Internal Revenue Service  
Form 8928  
Return of Certain Excise Taxes Under Chapter 43 of the Internal Revenue Code  
(Under sections 4980B, 4980D, 4980E, and 4980G)  
TD 9457 (Final)  
OMB Control No. 1545-2146

1. CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION

The Form 8928 is used to report and pay the excise tax on certain failures by group health plans or employers. (as well as other excise taxes under chapter 43).

The collection of information required by § 54.6011-2 results from the requirements under TD 9457 to file a return for the payment of the excise taxes under section 4980B, 4980D, 4980E and 4980G. The final regulations provide the requirement for filing of the return and the time for filing.

The ARRA provides for a premium reduction for COBRA continuation coverage elected by certain individuals as the result of an involuntary termination of employment. The failure to provide COBRA continuation coverage upon partial payment is a failure to satisfy the COBRA requirements, resulting in the imposition of the excise tax under section 4980B. These final regulations provide a method and manner for the payment and reporting of the excise tax.

2. USE OF DATA

The information will be used for payment and reporting of the excise taxes under section 4980B, 4980D, 4980E and 4980G.

3. USE OF IMPROVED INFORMATION TECHNOLOGY TO REDUCE BURDEN

There are no plans to provide electronic filing because electronic filing is not appropriate for the collection of information in this submission.

4. EFFORTS TO IDENTIFY DUPLICATION

The information obtained through this collection is unique and is not already available for use or adaptation from another source.

5. METHODS TO MINIMIZE BURDEN ON SMALL BUSINESSES OR OTHER SMALL ENTITIES

There is no burden on small businesses or entities by this collection due to the inapplicability of the authorizing statute to this type of entity.

6. CONSEQUENCES OF LESS FREQUENT COLLECTION ON FEDERAL PROGRAMS OR POLICY

## ACTIVITIES

Less frequent collection on federal programs and policy activities would result in the IRS inability to report and collect excise tax payments under sections 4980B, 4980D, 4980E or 4980G; thereby endangering the IRS to meet its mission. Therefore, reporting of excise tax would not be made timely.

### 7. SPECIAL CIRCUMSTANCES REQUIRING DATA COLLECTION TO BE INCONSISTENT WITH GUIDELINES IN 5 CFR 1320.5(d)(2)

There are no special circumstances requiring data collection to be inconsistent with guidelines in 5CFR 1320.5(d)(2).

Authorities	Description	# of Respondents	#Responses per Respondent	Annual Response	Hours per Response	Total Burden

13. ESTIMATED TOTAL ANNUAL COST BURDEN TO RESPONDENTS

To ensure more accuracy and consistency across its information collections, IRS is currently in the process of revising the methodology it uses to estimate burden and costs. Once this methodology is complete, IRS will update this information collection to reflect a more precise estimate of burden and costs.

14. ESTIMATED ANNUALIZED COST TO THE FEDERAL GOVERNMENT

The Federal government cost estimate is based on a model that considers the following three cost factors for each information product: aggregate labor costs for development, including annualized start up expenses, operating and maintenance expenses, and distribution of the product that collects the information.

The government computes cost using a multi-step process. First, the government creates a weighted factor for the level of effort to create each information collection product based on variables such as; complexity, number of pages, type of product and frequency of revision. Second, the total costs associated with developing the product such as labor cost, and operating expenses associated with the downstream impact such as support functions, are added together to obtain the aggregated total cost. Then, the aggregated total cost and factor are multiplied together to obtain the aggregated cost per product. Lastly, the aggregated cost per product is added to the cost of shipping and printing each product to IRS offices, National Distribution Center, libraries and other outlets. The result is the Government cost estimate per product.

The government cost estimate for this collection is summarized in the table below.

<u>Product</u>	<u>Aggregate Cost per Product (factor applied)</u>	<u>Printing and Distribution</u>	<u>Government Cost Estimate per Product</u>
Form	\$ 11,917		\$ 11,917
Form Instructions	\$ 2,979		\$ 2,979
<b>Grand Total</b>	<b>\$14,896.00</b>		<b>\$14,896.00</b>
Table costs are based on 2016 actuals obtained from IRS Chief Financial Office and Media and Publications			
* New product costs will be included in the next collection update.			

15. REASONS FOR CHANGE IN BURDEN

There is no change in the burden previously approved by OMB. We are making this submission to renew the OMB approval.

16. PLANS FOR TABULATION, STATISTICAL ANALYSIS AND PUBLICATION

There no plans for tabulation, statistical analysis and publication.

17 . REASONS WHY DISPLAYING THE OMB EXPIRATION DATE IS INAPPROPRIATE

IRS believes that displaying the OMB expiration date is inappropriate because it could cause confusion by leading taxpayers to believe that the regulations sunset as of the expiration date. Taxpayers are not likely to be aware that the Service intends to request renewal of the OMB approval and obtain a new expiration date before the old one expires.

18. EXCEPTIONS TO THE CERTIFICATION STATEMENT

There is no exception to the certification statement.

Note: The following paragraph applies to all of the collections of information in this submission:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.
