthwith so inform such country and shall

impose the required sanctions beginning 30 days after submitting to the Congress the report required by paragraph (1) unless, and to the extent that, there is enacted during the 30-day period a law prohibiting the imposition of such sanctions.

(B) Notwithstanding any other provision of law, the sanctions which are required to be imposed against a country under paragraph (1)(C) or (1)(D) shall not apply if the President determines and certifies in writing to the Committee on Foreign Relations and the Committee on Governmental Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives that the application of such sanctions against such country would have a serious adverse effect on vital United States interests. The President shall transmit with such certification a statement setting forth the specific reasons therefor.

(7) For purposes of this subsection, continuity of session is broken only by an adjournment of Congress sine die and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.

(8) The President may not delegate or transfer his power, authority, or discretion to make or modify determinations under this subsection.
