**CONDITIONS OF ISSUANCE AND TEMPORARY EXPORT PROCEDURES**

1. This license is issued under the conditions cited in 22 CFR 120-130, including conditions and limitations as applicable to the specific license authorization.
2. Approval of this license shall not be construed as implying U.S. Government approval or commitment to authorize future exports of any defense article on the U.S. Munitions List (USML) or any U.S. Government commitment with regard to any proposed manufacturing license, technical assistance or distribution agreement that may result from a license authorization.
3. The issuance of a license for the temporary export of hardware does not authorize the export of any technical data, unless authorized by an exemption.
4. The issuance of this license does not release the applicant, or anyone acting on its behalf, from complying with other requirements of U.S. law and regulations.
5. This transaction may be subject to end-use monitoring by the United States Government.
6. No transfer of title is authorized to occur during the period of temporary export from the United States and access to the defense article by foreign persons shall only be in accordance with and for the purpose identified on the license.
7. Licenses for the temporary export of an aircraft or vessel: The applicant when using this license agrees that during its sojourn abroad (1) the aircraft/vessel will remain demilitarized or has only those capabilities that are subject of this license, (2) the applicant will maintain a valid U.S. certification or registry, (3) the aircraft/vessel will not be used in military activities, and (4) it will be operated only by a United States licensed operator (except during U.S. Government approved demonstrations). Also, during its sojourn abroad, the commander will not transport in the aircraft/vessel any defense articles (e.g., arms, ammunitions or implements of war) as described in the U.S. Munitions List unless authorized in this license or by a separate license or exemption under appropriate U.S. Government regulations.
8. The prior written approval of the Department of State, Directorate of Defense Trade Controls, must be obtained before USML articles exported from the United States using a license or other approval, to include an ITAR exemption, may be resold, transferred, diverted, transshipped, reshipped, re-exported to, or used in any country, or by any end user or for any end use, other than that described on the license or other approval.
9. The defense articles authorized for temporary export may be shipped only from a U.S. Port where a U.S. Customs and Border Protection officer is available. It may not be shipped on any vessel, aircraft or other means of conveyance that is owned or operated by, or leased to or from, any of the proscribed countries or areas. The applicant retains the original license. Prior to each export or entry the applicant presents the original license to a U.S. Customs and Border Protection officer for verification and endorsement, having declared the export or entry in accordance with the ITAR and U.S. Customs and Border Protection procedures using the Automated Export System (AES). When a license is authorized for the temporary export of an aircraft and vessel, in addition to presenting the license for verification and endorsement, the exporter must carry the U.S. Customs and Border Protection endorsed license on board as evidence of proper export authorization. Any article temporarily exported must be returned to the U.S. prior to expiration of the license. Otherwise the applicant must request a renewal license at least 60 days prior to the expiration date to renew the authorization.
